INTRODUCTION

ABOUT THE 2017/18 ANNUAL REPORT

This report offers an overview of the operations, financial, non-financial activities and the performance of Kannaland Municipality for the 2018/19 financial year. The annual report is prepared in terms of Section 127(3) and the process has been trailed as per section 127 (3) (a-c) stipulated in the Municipal Finance Management Act (MFMA).

Please note that the draft contains unaudited financial information, due to the audit still in process. The municipality wants to align the report as effectively as possible. This will be incorporated when the final document is produced.

The Annual Report comprises of six chapters with the following broad overview:

Chapter 1: An overview of the Municipality's social and demographic profile and key highlights regarding finance, performance and service delivery.

Chapter 2: Details about the governmental workings of the Municipality addressing the key aspects of good governance.

Chapter 3: Highlights the Municipality's performance for the year, focussing on the service delivery and the Pre-determined objectives of the Council.

Chapter 4: Provides insight into the Human Resources and organisational management areas of the Municipality, focussing on organisational structure and legislation.

Chapter 5: An overview of the Municipality's financial performance, reflecting on the Municipality's financial position, assets, cash flow and intergovernmental grants received by the Municipality. – Will be updated once the annual financial statements is in final stage to be incorporated in the annual report

Chapter 6: An overview of the audit key findings per the Auditor-General - Will be incorporated once the audit is concluded

MAGDALENA BARRY EXECUTIVE MAYOR

COMPONENT B: EXECUTIVE SUMMARY

1.1. MUNICIPAL MANAGER'S OVERVIEW

COMPONENT A: FOREWORD OF THE EXECUTIVE MAYOR

This foreword will be incorporated in the final Annual Report

REYNOLD STEVENS MUNICIPAL MANAGER

1.2. MUNICIPAL FUNCTIONS, POPULATION AND ENVIRONMENTAL OVERVIEW

This report addresses the performance of the Kannaland Municipality in the Western Cape in respect of its core legislative obligations. Local government must create the participatory framework that defines and enhances the relationship between elected leaders and their communities. This requires that the council of the Municipality provide regular and predictable reporting on programme performance and the general state of affairs in the Municipality.

The 2018/19 Annual Report reflects on the performance of Kannaland Municipality for the period 1 July 2018 to 30 June 2019. The Annual Report is prepared in terms of Section 121(1) of the Municipal Finance Management Act (MFMA), which stipulates that the Municipality must prepare an Annual Report for each financial year.

The municipality is now currently in process of reviewing its corporate identity. More detail will be incorporated in the final annual report with comparisons of current and old versions of the logo.

Vision

The municipality committed itself to the following vision and mission:

The place of choice: - To create the ideal environment in which the people of Kannaland would like to live and work

The Municipality is legally compelled to create, within its means, the environment conducive to economic growth. The environment influences one's choices; the choice of a working place, residence and for investors, the place to invest and to contribute towards the economic growth of the community. It is up to the leaders of this Municipality to create that ideal environment that would not only make those already here, to want to remain here, but also to retain and draw the highly skilled individuals, investors and entrepreneurs who would contribute towards ensuring that Kannaland improves and becomes a most sought-after destination.

The Constitution of the Republic of South Africa, 1996 (the Constitution) stipulates the objects of local government in section 152 as:

- a) To provide democratic and accountable government for local communities,
- b) To ensure the provision of services to communities in a sustainable manner;
- c) To promote social and economic development;
- d) To promote a safe and healthy environment; and
- e) To encourage the involvement of communities and community organisations in the matters of local government.

The Municipality strives to comply with the objects of local government and to attain the ideal environment, as elaborated upon in this document, by

- Caring for youth, women and disabled by reducing inequities;
- Eradication of poverty and creating an environment conducive to job creation;
- Eradication of fraud and corruption;
- Ensuring sound financial practices,
- Practising good governance;
- Promoting community involvement (including the business community) in local governance, economic growth, development of entrepreneurs and job creation;
- Practicing the Batho Pele principles of courtesy and respect;
- Promoting and developing tourism; and by
- Sustainably stimulating the local economy.

It is envisioned that the municipal vision will be achieved through:

- Encouraging self-reliance;
- Ensuring co-ordination and collaboration of various stakeholders in the delivering of development in a sustainable manner;
- Promoting a healthy and vibrant community with high moral standards;
- Unlocking the development potential of the area, particularly tourism and indigenous knowledge and mobilizing investment; and
- Ensuring everyone will be active in the economy and utilize technology to the advantage
 of the Municipality and attract and keep a highly skilled work force.

Kannaland Municipality is classified as a Category B Municipality (a local Municipality) located in the Garden Route District Municipality and is responsible for basic service provision to the towns of Ladysmith, Calitzdorp, Vanwyksdorp, Zoar and surrounding rural areas.

MUNICIPAL FUNCTIONS

The Municipality is structured in three directorates namely, Corporate Services (Administration and Community Services), Finance and Technical Services. The Technical Services department currently reports directly to the Municipal Manager as the position of Director: Technical Services has been vacant for the entire year under review and remains vacant as a cost-cutting measure.

The Municipality's administration comprises of the following departments and functions:

DEPARTMENT	FUNCTION (SECTION)
Municipal Manager	 Integrated development planning Corporate strategy Performance management Communications Inter-governmental relations International relations Local economic development and tourism Spatial development planning Internal Audit Risk Management
Financial Services	 Revenue management Expenditure management Budget preparation and management Preparation of financial statements Information Communication and Technology (ICT) Supply chain management Asset management

	 Roads and storm water
	 Waste water services (Sanitation)
	Water services
	Electrical services
	Fleet Management
	 Mechanical workshops (pumps, implements and vehicles)
	 Project management: MIG,RBIG, ACIP and other infrastructure projects

TABLE 1: FUNCTIONS PER DEPARTMENT

DEMOGRAPHICAL OVERVIEW

Kannaland Municipality is situated in the Western Cape, 325 kilometres from Cape Town. The Municipality covers an area of 4,758 square kilometres in the Little Karoo, stretching from the Swartberg Mountain in the north to the Langeberg Mountain in the south, and from the Anysberg Mountain in the west to the Gamkaberg Mountain in the east.

The largest town and also the location of the municipal headquarters is Ladismith. Ladismith is situated at the foot of the picturesque Swartberg Mountains, as is Zoar and Calitzdorp to the east. Vanwyksdorp is further south in the valley of the Groot River.

Please note that the information remains the same as noted in the 2017/18 financial year Annual Report. Statistics remain a challenge and will be addressed in future. Too many sources are being used to calculate the statistics of Kannaland and varies in data. The data of Statistic South Africa 2011 is currently used in most cases.

Industries and activities in the various towns include:

TOWN	INDUSTRIES
Ladismith	Ladismith Cheese factory
	Parmalat Dairy factory
	Tourism:
	Hiking trails amongst the Swartberg ranges, Stanly's Liggie as well rock climbing to the well-known Towerkop peak.
	Southern Cape Vineyards (also exports wine)
	Scenic drives around the game reserves
	The town boasts a unique Ladismith architectural style which is a combination of Victorian, neo-gothic, Edwardian, Cape Dutch Revival and Regency.
	The economy of the town is mainly centered on the agricultural industry, which includes the production of fruit (grapes, apricots, and plums), milk, wine, flowers and mutton.
	Accommodation available in town as well as amongst picturesque winelands, abundant fruit farms and the magnificent Towerkop Mountain.

0.111	
Calitzdorp	Port wine capital of South Africa Wine exporting farms Calitzdorp can also be explored through its hot springs, back packers facilities, hiking and biker trails as well camping sites with relaxing accommodation. The general architecture of the central village area of Calitzdorp is English-derived and its beauty is that of severe simplicity in the so-called Karoo style. Calitzdorp falls within The Cape Floral Kingdom region which has been called the world's hottest spot for plant diversity and endemism. The flora is so diverse and unique that it warrants classification as one the world's six principal floristic regions. The town is known for its art and craft assembles: Elnatan Food Stall and Solar Cookers Groenfontein Toy Project Hand Made Ceramic Tiles Homemade pickles and preserves Wemasi handmade dolls (doll project) Local art painters Art gallery Fruit production Wine production
Zoar	Started as a Lutheran missionary station Restored church building and historic grave yard and farm buildings Historic scenic drive through Amalienstein Hiking trails through the Seweweekspoort Homestays Tant Carolina Guesthouse Fruit production Jam production Indigenous Tourism Towing Services
Vanwyksdorp	Popular for its rural character Vanwyksdorp Development Institute (non-profit organization aimed at socio- economic upliftment of poor rural communities) Learning campus to acquire skills and incubate entrepreneurial activities Fruit production Olive production
Hoeko Valley	Birthplace of C J Langenhoven, famous South African writer (composer of the anthem "Die Stem") Water monument Fruit production Hiking Trails Guesthouses

TABLE 2: KANNALAND INDUSTRIES AND ACTIVITIES

POPULATION PROFILE

The table and graph below indicates the population forecasting of Kannaland population

POPULATION FORECASTING		
YEAR	KANNALAND POPULATION	
2018	23 897	
2019	24530	
2020	26014	
2021	26014	
2022	26789	
2023	27647	
2024	28466	

TABLE 3: POPULATION OF KANNALAND - SOURCE: LOCAL GOVERNMENT SOCIO ECONOMIC PROFILE, 2018

According to the Department of Social Development's 2018 projections, Kannaland Municipality currently has a population of 23 897, rendering it the smallest municipal area by population within the Garden Route District. This total is estimated to increase to 28 466 by 2024 which equates to 3.0 per cent average annual growth over this period. The population growth within the Kannaland municipal area for the 2018 to 2024 period is higher than the Garden Route District's rate of 1.9 per cent during the same period.

HOUSEHOLDS

The table and graph indicates the number of households and indigents within the municipal area. The numbers of total number of households emanates from the community survey conducted in 2016 by statssa and MERO 2017 whilst the poor households were retrieved from the municipal financial system.

The struggle of comparison of statistics remain the main challenge as we are dependent of the stats from mero's and community surveys conducted by independent parties – statssa in partnership. The general census will be conducted in 2020/2021.

DATA SOURCED – SA 9				
Economic Indicator	2016	2018/19		
	Community Survey	MERO 2017		
Number of households in municipal area	6333	7537		
Number of poor households in municipal	2059	2665		
area

2018/19	3184	306	7537	2388	11,9%	16,7%	34,1%	49,2%
								T.1.2.4

TABLE 5: SOCIO ECONOMIC STATUS SOURCE: MERO 2017

ENVIRONMENT, TOURISM AND LOCAL ECONOMIC DEVELOPMENT

The municipal area is very popular for its rural rustic Karoo scenery amongst domestic and foreign tourists. Our unique offerings in the heart of the Klein Karoo, the local top class brandy, port and wines, hot springs and top class cheese industries, provide attractions for tourists with distinctive tastes who enjoy trying new delicacies.

An important role and function of the Municipality is to balance the need for development with the need to reserve the fauna and flora which are an important leverage within the agriculture and tourism industry. In this regard the Municipality cooperates with the relevant sector departments, National Parks and the private sector for the best opportunities with the least damage to nature. The area is very popular amongst artists, cyclists and off-road enthusiasts who come here for untouched natural beauty.

The Municipality has a difficult task to balance the interest in the natural environment with the need to promote development which will address the socio-economic under-development, infrastructure backlogs and the need to promote investment inflows to the area. The Spatial Development Framework (which is reflected in the IDP) will be one of the key strategic tools with which the Municipality will balance these competing interests.

The table below reflects the natural resources within the municipal area:

Natural Resources	
Major Natural Resource	Relevance to Community
Water	Basic need to all residence
Electricity	Basic need to all residence

TABLE 6: NATURAL RESOURCES

1.3. SERVICE DELIVERY OVERVIEW

Government policy places specific emphasis on the provision of basic services, which entail the provision of electricity, water, sanitation and waste collection. Chapter 3 provides more detailed information on basic service delivery as well as all other functions rendered by the Municipality during 2018/19.

BASIC SERVICE DELIVERY HIGHLIGHTS FOR 2018/19

During the 2018/19 financial year, the municipality made the following contributions to satisfy basic requirements:

SERVICE	HIGHLIGHT DESCRIPTION
WATER SECURITY AND PROVISION	Providing water for tanks to schools and some farm areas in dry summer months in Kannaland area with assistance from the GRDM and provincial government.
	Monthly laboratory results of water samples that comply with SANS 241 with regards to the quality of water
	Supply emergency water to hospitals and schools Refurbishment of the pipeline system at the borehole plant in Ladismitn
	Refurbishment of the pipeline system at the borehole plant in Ladismith Refurbishment of boreholes as well a new borehole pump and pipeline at the Swartberg River in Ladismith

ELECTRICITY	Upgrade of the main electricity substation including installation of new 20 MVA transformer in Ladismith (R8m VAT included) .
	Better internal controls within the department
	Network and transformer audit was conducted to determine the number of assets to be refurbished or replaced.
	Daily electrical work are being successfully completed within 24 hours from callout
	Staff morale has been improved which resulted in increased productivity
	Bulk, conventional and prepaid electrical meter audit was conducted.
	Faulty meters were identified to be replaced and the system will be upgraded in the next 2 financial years to ensure the data is clean and reliable
	A cost analysis was done of the demand to be saved in terms of Eskom penalties
ROADS	This function remains a challenge, due to financial constraints. Repairs and maintenance should be throughout the entire municipal area.

PMU				
	Contract workers became permanent it o the EPWP programme			
	100% MIG spending for the year under reiew			
	Best achiever award for the EPWP results			
GOOD GOVERNANCE	Functional ward committee meetings			
	Thusong outreaches to enable the local community to do their personal affairs wrt government services.			
	Engagement with stakeholders internal and external on municipal affairs			
	Good progress have been made in the turn-around of the Municipality although much effort is still required.			
	MOU in place wrt internal audit and risk management with assistance from Garden Route District Municipality			
	There is momentum regarding governance structures and a commitment to function. The intervention actions rendered progress and the final hurdles need to be tackled now			
	Functional meetings with LLF members			
	Restructuring of organogram			
	Adhering to Mscoa			
	Appointment of a Chief Financial Officer, BTO Manager as stipulated to the FRP			
	Implementation of the FRP –			
	Organisational structure renewal			
	Job description in process			
	Training development			
FINANCIAL VIABILITY				
	The payment rate of the Municipality has been increased to an average of (still to be confirmed)			
DISASTER	Disaster Management Committee has been established and actively during drought period			
MANAGEMENT	Starter packs were given to storm damage households in Kannaland			
	Water were made available to affected areas			

TABLE 7: HIGHLIGHTS DURING THE 2018/19 FINANCIAL YEAR

During the 2018/19 financial year, the municipality faced the following challenges:

Service Area	Challenge	Interventions to address
Infrastructure: Water, roads, sanitation, electrical	Inadequate funding (grant and own funding)	Infrastructure maintenance and upgrades are the most crucial issues in the Municipality. Additional funding is required to address infrastructure maintenance and upgrades.
	Large number of faulty water meters. Users only pay for basic services until meters are replaced-financial loss	Funding and manpower required to repair/replace faulty water meters
	Roads - Grant funding not adequate to maintain upgraded roads.	Ongoing application for external funding from various sources.
	Electricity - maintaining and managing electricity losses due to aging networks	Ongoing application for external funding from various sources.
	Water - availability of water, especially in the hot and dry summer months	Fast-tracking of the ACIP & RBIG funding requests for WWTW's & Ladismith Swart Berg Dam raised at the Back to Basics, Water and Sanitation forums and as well IDP forums
	Non-compliance regarding the operation of refuse sites are serious. No funding is available to comply with the requirements.	The Municipality is in a mediation process with the Department of Environmental Affairs and Public Prosecution.
Fleet Management	Limited fleet available in all service delivery departments	This was raised and addressed with DLG and funding applications were submitted for fleet required.

Human Settlements	Challenges exist with regard to the capacity of bulk infrastructure services resulting in significant increases in housing waiting lists Incorrect title deeds	Funding required to increase the capacity of bulk infrastructure to allow for new housing developments Appoint a surveyor to alleviate the risk of incorrect title deeds
	Huge demand for low cost and GAP housing	Ongoing liaison with the Department of Human Settlements to fund the implementation of the human settlement pipeline

TABLE 8: CHALLENGES DURING THE 2018/19 FINANCIAL YEAR

PROPORTION OF HOUSEHOLDS WITH ACCESS TO BASIC SERVICES

(The information will be included after the final audit has been concluded)

Proportion of Households to basic services as per municipal statistics			
	2017/18	2018/19	
Electricity service connections 3789			
Water - available within 200 m from dwelling 4889 4915			
Sanitation - Households with at leats VIP service 4434 4459			
Waste collection - kerbside collection once a week 4778 4861			

TABLE 9: PROPORTION OF HOUSEHOLDS TO BASIC SERVICES AS PER MUNICIPAL STATISTICS (SOURCE: SAMRAS)

The variances in numbers for basic service can be attributed to the fact that not all households have access to the same level of service (e.g. in informal areas households have access to communal taps) and in certain areas ESKOM is the distributor of electricity. A large part of Calitzdorp is not connected to the sewage system but septic tanks are emptied when full.

In Zoar 10 households still have to make use of the bucket system which must still be eradicated. Due to the fact that the area is situated in a rocky area, the cost of installing sewage will be high and therefore the bucket system has not been eradicated there. Pit latrines are still used in the Calitzdorp (15) and in Vanwyksdorp (30). In Vanwyksdorp 100 septic tanks are being serviced by the Municipality.

1.4. FINANCIAL OVERVIEW

The audit report is under review and will be finalised in February 2020

CHALLENGES REGARDING FINANCIAL MANAGEMENT FOR 2018/19

SERVICE AREA	CHALLENGE	INTERVENTION
Late submission of Annual Financial Statements	The post of chief financial officer become vacant in November 2018 whereby the new permanent appointment were made in February 2019. Significant governance challenges of long standing key vacancies in the finance department affecting effective monitoring and oversight of actions to enable the timely preparation of the financial statements;	Provincial Treasury assisted with Financial Recovery Plan Appointment of CFO and BTO Manager
Financial system	 Capacity and skills challenges, including severe funding constraints to manage the mSCOA implementation process; The inability of existing accounting and information systems to accommodate the technical specifications set in the mSCOA, negatively affected the finalisation of data migration and mapping processes; Loss through theft of stand-alone laptop containing mSCOA data-base and general ledger that required the rebuild of the database; Ongoing segmentation errors and system set-up issues, which affect the recording of and reporting on transactions, including the loading and management of the annual and adjustment budgets; Inaccurate recording of transactions on the accounting system; 	

SERVICE AREA	CHALLENGE	INTERVENTION
	 Inability to perform reconciliations of various accounts because of data errors; Inability to manage accounts and in-year reporting due to data errors; and The Municipality's inability to pay the outstanding account of financial system service provider and for current services owing to severe cash flow constraints affecting the implementation of Mscoa 	
Internal Audit and	No internal audit function	Internal audit function to be established
Risk Management	Internal audit and risk management are not functioning separately	Risk management officer and internal auditor must check each other Sufficient funding must be budgeted for the functions of internal audit and risk
Accot	Poorly maintained accets (vohicles, reads and other	Management Asset management is being addressed
Asset	Poorly maintained assets (vehicles, roads and other infrastructure etc) are major risk	Asset management is being addressed

1.5. ORGANISATIONAL DEVELOPMENT OVERVIEW

Human Resources

The municipality currently has **275** employees, of which **3** are Section 57 employees, **179** permanent and **52** contract employees and **4** interns.

- It is under discussion relating to the financial recovery plan that management initiated a
 process to review the micro structure to ensure alignment with the municipal strategic
 objectives (IDP) to ensure compliance and effective and efficient service delivery. This
 exercise highlighted a number of critical areas that management needs to address to ensure
 optimal service delivery. Examples of these are as follows:
- Low staff morale
- Inadequate skills levels
- Inadequate qualifications
- Lack of clarity regarding roles and responsibilities (middle management and supervisors)
- Lack of discipline

Some of the above concerns have subsequently been addressed in implementing the following initiatives:

- Job descriptions for all staff have been developed
- Training plans have been developed to identify skills needs.
- Work Place Skills Plan has been developed and will be implemented in the next financial year
- Present the code of conduct to staff

Employee Wellness:

A wellness programme will be developed in the new financial year that will address the issues relating to substance dependency, personal financial management, and other related issues.

Skills Development

The municipality has developed a Work Place Skills Plan (WSP) of which the main objective is to ensure that there is staff development through training interventions for all levels of staff.

The management team is committed to ensure that all staff is skilled and trained in their respective fields, even though there are financial constraints. The management team will continue to source funding and form cooperative partnerships where the opportunity presents itself to ensure a well-qualified workforce.

MUNICIPAL TRANSFORMATION AND ORGANISATIONAL DEVELOPMENT

ITEM	Progress		
Implementation of the organizational structure	The new structure introduced is currently in place and ensure effect efficient, economic, quality and timeous service delivery which enal employees that are capacitated to perform according to expectate Job descriptions to accompany the organizational structure are being compiled		
Skills Development	The Municipality is in process to equip employees with training through the LGSETA programme. Municipal Minimum Competency training suffered a serious of setbacks. The required training will commence as soon as a competent service provider has been appointed and after approval of the new organizational structure.		

TABLE 13: 1.5.1 MUNICIPAL TRANSFORMATION AND ORGANISATIONAL DEVELOPMENT

1.6. AUDITOR GENERAL REPORT (ANNEXURE: ORIGINAL DOCUMENT)

REPORT OF THE AUDITOR-GENERAL TO THE WESTERN CAPE PROVINCIAL PARLIAMENT AND THE COUNCIL OF KANNALAND MUNICIPALITY

The audit of Kannaland is still in process

STATUTORY ANNUAL REPORT PROCESS

The Municipal Finance Management Act (MFMA) requires that a Municipality prepared an Annual Report for each financial year. The Annual Report is a measure of ensuring that there is regular, impartial feedback to stakeholders and that accountability and thereby to strengthened transparency. Section 46(1) of the Municipal Systems Act (MSA) requires municipalities to prepare a performance report for each financial year, setting out the performance of the Municipality and its external service providers, providing a comparison between targets and performance in the previous financial year and improved measures taken. The annual performance report must form part of the annual report.

Activity	Legislation and Guidance	Process Owner	Timeframes
Consideration of next financial year's Budget and IDP process plan. Except for the legislative content, the process plan should confirm in-year reporting formats to ensure that reporting and monitoring feeds seamlessly into the Annual Report process at the end of the Budget/IDP implementation period.	MSA S41 (1)(e)	Municipal Manager (Assisted by other s56 managers and CFO)	July
Implementation and monitoring of approved Budget and IDP through the approved SDBIP commences (In-year financial reporting and quarterly performance reports)	MSA S41 (1)(e)	Municipal Manager (Assisted by other s56 managers and CFO)	July
Finalise 4th quarter Performance Report for previous financial year	MFMA S52(d)	Municipal Manager (Assisted by other s56 managers and CFO)	July
Submit draft previous financial year Annual Report and evidence to internal and the Auditor General including annual financial statements and financial and non-financial information	Submission of AFS as per section 126 (1) of the MFMA. Additional step, a draft annual report is prepared. Annual performance report needs to be included as per section of the MSA	Municipal Manager and CFO	July
Submit Annual Report including annual financial statements and Annual performance Report to the combined audit/performance committee	Joint committee assessing both financial and non- financial performance	Municipal Manager and CFO	July / August
Combined Audit/performance committee considers unaudited Annual report of Municipality	advances accountability and expedites corrective measures	Audit and Performance Audit Committee	

Mayor tables the unaudited Annual report in Council Municipality submits draft Annual Report including annual financial statements and performance report to Auditor General for auditing purposes – due 31 August. Council submit unaudited tabled annual report to MPAC for vetting and verification of council's directive on service delivery and the committee to evaluate senior managers' performance against agreement entered into.	The Annual Report submitted and complies with the requirements of Section 121 (3) (a-k). Information on predetermined objectives to be included. Note that is unaudited and will not include any of the AG's reports as the auditing thereof will still be in progress. (Municipalities with Municipal entities to submit a consolidated unaudited annual report by September)	ACCOUNTING OFFICER / CFO	August
Commencement of IDP analysis of institutional, services and infrastructure provision, backlogs and priorities. Unaudited annual report as submitted to AG to be used as input into the IDP strategic phase process and community verification and input by MPAC on reported performance. Such information includes that of various entities incorporated into information of the parent.	If the above process is followed, the unaudited Annual report van add value to the IDP/Budget planning process for the next year as well as oversight by MPAC on the reported deliverables by communities and achievements targets reached.	Council	August
Auditor-General audits the unaudited Annual Report and submit an audit report to the accounting officer for the Municipality	Section 126 (3) (b) require the Auditor-General to submit an audit report within three months after receipt of statements from the Municipality	Auditor-General	November
Annual Report and oversight report processes for adoption to be used as input into public participating meetings for the IDP review process	Section 127, 128, 129 and 130	Council	September - November

The Auditor-General's reports are issued during the period of Oct/Nov. Once the AG audit reports have been issued no further changes are allowed as the audit process is completed Mayor tables Annual Report and audited Financial Statements to Council complete with the Auditor- General's Report Audited Annual Report is made public and representation is invited Oversight committee finalises assessment on Annual Report. within 7 days of receipt of AG's report. Council is expected to conclude on this matter before going on recess I n December			
Council adopts Oversight Report	The entire process, including oversight	Council	December
Oversight Report is made public	reporting and submission to provincial legislators are	Municipal Manager	
Oversight report is submitted to legislators, Treasurers and COGTA	completed in December and not in March the following year	Mayor	

TABLE 14: STATUTORY REPORTING TIMEFRAMES – CIRCULAR 63 (SEPTEMBER 2012)

The Annual Report must align with the Integrated Development Plan (IDP), Budget, Service Delivery and Budget Implementation Plan (SDBIP), and in year reports. The contents will assist with the annual audits and as a management tool for the budget process and as an accountability instrument for feedback to the public. MFMA reforms include ensuring transparency and accountability for the fiscal and financial affairs of municipalities through inyear and Annual Reporting.

Real transparency and accountability can only be achieved where there is a clear link between the strategic objectives agreed with the community, the IDP, the Budget, SDBIP, service delivery agreements, performance agreements of senior management and officials, in-year reports covering financial and non-financial information, (such as MFMA Sections 71, 72 & 74 and MSA Section 41 among others), Annual Financial Statements, Annual Performance Report and the Annual Report.

The IDP, Budget, SDBIP, in-year reports, annual performance report and Annual Report should have similar and consistent information to facilitate understanding and to enable the linkage between plans and actual performance.

CHAPTER 2 – GOVERNANCE

COMPONENT A: POLITICAL AND ADMINISTRATIVE GOVERNANCE

Section 151(3) of the Constitution states that the council of a Municipality has the right to govern, on its own initiative, the local government affairs of its community, subject to national and provincial legislation.

Political governance is the process of decision-making to formulate policy of a Municipality (bylaws), whereas administrative governance is the system of policy implementation.

Good governance has 8 major characteristics. It is participatory, consensus oriented, accountable, transparent, responsive, effective and efficient, equitable and inclusive and follows the rule of law. It assures that corruption is minimized, the views of minorities are taken into account and that the voices of the communities are heard in decision-making. It is also responsive to the present and future needs of society.

Kannaland Municipality strives towards achieving the characteristics of good governance.

2.1 POLITICAL GOVERNANCE

In terms of section 52(a) of the Local Government: Municipal Finance Management Act, Act 53 of 2003 (MFMA), the Executive Mayor provides general political guidance over the fiscal and financial affairs of the Municipality subject to applicable legislation and the delegations by Council. Council remains responsible for oversight and participatory roles. The primary role of Councillors are to debate issues publicly and to facilitate political debate and discussion. Apart from their functions as decision makers, councillors are also actively involved in community work and the various social programmes in the municipal area.

The roles and responsibilities of council should always be carried out with a clear distinction between oversight and interference in administration, as defined in the Municipal Finance Management Act, sections 52(b) and 103 respectively, as well as in the Code of Conduct for Councillors (Schedule 1 to the Municipal Systems Act).

POLITICAL STRUCTURE

Kannaland Municipality has a Council consisting of 7 Councillors with an Executive System (4 ward Councillors and 3 proportionally representative Councillors).

The Mayoral Committee consist of:

Councillors		Position	Party	Wards
	EXECUTIVE MAYOR Councilor Magdalena Barry	Ward Councillor	ANC	Ward 3:
	SPEAKER Councillor Alletta Theron	Ward Councillor	DA	Ward 4
	DEPUTY MAYOR Councillor: Phillipus Antonie	PR Councillor	ANC	Ward 3

TABLE 15: MAYORAL COMMITTEE

The remainder of Councillors are:

Councillors	Position	Party	Wards	
	Councillor Hyrin Ruiters	PR Councillor	ICOSA	Ward 3
	CHIEF WHIP Councillor Werner Meshoa	Ward Councillor	ICOSA	Ward 2
	Councillor Jeffrey Donson	Ward Councillor	ICOSA	Ward 1
	Councillor Joshlyn Johnson	PR Councillor	DA	Ward 3

TABLE 16: COUNCILLORS

The table below categorises the councillors within their specific political parties and wards for the 2018/19 financial year:

Councillors, Committees Allocated and Council Attendance					
Council Members	Full Time/ Part Time	Committees Allocated	Ward and/ or Party Represented	Percentage Council Meetings Attendance %	Percentage Apologies for non- attendance %

Cllr H Ruiters	PT	Council	Party Representative (ICOSA)	100%	0%

TABLE 17: COUNCILLORS, COMMITTEES ALLOCATED AND COUNCIL ATTENDANCE

POLITICAL DECISION TAKING

The Executive Mayor of the Kannaland Municipality is assisted by the Mayoral Committee and advised by the Municipal Manager and senior managers. The Executive Mayor is at the centre of the system of governance, since executive powers are vested in the Executive Mayor to manage the day-to-day affairs. This means that the Executive Mayor has an overarching strategic and political responsibility.

The key element of the executive model is that executive power is vested with the Executive Mayor, in terms of applicable legislation and a set of delegations approved by Council. Council appoints the Municipal Manager and Senior Managers and delegates powers through the approved set of delegations to provide for sufficient separation of powers. Although accountable for the strategic direction and performance of the Municipality, the Executive Mayor operates in concert with the Mayoral Committee.

Each member of the Mayoral Committee is responsible for the functions indicated below whilst remaining accountable to the Mayoral Committee and the Executive Mayor unless provided for otherwise by applicable legislation. Administration is in the process of compiling an electronic register to monitor, track and record the carrying-out of Council resolutions.

OVERSIGHT STRUCTURES

Council oversight is exercised through committees appointed by Council in terms of Section 79 of the Local Government: Municipal Structures Act, 1998. The following committees contribute towards assurance and makes recommendations for consideration and approval by Council:

MUNICIPAL PUBLIC ACCOUNTS COMMITTEE (MPAC)

Section 129(4) of the MFMA provides for the issuance of guidance on the manner in which municipal councils should consider annual reports and conduct public hearings as well as the functioning and composition of any public accounts or oversight committees established by the council.

The Municipal Public Accounts Committee (MPAC) assists council to exercise oversight over the executive functionaries of Council, to ensure the efficient and effective use of municipal resources and to ensure good governance in the Municipality. By so doing, the MPAC will help to increase council and public awareness of the financial and performance issues within the Municipality.

This MPAC focuses mainly on compliance in accordance with the Local Government: Municipal Finance Management Act. The terms of reference of the MPAC include the following:

- Investigate unforeseen and avoidable expenditure (Section 29 of MFMA);
- Investigate unauthorised, irregular or fruitless and wasteful expenditure (Section 32 of MFMA);
- Review the quarterly report of the Executive Mayor on the implementation of the budget and the state of affairs of the Municipality – SDBIP (Section 52 (d) of MFMA);
- Review monthly budget statements (Section 71 of MFMA);
- Review mid-year budget and performance assessment (Section 72 of MFMA);
- Ensure disclosure of Councillors, Directors and Officials (Section 124 of MFMA);
- Review Financial Statements before submission to the Auditor General (AG) (Section 126 of MFMA);
- Review and give recommendation on the submission of the Annual Report (Section 127 of MFMA):
- Present an oversight report on the Annual Report (Section 129 of MFMA);
- Ensure that issues raised by the Auditor-General are addressed (Section 131 of MFMA);
- Ensure that the functions of the Audit Committee are carried out (Section 166 of MFMA);
- Ensure that disciplinary action instituted against Councillors, the Municipal Manager and Senior Management is within the guidelines of the MFMA financial misconduct regulations (MFMA);
- Review the IDP (Section 25 of MFMA);
- Annual Review of the IDP (Section 34 of MFMA);
- Review the performance management plan (Section 39 of MFMA);
- Monitor that the Annual Budget is aligned with the IDP (Regulation 6 of the LG: Municipal Planning And Performance Regulations); and
- Monitor that all declaration of interest forms are completed by Councillors and relevant municipal staff (Section 54 – read with item 7 of schedule 1).

MPAC consists of the following Councillors:

Name	Position
Councillor P Antonie	Chairperson
Councillor J Johnson	Member
Alderman J Donson	Member
Representative from Provincial/ National Treasury	To be appointed

TABLE 18: MUNICIPAL PUBLIC ACCOUNTS COMMITTEE (MPAC)

FINANCIAL DISCIPLINARY BOARD

The Disciplinary Board is an independent advisory body that assists the council with the investigation of allegations of financial misconduct by officials and provide recommendations on further actions in this regard. It is also to monitor the institution of disciplinary proceedings against alleged transgressors.

The Kannaland Municipal Council established the Kannaland Disciplinary Board ("the Disciplinary Board") for financial misconduct on 7 December 2017. Due to the fact that the Disciplinary Board was not correctly constituted in terms of the MFMA Regulations, Council reestablished the Disciplinary Board on 31 October 2018 and the Board commenced with its functions.

The purpose of the Disciplinary Board is restricted to alleged offences of financial misconduct related to municipal officials in terms of section 171 (financial misconduct by municipal officials of a Municipality) in terms of the Municipal Financial Management Act, and has no jurisdiction to address any allegation relating to offences in terms of section 173 of the Act (criminal proceedings).

The Disciplinary Board consists of the following members:

Name	Position
Mr J Johannes	Chairperson (Audit Committee representative)
Mr G Breda	Manager: Legal and Risk
Mr R de Jongh	Acting Manager: Human Resources
Representative from Provincial/ National Treasury	To be appointed

TABLE 19: DISCIPLINARY BOARD

AUDIT AND PERFORMANCE AUDIT COMMITTEE

Council appointed a combined Audit and Performance Audit Committee. In the absence of an internal audit unit and as result of the instability in the appointment of Section 57 Senior Managers, the committee was not functional during the period under review. However training from Provincial Treasury to all committees are welcomed to capacitate the committee with new knowledge.

The responsibilities of the Audit and Performance Audit Committee include:

- Advising Council and management of the Municipality on matters relating to:
 - internal financial control and internal audits;
 - risk management;
 - accounting policies;
 - the adequacy, reliability and accuracy of financial reporting and information;
 - performance management;
 - effective governance;
 - · compliance with applicable legislation;
 - performance evaluation; and
 - any other issues referred to it by the Municipality.
- Overseeing internal controls, financial reporting and compliance with regulatory matters;
- Reviewing the effectiveness of the council's system of internal control and risk management;
- Reviewing financial reporting and financial statements;
- Reviewing the internal audit function;
- Reviewing the performance management system and reports;
- Reviewing compliance with policies, regulations and procedures in terms of prescribed guidelines and applicable laws; and
- Responding to council on any issues raised by the Auditor-General in the audit report.

The Audit and Performance Audit Committee consists of the following members:

Name	Position
Mr C Ipser	Chairperson of Audit Committee
Mr J Johannes	Member
Ms H Duiker	Member
Mr J de Wet	Member

TABLE 20: AUDIT AND PERFORMANCE AUDIT COMMITTEE

RISK COMMITTEE

The Risk Management Committee is responsible for assisting the Accounting Officer in addressing oversight requirements of risk management and evaluating and monitoring the institution's performance with regard to risk management.

The Risk Committee for the period under review consisted of the following members:

Name	Position
Mr R Stevens, Municipal Manager	Chairperson of Risk Committee
Mr B Strydom, CFO	Member: Financial Services
Director: Corporate Services –	Member: Corporate Services (Vacant)
Wayne Robertson	Member: Community Services
Henrico Constable	Member: Corporate Services
Leon Blignault	Member: Technical Services
Gersdwin Breda	Risk Officer

TABLE 21: RISK COMMITTEE MEMBERS

2.2 ADMINISTRATIVE GOVERNANCE

The Municipal Manager, as the Accounting Officer of the Municipality is the Head of the Administration, must provide guidance on compliance with legislation to political structures, political office bearers and officials and is primarily responsible for service delivery and implementation of political priorities.

The organizational structure provides for 2 senior managers to report directly to the Municipal Manager. Provision is made for the Finance Department, and the Infrastructure Services Department.

Performance agreements that align to the Municipality's top layer SDBIP were in place for senior managers serving during the 2017/18 financial year although performance evaluations have not been performed.

COMPONENT B: INTERGOVERNMENTAL RELATIONS

2.3 INTERGOVERNMENTAL RELATIONS

Intergovernmental Relations (IGR) is an important inter-governmental structure for compliance purposes but also provides the opportunity for Kannaland Municipality to progress issues of mutual interest with neighbouring municipalities, Eden District Municipality, provincial and national government as well as the South African Local Government Association. At these critical platforms the Municipality raises its experiences and challenges in order to obtain support from other government sectors and spheres or to address policy and practice matters. Attending meetings of these important IGR structures remain costly and directs funding away from other services delivery issues.

The value for money principle is applied in approving attendance of IGR meetings to ensure the most benefit for the Municipality at the least possible cost.

District Intergovernmental Technical Forum	Municipal Manager	District driven agenda
District Municipal Managers Forum	Municipal Manager	District driven agenda
SALGA Steering/Sub Committees	Municipal Manager and Council	All municipal support services

TIME	Mayors, accounting officers, IDP Managers	To discuss future planning and budget related queries emanating from assessments from PT

TABLE 22: INTER-GOVERNMENTAL STRUCTURES (IGR) ATTENDED

MUNICIPAL ENTITIES

Kannaland Municipality does not have any municipal entities.

COMPONENT C: PUBLIC ACCOUNTABILITY AND PARTICIPATION

2.4 PUBLIC MEETINGS

COMMUNICATION, PARTICIPATION AND FORUMS

Section 16 of the Municipal Systems Act (MSA) refers to the development of a culture of community participation within municipalities. It requires of the Municipality to develop a culture of municipal governance that complements formal representative government with a system of participatory governance. For this purpose, it must encourage and create conditions for the local community to participate in the affairs of the Municipality throughout the year.

Such participation is required in terms of:

- the preparation, implementation and review of the IDP;
- establishment, implementation and review of the performance management system;
- monitoring and review of the performance, including the outcomes and impact of such performance;
- · Preparation of the municipal budget; and
- Spatial Development Framework etcetera.

Kannaland Municipality has a robust public participation process in terms of the revised Public Participation Policy adopted in May 2018. The process enables vigorous and constructive engagements with all stakeholders through their participation in ward committee meetings and community feedback sessions throughout the year on various issues including matters raised by members of the community. This is of particular importance, given the geographical size and nature of the municipal area within which community's needs vary from area to area.

The result of the municipal public participation processes is designed to allow Council and management to do better long-term planning and deliver, amongst other, a more credible IDP and Budget.

Strategic documents and information that may affect the community are being published on the municipal website, placed at municipal libraries and notices are published in local newspapers to afford members of the community the opportunity to make written representations for consideration by Council.

No community satisfaction surveys have been conducted although the Municipality has high regard for the complaints system and all possible measures are taken to ensure that complaints are attended to in the shortest possible time and that feedback is given to the complainant. The Municipality has acquired the electronic IGNITE complaints system for improved monitoring of complaints. Response times and attention to complaints will be considered as a KPI on the SDBIP for the 2018/19 financial year.

WARD COMMITTEES

Public meetings are being held in all wards of the Municipality with the specific intention to determine community based needs and opinions for purposes of the Integrated Development Plan and Annual Budget processes. These meetings inform and report on public needs, planning and budgeting as well as strategic objectives. Refer to **Appendix E** which contains further details on ward committee governance and to **Appendix F** that contains performance data on a ward by ward basis.

Ward Councillors with their Ward Committees have public meetings twice a year to discuss ward plans and service delivery shortcomings as well as to give feedback on the success/failure of proposed projects.

Attendance of the public is determined by their personal interest in the matters for discussion at the specific the meeting, otherwise there is very little interest shown in such meetings. Attendance is often very poor at approximately 50 – 100 people attending such engagements. Municipal officials from all departments attend all public meetings to ensure that knowledgeable answers can be given on matters raised and for management to take note of matters to receive attention.

Transport is provided, where necessary, for ward committee members to attend ward committee meetings and functions where public participation, through the ward committee system, is required. Administrative capacity is provided to ward committee meetings by the Municipality.

All ward committee members must attend the monthly meetings and submit a report as part of their participatory functions as ward committee members in their respective wards. A stipend of R 500 per month has been approved as per the ward committee policy (out of pocket expense)

The ward committees are structured as follows:

Ward 1 Ladismith: Nissenville, Towerkop

TABLE 26: WARD 4 - WARD COMMITTEE

FUNCTIONALITY OF WARD COMMITTEES

Ward committee members are elected by the communities they serve. A ward committee may not have more than 10 members and women must be well represented. The ward councillor is the chairperson of the ward committee.

The main purpose of ward committees is to improve effective communication and participation of community members to inform council's decision-making on the opinion and needs of the communities, especially those affected by a decision. Ward committees have no formal powers, but they advise ward councillors who make specific submissions directly to the Administration/ Council and also assist the ward councillor with the following:

- consultation and report-back to the community;
- obtaining better participation from the community to inform council decisions, and
- playing an important role in the annual revision of the Integrated Development Plan of the area.

It is envisaged to review the functionality of ward committees to enhance public participation in monthly meetings of ward committees to provide feedback from the community for informed Council decisions.

PUBLIC ENGAGEMENTS

The table below indicates the community engagement sessions with the stakeholders in the four wards:

Nature of meeting	Date of events	Purpose	Target audience	Communication Mechanisms
Ward 1: Public Participation	April / May 2019	Presentation of the IDP& Budget to the citizens of Ward 1	Residents of ward Businesses, NGO's, Churches	Monthly Newsletters/IDP & Budget Report Back meeting
Ward 2 Public Participation	April / May 2019	Presentation of the IDP & Budget to the citizens of Ward 2	Residents of ward Businesses, NGO's, Churches	Monthly Newsletters/IDP & Budget Report Back Meeting
Ward 3: Public Participation	April / May 2019	Presentation of the IDP& Budget to the citizens of Ward 3	Residents of ward Businesses, NGO's, Churches	Monthly Newsletters/IDP & Budget Report Back Meeting
Ward 4: Public Participation	April / May 2019	Presentation of the IDP& Budget to the citizens of Ward 4	Residents of ward Businesses, NGO's, Churches	Monthly Newsletters/IDP & Budget Report Back Meeting
Ward feedback meetings in all four wards	Each quarter in all four wards	Feedback to communities & obtaining of input from the community on IDP	Residents of wards Businesses, NGO's, Churches	Ward councillor gives feedback on ward meeting

TABLE 27: PUBLIC ENGAGEMENTS DURING THE 2018/19 FINANCIAL YEAR

Unfortunately public engagements and feedback sessions are often not well attended and the benefits of such engagements can be largely improved if communities can be mobilized to attend public engagements in larger numbers. Even though community members attend in smaller numbers, public engagements are considered to be valuable in the sense that those community members are presented with a platform to voice their needs and expectations while the Municipality have the opportunity to explain the broader picture and/or giving feedback on delivering services in the entire municipal area within the financial means of the Municipality.

Informed communities do not easily revert to protest action and by understanding the constraints of the Municipality and the importance of paying for services, progress are being made with the establishment of a culture of payment in communities. The municipality will establish a IDP/Budget Representative Forum to ensure more informed information are shared and discussed at meetings.

2.5 IDP PARTICIPATION AND ALIGNMENT

IDP Participation and Alignment Criteria*	Yes/No
Does the Municipality have impact, outcome, input, output indicators?	Yes
Does the IDP have priorities, objectives, KPIs, development strategies?	Yes
Does the IDP have multi-year targets?	Yes
Are the above aligned and can they calculate into a score?	Yes
Are the budget aligned directly to the KPIs in the strategic plan?	Yes
Are the IDP KPI's aligned to the Section 57 Managers	Yes
Are the IDP KPI's aligned to functional area KPIs as per the SDBIP?	Yes
Are the IDP KPI's aligned with the provincial KPIs on the 12 Outcomes	Yes
Were the indicators communicated to the public?	Yes
Were the four quarter aligned reports submitted within stipulated time frames?	Yes

TABLE 28: IDP PARTICIPATION AND ALIGNMENT CRITERIA SECTION 26 MUNICIPAL SYSTEMS ACT, 2000

COMPONENT D: CORPORATE GOVERNANCE

The council and management subscribe to the principles reflected by the various King reports. The seven primary characteristics of good governance namely, discipline, transparency, independence, accountability, responsibility, fairness and social responsibility have been considered critical in the compilation of the Kannaland Municipality Financial Recovery Plan.

2.6 ENTERPRISE RISK MANAGEMENT

The direction and mandate of risk management for Kannaland Municipality is clearly set out in Section 62(1) of the MFMA that stipulates that the "Accounting Officer must take all reasonable steps to ensure that the Municipality has and maintains an effective, efficient and transparent system of financial and risk management and internal control" accompanied by the crucial motto of the public sector: "that the resources of the Municipality are used effectively, efficiently and economically".

The Risk Management Unit (RMU) was developed in the 2017/18 financial year after the appointment of the Chief Risk Officer (CRO) but the Risk Management Committee only became functional in the 2018/19 financial year.

Enterprise Risk Management (ERM) is an essential function that must be performed by the Municipality in terms of the applicable local government legislation. Auditor-General reports in

recent years have highlighted risks for the Municipality and findings indicated that ERM must be prioritized as this function has been neglected for years.

The expertise of neighbouring municipalities and shared services from the Eden District Municipality and Oudtshoorn Municipality are being utilized to establish and improve the ERM function in Kannaland Municipality. The compilation of a risk register and actions plans in terms of the Financial Recovery Plan commenced and regular progress reports will be submitted to the Audit and Performance Audit Committee which is also functional.

In terms of section 62 (1)(c)(1) and section 95 (c)(i) of the Municipal Financial Management Act (MFMA), puts a duty on the Accounting officer to ensure that his Municipality has a fully functioning Enterprise Risk Management system, he is also responsible for the establishment of a Risk Committee. The Public Sector Risk Management Frame work Act aims to support and sustain the performance of risk management in the public sector. The Public Finance Management Act section 38 (1) (a) (i) and 51 (1) (a) (i) and 6 (2) (a), confirms the position as outline in term of the MFMA. In light of the above legal framework and legislative requirements and based on previous internal control finding as contained in previous audit reports, the current Executive Management established and Council adopted early 2019, the following documents:

- Revised Risk policy:
- Risk Committee Charter:
- Risk Management Strategy Plan:
- Risk Management Implementation Plan
- THE FOLLOWING EMPLOYEES HAS BEEN IDENTIFIED TO FORM THE RISK COMMITTEE:

Name Position

Gersdwin Breda Manager: Risk Contract and Legal Services Wayne Robertson Senior Manager: Community Services Senior Official: Building and Planing Mark van Rensburg

Pumezo Mgeni Manager: BTO

Hilda Duiker Audit Committee Member

THE FOLLOWING EMPLOYEES HAS BEEN IDENTIFIED TO ACT AS RISK CHAMPIONS:

Name Position Danelle Koert Manager: PMU

Sherilene Adams Waste Management Official Adri Fortuin Senior Official: Housing

Mervian Scheffers Accountant Fleet Management

INSTITUTION TRANSFORMATION

Item	Description
Organisational Structure	The organisation structure must be aligned with the IDP, hence the two documents must complement each other. The result is ultimately that the IDP and Organizational Structure, is to be used as tools for the drafting of the SDBIP, to ensure compliance, monitoring and evaluation.
Internal Audit	In terms section 165(1), (2) (b) & (c) of Municipal Finance Management Act (MFMA), 2003 (Act No. 56 of 2003)
	"Each municipality and each municipal entity must have an internal audit unit, subject to sub-section (3).and
	The internal audit unit of the municipality and municipal entity must – advise the accounting officer and report to the audit committee on the implementation of the internal audit plan and matters relating to –
	(i) internal audit;
	(ii) internal controls;
	(iii) accounting procedures and practices;
	(iv) risk and risk management;
	(v) performance management;
	(vi) loss control; and
	(vii) compliance with this Act, the annual Division of Revenue Act and any other applicable
	legislation; and

	c)perform such other duties as may be assigned to it by the accounting officer."
	The municipality has not established an internal audit unit since the 2016-17 financial year and has also not outsourced this service as required in terms of section 165(3), even though the municipality accepted the recommendations made by the auditors in the prior year, namely to establish an internal audit unit.
	The municipality therefore did not fulfil its responsibility to ensure an internal audit unit exist, as required by the above stated legislation, in order to ensure regular risk assessments and monitoring are conducted, and that there is an effective process of identification of internal control deficiencies and recommending corrective action, in order to improve the control environment of the Municipality.
Risk Management	Risk refers to a beneficial or unwanted outcome, actual or potential, to the organisation's service delivery and other performance objectives, caused by the presence of risk factors. Some risk factors also present upside potential, which management must be aware of and be prepared to exploit. Such opportunities are encompassed in this definition of risk.
	Risk management is a systematic and formalised process instituted by the organisation to identify, assess, manage and monitor risks.

RISK MANAGEMENT WITHIN KANNALAND MUNICIPALITY

The Accounting Officer exercised his right in terms of the applicable Risk Management legislation to appoint a Risk Contract and legal manager in June 2019. The official was appointed based on his qualification, skills, expertise and the need for such appointment.

CHALLENGES IN RISK MANGEMENT

- Current the Municipality only has one permanent incumbent to fulfil, the Risk Contract and Legal services function.
- The Municipality, due to cash constrains is unable to purchase a Risk and Contract electronic system, hence Business Plan in terms of the Financial Recovery Plan has been submitted to Provincial Government to secure funds, for this purpose.

BENEFITS OF RISK MANAGEMENT

Kannaland Municipality will implement and maintain an effective, efficient and transparent system of risk management and internal control. Risk management will assist the municipality to achieve, among other things, the following outcomes needed to underpin and enhance performance:

- · more sustainable and reliable delivery of services;
- informed decisions underpinned by appropriate rigour and analysis;
- achievement of strategic goals as set out in the Integrated Development Plan;
- · reduced waste:
- · prevention of fraud and corruption;
- better value for money through more efficient use of resources; and
- better outputs and outcomes through improved project and program management.

TOP TEN RISK WITHIN THE MUNICIPALITY

Historical/Reputational Risk

fraud and corruption lack of communication with Community Nepotism Financial Risk Lack of planning Making appointments outside the budget Insufficient means to recover revenue

Operational Risk

A lack of appropriate governance over information stored, processed, or produced by IT systems

Safety and Security
Weakness in governance and accountability
Governance and Ethics
Fraud and error
Natural Disasters

Contract Management

In the absence of a proper functioning contract management function the municipality was unable to monitor, review and evaluate contracts that either came to an end or had to be reviewed for service delivery purposes. The Auditor General has also pointed out the lack or weak management of contracts which does have a negative financial impact on the municipality. There were also a significant number of officials who did not have formal signed contracts that complied with the collective agreement and the basic conditions of employment. The contract management function could have a significant positive impact on the financial recovery plan of the municipality particularly with regard to the selling or leasing of council assets, land and other facilities.

Given the above, management has undertaken to do a full audit with regard to contractual arrangements particularly to ensure that the contracts are in place in the following areas:

- Current land leased (market related and MFMA compliance)
- Unleased land (land used by parties that do not have a lease agreement)
- Council facilities that are leased (market related and MFMA compliance)
- Unleased Council facilities (sports fields etc.)
- Employment contracts of staff (temporary staff, contract staff and permanent staff)
- SCM contracts (to ensure MFMA compliance and goods and services are delivered within agreed timeframes and in good quality).
- Government contracts for grant funding (MIG, FMG, MSIG, RBIG, etc, to ensure funds are utilised for purposes for which it was allocated to the municipality)
- Municipal leases (e.g. office space, equipment, and cell phones,)
- ICT service provider contracts
- Water board contracts

The municipality is currently outsourcing the contract management function and the need has been identified that suitable and qualified internal capacity is needed to ensure that Council increases its revenue and has control over this function

INTERNAL AUDIT

For the financial year under review the Municipality did not have a functional internal audit unit. An official from the Finance Department was sent to Cape Agulhas Municipality for guidance on the internal audit function, processes and procedures in order to establish the internal audit section in Kannaland Municipality.

The Financial Recovery Plan Manager, assisted the Municipality to establish and advance the internal audit function.

It is important that internal audit and enterprise risk management operate separately as the one must assess the other. Sufficient financial provision for these compulsory functions need to be provided for on the budget to ensure compliance in this regard.

It should be noted that this function will be part of the shared service initiation between the Garden Route District Municipality and DLG.

2.7 ANTI-CORRUPTION AND FRAUD

The oversight roles are managed by the Municipal Public Accounts Committee (MPAC), Disciplinary Board and Audit Committee as described under Oversight Structures at the beginning of this Chapter.

2.8 SUPPLY CHAIN MANAGEMENT

Supply Chain Management is guided by sections 110 – 119 of the MFMA; SCM Regulations 2005, and relevant MFMA circulars that set out required processes and guidance manuals to help ensure that SCM arrangements provide appropriate goods and services, offer best value for money and minimize the opportunities for fraud and corruption.

The Municipality established a functional SCM unit has over the three years.

Monthly updates on the scm policy are communicated with council.

2.9 **BY-LAWS**

Section 11 of the Municipal Systems Act gives a Municipal Council the executive and legislative authority to pass and implement by-laws and policies. A by-law is a legal document, which enables a local authority (Municipality) to implement certain powers vested in it by the

Constitution. Kannaland Municipality has by-laws which give effect to its constitutional obligations.

The Municipality is in the process of revising by-laws to identify potential intervened introducing new by-laws for adoption by Council. No by-laws were adopted in the 2018/19 financial year. The public participation stipulated in the applicable legislation will be followed for the adoption of by-laws process.

There is no capacity to rewrite and adopt the bylaws, therefore the municipality requested the support from DLG to assist the municipality in developing and review the bylaws.

2.10 WEBSITE AND ICT

The information pertaining the ICT function remains the same. Financial constraints are the critical area that needs attention to ensure the challenges are resolved.

The primary purpose of the Information Systems and Technology section is the provision of Information and Communication Technology (ICT) services which will enable an efficient and effective administration. An ICT assessment was done on current challenges as well to recommend possible solutions.

HIGHLIGHTS	CHALLENGES
New Public Interactive Municipal Website;	A disaster recovery system not in place
Approved legislative documents:	Obsolete hardware still present
Reviewed ICT Policies;	No offsite backups are not in place
ICT Governance Framework and Disaster Recovery Policy	Budget constraintsData cleansing
ICT SOP's.	Need for electronic systems e.g Performance information and Collaborator

TABLE 29: HIGHLIGHTS AND CHALLENGES OF ICT SERVICES

The ICT department is working towards full compliance in terms of section 75 of the MFMA regarding information that must be placed on the municipal website.

Municipal Website: Content and Currency of Material	
Documents published on the Municipality 's / Entity's Website	Yes / No
Current annual and adjustments budgets and all budget-related documents	YES

All current budget-related policies	YES
The previous annual report	YES
The annual report	YES
All current performance agreements required in terms of section 57(1)(b) of the Municipal Systems Act) and resulting scorecards	YES
All long-term borrowing contracts	YES
All supply chain management contracts above a prescribed value (give value) for Year	YES
An information statement containing a list of assets over a prescribed value that have been disposed of in terms of section 14 (2) or (4)	YES
Contracts agreed in Year to which subsection (1) of section 33 apply, subject to subsection (3) of that section	YES
All quarterly reports tabled in the council in terms of section 52 (d) during Year	YES

TABLE 30: SECTION 75 CHECKLIST OF THE MFMA

2.11 PUBLIC SATISFACTION ON MUNICIPAL SERVICES

No community satisfaction surveys have been conducted although the Municipality has high regard for the complaints system and all possible measures are taken to ensure that complaints are attended to in the shortest possible time and that feedback is given to the complainant. The Municipality has acquired the electronic IGNITE complaints system for improved monitoring of complaints.

CHAPTER 3 – BASIC SERVICE DELIVERY PERFORMANCE INFORMATION

OVERVIEW OF PERFORMANCE WITHIN THE ORGANISATION

Performance management is a process which measures the implementation of the organisation's strategy. It is also a management tool to plan, monitor, measure and review performance indicators to ensure efficiency, effectiveness and the impact of service delivery by the Municipality.

At local government level performance management is institutionalized through the legislative requirements on the performance management process for Local Government. Performance management provides the mechanism to measure whether targets to meet its strategic goals, set by the organisation and its employees, are met.

The Municipal Systems Act (MSA), 2000 requires municipalities to establish a performance management system. Further, the MSA and the Municipal Finance Management Act (MFMA) requires the Integrated Development Plan (IDP) to inform the municipal budget and to be monitored for the performance of the budget against the IDP via the Service Delivery and the Budget Implementation Plan (SDBIP).

In addition, Regulation 7 (1) of the Local Government: Municipal Planning and Performance Management Regulations, 2001 states that "A Municipality's Performance Management System entails a framework that describes and represents how the Municipality's cycle and processes of performance planning, monitoring, measurement, review, reporting and improvement will be conducted, organised and managed, including determining the roles of the different role players."

Performance management is not only relevant to the organisation as a whole, but also to the individuals employed in the organization as well as the external service providers and the Municipal Entities. This framework, inter alia, reflects the linkage between the IDP, Budget, SDBIP and individual and service provider performance.

LEGISLATIVE CONTEXT

In terms of section 46(1) (a) a Municipality must prepare for each financial year a performance report reflecting the Municipality's and any service provider's performance during the financial year, including comparison with targets of and with performance in the previous financial year. The report must, furthermore, indicate the development and service delivery priorities and the performance targets set by the Municipality for the following financial year and measures that were or are to be taken to improve performance.

ORGANISATIONAL PERFORMANCE

Strategic performance indicates how well the Municipality is meeting its objectives and which policies and processes are working. All government institutions must report on strategic performance to ensure that service delivery is efficient, effective and economical. Municipalities must develop strategic plans and allocate resources for the implementation.

The implementation must be monitored on an on-going basis and the results must be reported on during the financial year to various role-players to enable them to timeously implement corrective measures where required.

This report highlight the strategic performance in terms of the Municipality's Top Layer Service Delivery Budget Implementation Plan (SDBIP), high level performance in terms of the National Key Performance Areas, performance on the National Key Performance Indicators prescribed in terms of section 46 of the Municipal Systems Act, 2000 and an overall summary of performance on a functional level and municipal services.

INTRODUCTION TO STRATEGIC AND MUNICIPAL PERFORMANCE FOR 2017/2018

The purpose of strategic performance reporting is to report specifically on the implementation and achievement of IDP outcomes. This section should provide an overview on the strategic achievement of a Municipality in terms of the strategic intent and deliverables achieved as stated in the IDP. The Top Layer (strategic) SDBIP is the Municipality's strategic plan and shows the strategic alignment between the different documents. (IDP, Budget and Performance Agreements). Please note this section of performance information is subject to change after final audit report has been issued.

In the paragraphs below the performance achieved is illustrated against the Top Layer SDBIP according to the Strategic Objectives linked to the Municipal KPA's. The following table explains the method by which the overall assessment of actual performance against targets set for the key performance indicators (kpi's) of the SDBIP is measured:

PDO 1: To provide access to reliable infrastructure that will contribute to a higher quality of life for Kannaland citizens

				surement						Performano	e compariso	on of prior and current finar	ncial years

TABLE 36: PDO 7: TO STRIVE TOWARDS A FINANCIALLY SUSTAINABLE MUNICIPALITY

COMPONENT A: BASIC SERVICES:

This component includes: water; waste water (sanitation); electricity; waste management; and housing services; and a summary of free basic services. Please note that the municipality is in process of comparing the municipal statistics to MERO and LGSEP statistics to ensure proper alignment.

3.1 WATER PROVISION

The table below indicates the access to water from 2017/18 and 2018/19 per financial year.

Water Service Delivery Levels Households					
Description	2017/18	2018/19			
Water: (above min level)					
Piped water inside dwelling	4889	4915			
Piped water inside yard (but not in dwelling)(backyard dwellers)	0	0			
Using public tap (within 200m from dwelling)	0	0			
Other water supply (within 200m)					
Minimum Service Level and Above sub-total	4889				
Minimum Service Level and Above Percentage					
Water: (below min level)					
Using public tap (more than 200m from dwelling)	231				
Other water supply (more than 200m from dwelling	49				
No water supply					
Below Minimum Service Level sub-total	280				
Below Minimum Service Level Percentage					
Total number of households*	5569	4915			

TABLE 37: WATER SERVICE DELIVERY LEVELS – SOURCE: SAMRAS (MUNICIPAL STATISTICS)

Ladismith:

All households have access to basic water services which means that water is available within 200 meters from their dwellings/houses. All the houses in the urban areas of Kannaland Municipality are provided with individual water connections except for informal areas. Stand pipes are provided in the informal areas as a temporary emergency service.

Due to budget constraints the Municipality applied for funding support to ensure water security projects could been enabled. The following measures were put in place for the different support:

Business plans have been submitted for approval for a new 3 mega-litre reservoir;

- Additional boreholes drilling and equipping. It must be noted that operating boreholes is expensive because of the associated electricity cost;
- Refurbishment of old piped networks.

During the year under review, the Municipality faced a severe drought period which hampered service delivery hence we still try our utmost best to deliver the necessary services to our residents concerning for example the the availability of water. Enforcement of water restrictions remain a challenge due to absence of a by-law.

Water was provided to farm areas e.g Warmbad, St Helena, Baviaanskraans, Kerkplaas, Dankoord and Voorbaat (indigents) by means of water tanks at no costs to enable them to make use of water.

In this desperate period 12 boreholes were switched on which pump 34 liters per second which was transferred to the reservoirs in Ladismith. Numerous awareness campaigns with the support of Local Government has been conducted as well as water restrictions have been communicated to the water users. Water was provided in poor areas

The current water losses are 40.19% and below is the reasons and remedial actions to reduce the losses to the norm: Ladismith 49,66%, Calitzdorp 19,74 % ,Van Wyksdorp 53,67% en Zoar 33,70%

- Faulty meters
- Leakages on existing pipelines and reservoirs
- By-pass on water meters
- Unaccounted water losses

The Municipality adopt a meter replacement strategy with the assistance of MISA. This intervention resulted that all faulty meters be replaced. During the year a water meter audit was conducted to identify all faulty meters, by-passed meters and water which were unaccounted in different areas.

The Municipality plans to upgrade the water networks within the municipal area to secure water usage as well the storage thereof.

Below is a layout of where the Swartberg Dam will be located. The Municipality re-submitted business plan to the Department of Water and Sanitation to unlock this catalytic project.

FIGURE 3: LOCATION OF THE PROPOSED SWARTBERG DAM

The table below indicates the total use of water by sector in kilolitres from 2017/18 and 2018/19 per financial year

TABLE 41: WATER SERVICE POLICY OBJECTIVES TAKEN FROM THE IDP - 2017/18 AND 2018/19 - SOURCE: SAMRAS (MUNICIPAL STATISTICS)

3.2 WASTE WATER (SANITATION) PROVISION

Sanitation:

The majority of households are connected to waterborne sanitation systems in the Kannaland area. The Municipality is intending to replace all bucket systems with water borne system,

however funding needs to be sourced to implement this project. No major infrastructure projects was executed due the lack of funding to support the projects.

Sanitation Service Delivery Levels *Households

TABLE 43: FINANCIAL PERFORMANCE OF SANITAION SERVICES - 2018/19- SOURCE: SAMRAS (MUNICIPAL STATISTICS)

There were no capital funding received for sanitation services for the financial year under review

Below is the policy objectives taken from the IDP for the financial year under review:

Sanitation Service Policy Objectives Taken From IDP							
Service Objectives	Outline Service	2017/201	2017/2018				
	Targets	Target	Actual	Target	Actual		
Number of formal residential properties connected to the municipal waste water sanitation/sewerage network billed for the service as at 30 June 2019	Number of residential properties which are billed for water meters (debtors listing)	4480	4702	4373	4459		

TABLE 44: SANITATION SERVICE POLICY OBJECTIVES TAKEN FROM IDP

3.3 ELECTRICITY

Electricity is the main energy source of households. The Kannaland Municipality is responsible for the provision of electricity to Ladismith and Calitzdorp, whilst Zoar and Van Wyksdorp are supplied by ESKOM.

Kannaland infrastructure is outdated and in need of urgent upgrade. The Municipality has over the past four years invested in new infrastructure to ensure secured electricity distribution to businesses and the community. The current substation in Calitzdorp has an electricity usage capacity of 1.7 MVA and the availability of electricity is 1.2 MVA.

The substation for Ladismith has been completed to secure and ensure the strength of the network is sufficient. However improvement can made made in terms of underground network cabling. This has been listed in the IDP as a priority.

Ladismith:

A need was identified to upgrade the main substation in Ladismith to improve and ensure capacity. The demand for electricity distribution is 20 MVA whilst the current notified demand is 7 MVA in Ladismith.

Calitzdorp:

The current substation in Calitzdorp has an electricity usage capacity of 1.6 MVA and the availability of electricity is 1.6 MVA.

The table below indicates all highlights, challenges and interventions incurred by the municipality:

HIGHLIGHTS	CHALLENGES	INTERVENTIONS
Completion of the upgrade	Significant financial	Submission of
of the Ladismith electricity	constraints:	applications/business plans
main sub station		to sector departments for
	Fleet	funding.
	Lack of staff / training	
	Tools and equipment and	
	materials	
	Safety and security	

Despite the challenges listed, the municipality provide adequate services to their community and businesses.

It is imperative that the electricity infrastructure be maintained at all times in order to identify where upgrading on aged infrastructure is needed. Upgrading and refurbishment of infrastructure will result in a secure revenue stream as well as quality services delivered to the residents of Kannaland.

3.4 WASTE MANAGEMENT

Kannaland Municipality operates four licensed landfill sites. Operational sites are situated in Ladismith and Zoar. The landfill site in Calitzdorp is licensed for closure and therefore only organic waste and building rubble is accepted at this site. Household and business waste from Ladismith, Calitzdorp and Zoar are collected on a weekly basis and disposed at the Ladismith and Zoar Landfill sites. Household and business waste from Vanwyksdorp is collected every weeks and disposed of at the Ladismith landfill site. Factories, namely Ladismith Kaas and Parmalat dispose their waste, mostly commercial and industrial waste at the Ladismith Landfill site at a daily base. The Municipality does not provide waste collection services to farms, but farmers are encouraged to drop off their waste at the various landfill sites.

All 4 landfill sites in Ladismith, Zoar, Calitzdorp and Vanwyksdorp has been suitably licensed during 2018/19 financial year.

Ladismith and Zoar has operational licenses in and Calitzdorp and Vanwyksdorp has been licensed for closure.

The following illustrates all licensed landfill sites:

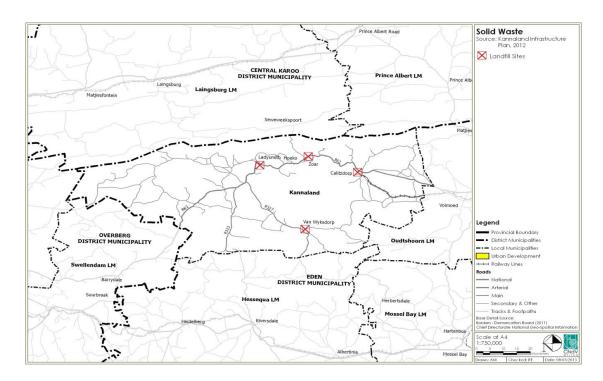

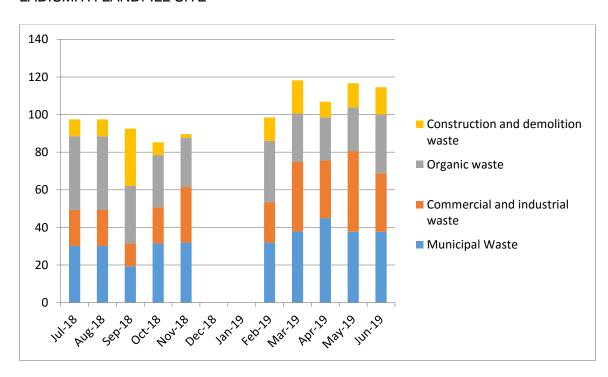

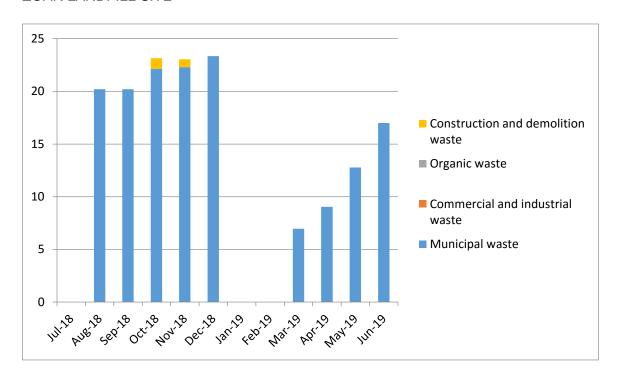

FIGURE 4: LANDFILL SITES - AS INDICATED IN SDF FIGURE 3.4.7.1

The following illustrates the estimated waste which was generated per operational landfill site:

WASTE MINIMISATION BY CLORANS DEVELOPMENT:

YOUTH COMMUNITY OUTREACH PROGRAMME:

The Municipality is in partnership with Department Environmental Affairs and has been awarded the Youth Community Outreach Programme. Through this programme a Youth Environmental Coordinator has been deployed to Kannaland Municipality. A further 22 beneficiaries will be employed from within the municipal area. The Coordinator has been conducting schools audits at various schools identifying environmental needs in schools.

The Coordinator has conducted a schools audit report to establish the needs of the identified schools.

Awareness programs were held during May and June 2019

MAY 2019

In partnership with Department of Environmental Affairs the Municipality has compiled it's Second Generation Waste Management Plan in line with the National Waste Strategy which consist of the following goals:

- Promote, educate and raise awareness w.r.t integrated waste management
- Improve waste information management
- Ensure the effective and efficient delivery of integrated waste management services
- Promote waste minimization through the re-use, recycling and recovery of waste
- Improve regulatory compliance
- Ensure the safe and integrated management of hazardous waste
- Ensure the sound budgeting and financial management for IWM services

GOALS	2018/19
Promote, educate and raise awareness w.r.t Integrated Waste Management	Awareness and education programmes were conducted at schools
	District Waste Management Officers Forum meetings were attended
Improve waste information management	Training has been received on DEADP Calculator system
	Regular reporting is done on iPWIS
	A waste characterization study has been conducted
Ensure the effective and efficient delivery of Integrated Waste Management services	The Municipality offers removals once per week for household and business
Improve regulatory compliance	All landfill sites have been suitably licensed during the 2018/19 financial year
	Budgetery constraints complicates the ability to comply to permit conditions
Ensure the safe and integrated management of hazardous waste	Hazardous waste is being managed effectively at hospitals, clinics, consulting rooms and businesses in Kannaland Municipality
Ensure the sound budgeting and financial management of IWM services	There are still budget constraints

The Second Generation Integrated Waste Management Plan is currently being reviewed. Kannaland Municipality has entered into a Service Level Agreement for the revision of the Integrated Waste Management Plan. GIBB is the appointed service provider who will be reviewing and developing the Third Generation Integrated Waste Management Plan.

Engagements were held between Kannaland Municipality and Department of Environmental Affairs and Developmental Planning for the initiation of a separation at source project in Ladismith and Calitzdorp.

Kannaland Municipality together with Garden Route District Municipality had a waste characterisation study and the Waste Characterisation Report was adopted by Council.

The Kannaland Municipality Waste Minimization Strategy was also adopted by Council.

PERSONNEL:

The Kannaland Municipality has during the 2018/19 financial year appointed a supervisor for the landfill sites. 2 General workers were permanently appointed at the Ladismith landfill site and 1 general worker was permanently employed at the Zoar landfill site.

TRAINING AND CAPACITY BUILDING:

The following are the training and capacity building initiatives:

TRAINING/CAPACITY BUILDING ATTENDED	DEPARTMENT/INSTITUTION	NO OF EMPLOYEES THAT ATTENDED
Integrated Waste Management Training	Institute of Waste Management	1
iPWIS Training	Department of Environmental Affairs and Developmental Planning	3
Collaborator Training	Collaborator	1

AIR QUALITY MANAGEMENT:

SLA was undertaken by Kannaland Municipality and Garden Route District Municipality whereby Lethabo Air Quality Specialist is the appointed as the service provider.

The draft Air Quality Management Plan has been finalised and published for public commenting at the Ladismith library as well as on the Cape EAPrac website.

An Air Quality Officer has been appointed in terms of NEM:AQA (Act 39 of 2004).

Awareness and Education:

An Awareness program was held together with Cape Nature and Department Environmental Affairs and Developmental Planning as well as Local Government Support for Department of Environmental Affairs.

Name of the school	Van Wyksdorp Primary School
Ages	12-13 years
Group size	32
Level of education	Grade 5

3.5 HOUSING

Kannaland Municipality appointed ASLA as Implementing Agent for the construction of low cost houses and associated infrastructure for the towns of Ladismith, Zoar and Van Wyksdorp in terms of Regulation 32 of the Municipal Supply Chain Regulations with effect from November 2012 for a three year period.

ASLA DEVCO has been appointed as Implementing Agent for the construction of low cost houses and associated infrastructure for the town of Calitzdorp in terms of Regulation 36 of the Municipal Supply Chain Regulations with effect from November 2012 for a three year period.

The Council of Kannaland Municipality has considered and resolved that the appointment of both ASLA and DEVCO ASLA be extended for three years in terms of Section 116(3) of the Municipal Finance Management Act (Act 56 of 2003).

An application to build 100 top structures in Zoar was submitted to Provincial Department of Human Settlements on 25 February 2018. This is an ongoing process in terms of funding acquiring to implement housing projects.

Some of our less fortunate experiences were the fact that the municipality could not deliver basic services to informal areas and challenges are the fact that bulk services cannot be supplied in informal settlements because plots in these areas which cannot be formalised. A number of measures were identified and implemented by the Municipality, amongst which were to build capacity in the Housing Section, which would have a significant impact on the effectiveness and efficiency of service delivery within the section.

The Provincial Department of Human Settlements is in the process of appointing a service provider to assist Kannaland Municipality to create better living conditions for inhabitants of informal settlements within the municipal area. The Housing Demand Database is being updated to clean-up outdated data captured on the database.

A constraint which hampers service delivery in the informal settlements is the absence of bulk basic services which cannot be delivered to some of these settlements. Environmental Impact Assessments have to be conducted to ascertain whether these areas occupied to erect informal settlements are conducive for occupancy.

The provision of human settlements is a high priority for the Municipality. Challenges do exist with regard to the capacity of bulk infrastructure services with specific reference to waste water treatment works, water storage and water works. This has delayed the delivery of human settlements over the past few years which has resulted in the significant increase in the housing waiting list. The beneficiary list is in process to be updating according the correct requirements.

The Municipality developed a human settlement policy which regulates the housing waiting list and the allocation of housing.

Given the expectation of economic growth resulting from water security and the ancillary jobcreation prospect of the proposed dam and its construction, the provision of affordable housing and its supporting infrastructure, such as water, electricity, sanitation, sewerage, and roads are foremost in creating a sound and sustainable cradle for continuing development and growth.

No houses have been built during the year under review but a significant number of title deeds for houses were transferred to respective beneficiaries across the municipal area. A total of 49 title deeds were issued to beneficiaries in Zoar

The following projects have been completed in the 2018/19 financial year:

ZOAR

 Pre planning (applications) Zoar Infill Housing project: are being finalized for this project in Protea Park.

Challenges

Water security remains a challenge however investigation is currently underway to address
the issue with more boreholes to be drilled for extra capacity and funding is required for
building of the new dam.

LADISMITH

 Ladismith Parmalat 400 RDP Housing: the Environmental Assessment Process is standing still due to bulk services challenges. A new application was submitted on 25 February 2018 is being considered for approval;

Challenges

The Parmalat and Varkieskloof projects will likely also require an Environmental Assessment application and bulk services constraints will remain as long as the proposed dam has not been built and the waste water treatment works have not been upgraded.

CALITZDORP

Challenges

Water supply is restricted due to the drought however under normal circumstances the water supply capacity is sufficient; and

VANWYKSDORP

100 RDP Housing Development: property belongs to a farmer and amendments to the urban edge must be completed before this project can proceed, however planning and related processes are in process; and Housing backlog and provision in housing pipeline

The Kannaland Municipality housing pipeline reflects provides for the following houses:

Town	Waiting List	GAP Housing	Informal settlement	Provided in pipeline
		R 3501-R 15 000		
Ladismith	1 282	83	45	1 606
Calitzdorp	1 024	102	45	651
Zoar	520	32	42	145
Van Wyksdorp	200	5	21	100
Total	3 026	222	153	2 503

TABLE 51: HOUSING PIPELINE AND PRE-FEASIBILITY REPORT – DE KOCK ASSOCIATES – INCLUDING MUNICIPAL DATABASE INFORMATION AS AT 30 JUNE 2018.

A Housing Pipeline was developed to assess the demand for low and middle income group housing in Kannaland. The high unemployment rate and the agricultural nature of the local economy (which is affected by the national and international trends towards growth in the

agricultural sector and the severe drought) have resulted in a significant increase in the demand for low cost housing.

Housing backlog and provision in housing pipeline

The Kannaland Municipality housing pipeline reflects for the following:

Town	Waiting List	GAP Housing	Informal settlement	Provided in pipeline
		R 3501-R 15 000		
Ladismith	1 282	83	45	1 606
Calitzdorp	1 024	102	45	651
Zoar	520	32	42	145
Van Wyksdorp	200	5	21	100
Total	3 026	222	153	2 503

TABLE 52: HOUSING PIPELINE AND PRE-FEASIBILITY REPORT – DE KOCK ASSOCIATES – INCLUDING MUNICIPAL DATABASE INFORMATION AS AT 30 JUNE 2018.

The tables below indicates the financial performance and capital expenditure for 2017/18 financial year:

Complete the pre-planning phase of the Zoar 100 infill housing project (erf 1834) by 30 June 2019	-	-	1	1		
Complete the pre-planning phase of the subdivision of (Erf 1416) in Zoar by 30 June 2019	-	-	1	1		
Construct 175 top structures in Calitzdorp (Bergsig) by 30 June 2019	-	-	175	0		

TABLE 54: HOUSING OBJECTIVES TAKEN FORM THE IDP

3.6 FREE BASIC SERVICES AND INDIGENT SUPPORT

Free basic municipal services are rendered to all urban areas and some rural areas within the municipal boundaries. The objective of Kannaland Municipality is to ensure that the procedures and guidelines, regarding indigent household subsidies, are known to all. This action is usually done through public participation meetings, ward committee meetings and councillor feedback meetings. Applications for a subsidy can be made with the assistance of a person in charge of permanent offices in the areas.

Special drives are also performed in the different wards where the community is invited to come and apply for a subsidy at a hall nearby or municipal offices and where they are also assisted with the completion of the applications.

The tables below indicate the households that received free basic services in the 2016/17 and 2018/19 financial years:

Free Basic Services To Low Income Households								
	Free Basic Water		Free Basic Sanitation		Free Basic Electricity		Free Basic Refuse	
	Access	%	Access	%	Access	%	Access	%
2017/2018	2 388	100%	2 388	100%	2 388	100%	2 388	100%
2018/19	2572	100%	2572	100%	2572	100%	2572	100%

TABLE 55: FREE BASIC SERVICES TO LOW INCOME HOUSEHOLDS - SOURCE: SAMRAS (MUNICIPAL STATISTICS)

COMPONENT B: ROAD TRANSPORT

This component includes: roads; transport; and waste water (stormwater drainage).

3.1 ROADS

Municipal Roads

The Municipality is responsible for the maintenance of roads within the four (4) towns (Ladismith, Calitzdorp, Zoar and Van Wyksdorp).

A roads and storm water master plan has been developed to identify the ageing infrastructure and recommend interventions to address the challenges. During a consultation session with sector departments, the Municipality approached the Municipal Infrastructure Support Agent "MISA", for assist with the development and compilation of the Roads and Storm Water Master Plan.

Completed projects

The Municipality is aware of the challenges with regard to road maintenance in Ladismith and is planning to upgrade all the streets and pavements in Ladismith in the next few financial rs.

During the 2018/19 financial year, operational maintenance commenced and potholes were filled as a /temporary measure. The upgrade of Gravel roads in Zoar has been funded by MIG and has successfully completed. It should be noted that all storm water projects goes concurrently with all road projects.

3.2 TRANSPORT (INCLUDING VEHICLE LICENSING & PUBLIC BUS OPERATION)

NO INFORMATION

3.3 WASTE WATER (STORM WATER DRAINAGE)

The Municipality is committed to maintain and clean the existent storm water drainage systems in the Kannaland area. It should be noted that with all road upgrades and repairs, storm water drainage systems will concurrently being upgraded and maintained on a regular basis.

Storm water systems exist in most of the residential areas. In informal and low-cost housing areas. Daily maintenance consists of opening and cleaning catch pits, manholes, side drains and open channels.

During the road and storm water master planning challenges were identified and recommended to be addressed. The municipality will in partnership with the Garden Route District Municipality to address all masterplanning and implementation thereof.

COMPONENT C: PLANNING AND DEVELOPMENT

This component includes: planning; and local economic development.

3.4 PLANNING

Building Control

Currently the Municipality has a Building Control section which is responsible for dealing with all building applications in terms of the building and planning regulations.

The Land Use Planning Ordinance, 1985 (Ordinance 15 of 1985), hereafter referred to as "LUPO", as a 1985 piece of legislation, predates the current Constitution of the RSA and was found to be unconstitutional in many respects. The Constitution confers "municipal planning" firmly as a municipal competency whilst in LUPO many of these powers vest with the Minister.

As a result of this the Land Use Management Act, 2013 (Act 16 of 2013), hereafter referred to as "SPLUMA", at national level, the Western Cape Land Use Planning Act, "LUPA", and Standard by-laws for municipal land use planning, has been developed to control land use planning.

The effect of this legislation transfers the full responsibility for land use planning to municipalities. The following are the key areas addressed in the legislation:

- Drafting of municipal spatial development frameworks,
- New integrated municipal zoning schemes,
- Receive and consider all land use applications.
- Decision making on land use applications by delegation to officials and to the Tribunals to be established.
- Appeals against decisions of the delegated official or the Tribunal to the Council's appeal authority,
- Regulating time frames, notifications, confirmation of subdivision arrangements,
- Lapsing of rights
- Transgressions and enforcements.

Currently the Municipality has a Building Control section which is responsible for dealing with all building applications in terms of the building and planning regulations.

Spatial Planning

The Council adopted a Spatial Development Framework (SDF) on 25 November 2013, after an intensive Public Participation Process.

The purpose of the SDF is to give guidance for future development in each town, and is limited within the urban edge of each town. The SDF is a living document thus Kannaland Municipality embarked on a formal review process to update the SDF to be more aligned with the current town planning challenges.

A process to amend the SDF is currently underway and will be finalised in the 2020/2021 financial year due to capacity and financial resources.

3.5 LOCAL ECONOMIC DEVELOPMENT (INCLUDING TOURISM AND MARKET PLACES)

LED STRATEGY

The LED strategy will be re-developed and workshop during the 2019/20 financial year. Partnerships with DEDAT and Private sectors must be established to supporting the Municipality into developing a future generation LED strategy and Tourism master plan.

Conducive environment

Kannaland Local Municipality plays an essential role in LED and their mandate is to create an environment enabling promote local economic development. Local Government contributes to this pillar through their main activities such as procurement etc. which will attract and not deter investment.

Broadening the economic base

The local economy of Kannaland is strongly focused on the services sector and this pillar specifically supports activities leading to the expansion of the services sector specifically retail and business opportunities. The municipality established a SMME forum which is focussed for SMME's and larger investors providing goods and services which are sustainable and will lead to an increased investment and economic growth in the area.

Increased accessibility

To ensure that all people living in the Kannaland area have better access to improved services rendered by the Municipality and other spheres of government.

Infrastructure investment

The physical infrastructure in Kannaland needs to have a sufficient carrying capacity to meet the needs of the citizens of the area. Therefore be it housing or bulk services, this type of investment is essential to promote LED in the area which is environmentally friendly.

Wealth creation

In order for Kannaland's economy to grow it is essential that the local economy grows through more investment and businesses being introduced into the area. The business opportunities which relate to specific leading sectors have been identified to diversify these sectors and create opportunities for local SMME's relating to viable business opportunities.

Attracting visitors and investors

Kannaland's local economy is built on the opportunities created by tourists visiting the area. It is essential that the tourism industry be further developed and investment into this industry be promoted to ensure continuous growth. We must look at all the qualities and attractions in our area, to secure investment and better opportunities for the development of Kannaland communities.

The **Expanded Public Works Programme** is one of government's ranges of programs aimed at service delivery, addressing poverty and providing income relief through temporary work opportunities for the unemployed. The EPWP is one of Kannaland Municipality's key job creation programmes given the high levels of unemployment in the area. This policy demonstrates Council's commitment towards job creation. Council has also resolved that all infrastructure projects (RBIG, MIG, ACIP, and electrical grant funding projects) are implemented on labor intensive principles.

The Municipality was nominated for best performance in the Western Cape for the EPWP programme.

The tables below will show the jobs created through EPWP programme during the year under review:

JOBS CREATED THROUGH EPWP

COMPONENT D: COMMUNITY & SOCIAL SERVICES

3.6 LIBRARIES; ARCHIVES; MUSEUMS; GALLERIES; COMMUNITY FACILITIES; OTHER (THEATRES, ZOOS, ETC)

LIBRARIES

The municipality renders the library service on an agency basis for the Provincial Government which is funded 100% through grants. The municipality views the libraries as key to developing the human capital, encouraging people to equip themselves with knowledge and skills in order to lead quality lives.

Libraries	Users	Stock
Ladismith	3542	18793
Calitzdorp	548	10715
Zoar	417	6740
Van Wyksdorp	133	5163

KANNALAND LIBRARY SERVICES

Libraries	Objects Removed from stock	Objects Added to Stock
Calitzdorp	547	167
Ladismith	1073	479
Van Wyksdorp	132	95
Zoar	184	197

Removal of objects from stock take place due to varies reasons, this can be due to stock losses or old and out dated items that are send back to regional libraries. Objects are added to the stock on a quarterly bases but due to budget cuts only n few items are added per annum.

Ladismith Public Library is currently operating at its full capacity. An electronic lending system SLIMS has been introduced successfully since September 2011. The circulation with reference to the number of registered users remains high. The RLCP Program has been successfully introduce. The library still struggles to render a service which fills the void created by weak school libraries. Staff in the Ladismith Library attend to the information needs of learners. The library is in need of additional space for individual learners and those working in groups and transport the visit remote farm communities.

The library provides free internet access to users for which the demand is high and increasing due to the effective management of the service. Expansion is vital and is being addressed presently. Additional computers with internet access will be provided.

Calitzdorp Library Calitzdorp Library is currently operating at its full capacity. The SLIMS electronic lending system has been introduced October 2017; the library has three computers with internet access for users.

Zoar Library: Zoar library is currently operating at its full capacity. The SLIMS electronic lending system has been introduced March 2019 the library has two computers with internet access for users. With an upgrade of 4 new computers in 2020. The library has lots of outreach and literacy programs for young children. This includes a newly established reading club for young adults during the winter periods.

Van Wyksdorp: The operating hours were extended. Morning hours were minimized to five hours (8:00-13:00) Mondays to Fridays. Extension of the afternoon hours (13:30-16:00) to benefit learners and premises occupied presently are in the process of being reviewed. Van Wyksdorp Library is fully functioning on the SLIMS lending system for libraries and has three computers with internet access for the public and learners.

Library Outreach Programs and Displays

Library outreach programs have been conducted to raise educational awareness amongst scholars and adult uses. Kannaland library service has been liaising with various stakeholders

to ensure that outreach programs are successful and that it reaches the bulk of Kannaland communities.

Extended Library Hours

All Library hours were extended in January 2018, libraries are now longer open to attend to the public during the week and on weekends.

New Libraries in the pipeline

- Hoeko Mini Library (March 2020)
- Bergsig Public Library (November 2020)

Below is the highlights and challenges during the year under review:

Highlights	Description
Bergsig Library	Funding were received for the upgrade and opening of the old Bergsig Library.
Library Week	Is Celebrated on an annual base during this week library staff create awareness on reading and the importance of libraries in communities
Outreach Programs (16 Days of Activism, World book day, Mandela day and National Book Week)	Over the past year Kannaland Library Service had great success with outreach programs
Internet Access to all Kannaland Communities	All Four Kannaland Libraries has internet Access for public use.
Mzansi Libraries Online	Ladismith library was one of only a few libraries in South Africa who received equipment from the Bill and Melinda Gates Foundation in collaboration with the National Department of Cultural Affairs and Sport. The equipment is to establish a game room for the all library users this includes and to ensure that all South Africans has access to the internet. 10 Tablets 5 Computers 2 Projectors 2 Xbox one with games. 1 Laptop

Challenges	Description
Mayor Stock losses	Stock Losses are one of the mayor challenges libraries face. (Library Material on loan are not returned by users)
Transport	Kannaland Library Service are in need for dedicated vehicle to ensure that remote farming Communities are also serviced.

Service Delivery levels:

Type of service	2018/2019
Library members	4640
Library material circulated	66169
Exhibitions held/ Displays	60
Internet use	5578
Children's programmes	Weekly
Visits to schools	3
Old age home visits	Weekly
School Holiday Programs	4 each holiday all libraries has a holiday
	program
In-house library use	21607

TABLE 57: FINANCIAL PERFORMANCE 2018/19 LIBRARIES; ARCHIVES; MUSEUMS; GALLERIES; COMMUNITY FACILITIES; OTHER - SOURCE: SAMRAS (MUNICIPAL STATISTICS)

3.7 CEMETERIES

The Municipality has identified the need to develop new cemeteries due to capacity restrictions and the remaining utilisation expectancy of the current cemeteries. Land for the new cemetery in Zoar has been identified and the re-zoning approved. The Environmental Impact Assessment is in progress.

The Ladismith cemetery has nearly reached its capacity but sufficient adjacent land is available to accommodate extension in terms of the Environmental Impact Assessment (EIA) Legislation. A formal process has been initiated to seek suitable alternative land.

The Bergsig and Calitzdorp town cemeteries have also reached full capacity. The Bloekomlaan cemetery will be utilised as an alternative cemetery site for the Bergsig and Calitzdorp town communities. This will be formally communicated through public participation processes. In addition a further utilisation expectancy study will be conducted.

The Van Wyksdorp cemetery has nearly reached its capacity and the consulting engineers have been instructed to seek suitable alternative land to establish a new cemetery for Van Wyksdorp. The Municipality is successful in maintaining the cemeteries to a high standard even though vandalism and theft of property are problematic and on the increase.

It should be noted that the planning for cemetery projects has been shifting to the outer financial years due to prioritisation on water and sanitation projects

COMPONENT E: ENVIRONMENTAL PROTECTION

Urban expansion and farming in marginal areas to meet the demand of an increasing population, are leading to a loss of land and productivity. Secondary pressures, such as climate change, desertification and alien plant invasion, are further contributing factors.

Humans influence land degradation in three principle ways:

- The use of land resources for productive purposes: for agriculture, the collection of wood for fuel and building materials, as well as water abstraction and mineral extraction.
- The use of land resources for space needs, for example, settlement, infrastructure and recreational purposes.
- A tertiary set of influences comprises the incidental and often remote impacts of economic activity on land resources: for example, pollution of (sub) surface and atmospheric water resources by industry, alien plant invasion and climate change.

Agriculture has transformed much of Kannaland's natural landscape to cultivated lands. The Little Karoo, in general, which is under extensive agriculture, game farming and conservation land uses, falls within the category "Succulent Karoo /Spekboom/ Fynbos".

Land degradation manifests itself in the soil and in the veld. Sheet erosion is the most common form of soil degradation, with some rill and gully erosion in Kannaland. The Combined Land Degradation Index (CDI) indicates that the most degraded areas within.

Kannaland are situated around Ladismith and Calitzdorp because of overgrazing. The rest of Eden is only lightly affected by soil and veld degradation issues.

To monitor land degradation in Kannaland, the following indicators need to be identified:

Area of land under formal conservation protection;

- Landscape change;
- Number of agricultural subdivisions; and
- Combined Land Degradation Index.

Six impact groups associated with land degradation drivers in Kannaland are:

- Farming in marginal areas, which leads to loss of ecosystem integrity, loss of natural habitats and which exerts stresses on the natural resource base, for instance on water through irrigation of crops.
- Subdivision of agricultural land into uneconomically viable units and urban sprawl leads to diminishing agricultural returns.
- Urban expansion triggered by population growth and a better standard of living leads to the loss of agriculturally productive land and other land conflicts (e.g. conservation vs. urban development).
- Alien plant invasions cause veld degradation, a reduction on the quality and quantity of water and hence the loss of biodiversity resources.
- Climate change (global warming) brings an increase in the frequency of extreme weather events (droughts/ flooding), change in rainfall patterns and in extreme cases desertification. Loss of biodiversity is strongly associated with these phenomena.

WATER

Kannaland falls largely within the Gouritz Water Management Area, a grouping of primary water catchments, which are diverse in nature, evaporation exceeds rainfall in the northern catchments meaning that these are water stressed areas. In contrast, rainfall generally matches evaporation in the southern catchments meaning that these are generally moister environments. In the Gouritz River catchment the development of surface water resources has reached its full potential and all the water is fully utilised.

The inland water resources are under severe pressure through urban population increased. In concert with population growth Kannaland has experienced expansion in the provision of water services. In addition, low cost housing projects emerging from the National Reconstruction and Development Programme (RDP), together with the National Water and Sanitation Programme which has contributed to water demand. A further pressure on the water resource is the influx of tourism over the holiday season, introducing a spike in water demand. Economic growth and consumer and export demand has led to an increase in agricultural production, which in turn has placed greater pressure on water resources through greatest abstraction for irrigation.

Alien invasive plant and animal species, introduced by human actions either accidentally or for commercial purposes, are proving a major threat to the quality and quantity water, as well as to the biodiversity of freshwater systems. Climate change is expected to lead to slightly reduced rainfall over the Kannaland region, increased variability of rainfall, fewer but heavier precipitation events and increased temperatures and evaporation. These effects could work together to increase flooding, but could also reduce base-flow (long term low flow).

BIODIVERSITY

Owing to its broad range of climatic conditions, geology, soils and landscapes, Kannaland has a very substantial share of global biodiversity within its borders. Kannaland's biological heritage is important in many ways - providing ecosystem services like clean water, contributing directly to the economy through industries like fishing and tourism, supporting livelihoods by providing food, medicines and building materials and generally improving health and well-being. Through habitat destruction and ill-conceived developments biodiversity is under threat world-wide.

To counteract this threat Kannaland should protect representatives of as many types of community and ecosystem as possible. By conserving suitable habitat we are also improving the survival chances of the species and populations contained therein. Living landscapes preserve the option value of biodiversity – the potential to provide benefits in the future.

Important driving forces putting pressure on the biodiversity resources of Kannaland are:

- Population growth;
- The demand for economic growth to provide wealth and job creation;
- Demand for housing and associated services for historically disadvantaged people;
- Unsustainable extraction of natural resources as a result of poverty or greed;
- Poor land use practices promoting soil erosion and infestation by invasive alien plants;
- Poor waste and pollution management;
- Climate change; and
- Lack of understanding

In terms of appropriate responses, the mainstreaming biodiversity consideration into socioeconomic agendas holds most promise to turn the situation around. It is necessary to:

- Integrate the protection and management of biodiversity resources with all human development by means of regional and national conservation initiatives;
- Build capacity in the areas of conservation assessment, taxonomy, green technology and knowledge transfer;

- Increase capacity in environmental law enforcement, management and education;
- Strengthen existing biodiversity conservation programmes to identify ecosystems, species and genetic resources that are at imminent risk of extinction;
- Implement strong counter measures to slow down the speed with which the loss of biodiversity occurs; and
- Link biodiversity protection and economic upliftment, as biodiversity protection provides an opportunity for less formal, nature-based community initiatives to act as economic engines and job creators.

CLIMATE

There is general scientific agreement that the world is now warmer than at any time in the last 1000 years, and that the cause for this warming is due to human activities. Kannaland is at risk from projected changes in rainfall pattern and warming induced by changes in the global energy balance and atmospheric water balance.

However, the average for the five-year reporting period may be useful for simple comparative purposes against the long term average. Once a continuous ambient air quality sampling programme is in place, quarterly air quality reports which will provide useful state of environment data.

Increased drying and changes to the seasonal nature of precipitation will bring an increase in irrigation requirements which are likely to desiccate wetlands and threaten seasonal ecosystem interactions within the wetland. Such impacts are likely to further threaten the biodiversity of freshwater resources, which in turn will impair the environmental services they provide. The impact caused by climate change in terrestrial ecosystems include the detrimental effects associated with wildfires due to increased berg-wind conditions, and the possibility of changes in the distribution of alien invasive species, apart from changes in indigenous species distribution and interactions.

Numerous economic sectors could be affected by changes in temperature and precipitation patterns. The impact is likely to be felt in agriculture, fisheries, forestry, the manufacturing industry, tourism, finance and investment, transport, communication and trade, and construction. Climate change is likely to impact water services in terms of diminishing reserves on the one hand, and damage to infrastructure due to heavier precipitation events on the other.

KANNALAND FLORA

The Cape Floral Kingdom is characterized by its exceptional richness in plant species. More than 8 700 species are known to exist, with more than 68% of these being endemic. The Cape

Floral Kingdom, thus, compares with some of the richest floras worldwide. It is the smallest of the Floral Kingdoms and covers a mere 0.06% of the earth's surface, and is the only Floral Kingdom contained in its entirety within a single country.

Kannaland is a region of extensive plains, arid foothills and rugged rocky ridges and includes a wide range of microhabitats with extreme seasonal and diurnal temperature fluctuations. There are 1325 plant species in this area, including 182 Succulent Karoo endemics and 92 Red List species (www.skep.org.za). While unique and rare species are found throughout the landscape, many of the endemics are concentrated along veins of weathered quartz, where patches of white pebbles provide camouflage and moderate the temperature for "stone plants"

COMPONENT F: SAFETY AND SECURITY

3.8 TRAFFIC SERVICES

Safety and security is the responsibility of the Protection Services Department of the Community Services Directorate. The Department is committed to provide a high quality community-oriented service to meet the safety and security needs of a diverse community. The Division strives to constantly improve its standing within the community it serves and the profession itself. Several awareness campaigns regarding road safety and fire protection are conducted throughout the year.

The traffic services unit consist of a chief traffic officer, two traffic officers, motor registration clerks chief clerks and 2 motor registration clerks, administration clerk.

During the year under review a chief traffic officer was appointed on 01st July 2018 to manage all traffic services functions. Activities such as testing of motor vehicles, motor registration and examine of drivers licences.

Awareness on road safety was implemented and conducted at schools whereby the school busses were inspected ito road worthy and to adhere to the road transportation act.

Road markings were paint to ensure visibility and to encourage motorist to adhere road traffic act.

Because of the high demand of testing of driver licencing it was planned to construct a k53. The project were not completed to funding constraints. Pre planning were done on the course • of where it will be situated and looks like.

It will generate revenue for the municipality and enable a service to the local community in terms of affordability for each.

Below are pictures of the operations carried out by the traffic unit:

The Kannaland Municipality is eager to ensure a safe environment for the public, personnel and councillors. The Municipality therefore makes use of private security firms to ensure the

safety of the personnel and councillors, as well as members of the public that visit municipal offices. Bylaws still needs to be reviewed approved by council in order to carry out the relevant law enforcement in areas.

3.9 FIRE SERVICES

The fire services function is managed by the Garden Route District Municipality.

Some of the achievements were:

- Members were identified who worked at working on fire (WOF) has been selected to
 undergo training to become qualified fire fighters. They received a high level of technical
 and administrative training to enhance their knowledge, skill and experience which will
 be beneficial for the community at large.
- The Fire Service embarked on a community educational drive within the informal settlement areas as well to schools to educate residents and scholars of the dangers associated with fires as well as preventative measure that could be used to prevent
- The outbreak of fires. Department of Local Government has donated a fully equipped fire truck as well uniforms were received from City of Cape Town, Knysna and George Municipality.
- Fire detectors were installed in municipal areas process continuous
- Fire Safety awareness at schools
- Capacity building through training to the officials
- Maintenance of Fire Hydrants
- Water Delivery during the drought
- Disaster Management plan currently being implemented

It should be noted that the Kannaland Municipality is in process to review all its bylaws in order to improve enforcement in the area.

3.10 DISASTER MANAGEMENT

The Municipality has a Disaster Management Plan which is an integral part of the IDP.

The establishment of a Disaster Management Centre has also been identified in terms of the Municipality's Disaster Management planning, however the Municipality does not have a functional disaster management ICT, GIS and early warning system. The Municipality is currently making use of the Disaster Management DS Tool of the Western Cape Disaster Management Centre to assist the Municipality in making informed decisions relating to Disaster Management.

As throughout the IDP is identified that water storage capacity is the main problem and has therefor prioritized the water and sanitation needs as a high and urgent matter to be attend to.

In accordance with the applicable legislation and with the desire to provide for the well-being of its citizens, the Kannaland Municipality has adopted a Disaster Management Plan in 2018/19 to ensure preparedness and effective response by the Municipality and its citizens in the event of a disaster. The Disaster Management Plan will assist Kannaland Municipality to be better prepared to support the local communities in dealing with disasters and to speed up the recovery process. It is crucial to have effective and efficient disaster risk reduction management measures in order to save lives, prevent escalation of emergencies and incidents as well as to relieve suffering. The implementation of this Disaster Management Plan will assist the municipality in clarifying roles and responsibilities with different stakeholders who are essential for disaster management. The purpose of the disaster plan is not only a legislative requirement, but enhances community safety through, planning, mitigation, response and recovery.

As defined in the prescriptions of the Act, the Municipal Manager is the Head of Disaster Management with the delegation of assistance through to the Senior Manager: Community Services. A Joint Operation Centre has recently been established. Mr Wayne Robertson has been appointed as the dedicated disaster management official with cross-functional influence to facilitate proper coordination and focused advocacy of disaster management. The municipality adopted the Disaster Management Plan and recently a Disaster Management Centre has been established in terms of the municipality's disaster management planning. The municipality utilizes the following systems:

- Ventusky (weather predictions);
- Afis (active fires in the area);
- Functional disaster management ICT, GIS and early warning system.

RISK REDUCTION MEASURES

No other risk reduction measures are in place other than proactive measures during early warnings and forecasts or progression of incidents. Preventive measures are relocating or

evacuating members of communities and providing support at a local level or as assisted through the District.

A number of effective programmes have been implemented to mitigate the, which include:

- Awareness programmes to protect citizens from fires and floods;
- Regular cleaning of the storm water channels;
- Clean-up programmes of rivers and streams;
- The Fire and Rescue Services do regular awareness programmes in the communities and schools.
- Water restrictions in place

The impact prioritization for the most important risks (in order of priority) is as follows:

- Floods
- Plantation and vegetation fires
- Agricultural epidemics
- Hazardous materials transport
- Drought

Preparedness measures

- Disaster Management Advisory Forum has been established.
- Meetings/ forums / workshops (newly established Disaster Management Forum)

COMPONENT G: SPORT AND RECREATION

This component includes: community parks; sports fields; sports halls; stadiums; swimming pools; and camp sites.

3.11 SPORT AND RECREATION

In terms of our mandate we make facilities, such as sport fields, available to the broader community. The Municipality is responsible for development of the facilities and the upgrading thereof whilst the sport clubs leases the facilities and as agreed upon, must maintain it.

The Municipality develops and maintains community parks, halls, camp sites and the caravan park. This service places an enormous financial burden on the Municipality, with its limited staff capacity and finances. The vastness of the municipal footprint demands a duplication of all services throughout the area and poses to be a well-oiled machine due to strict adherence to planning and implementation schedules. The Sport section performed their duties excellently taking into consideration the challenges and demands they face on a continuous basis. There

is a need for additional facilities but the availability of land is problematic, as well as the funds needed to develop the facilities.

3.12 PROJECT MANAGEMENT UNIT

MUNICIPAL INFRASTRUCTURE GRANT - MIG

The purpose of the grant is to provide capital finance for eradicating basic municipal infrastructure backlogs for poor households, microenterprise and social institutions servicing poor communities.

The outputs of the programme are:-

- Infrastructure for:
 - ✓ basic water and sanitation
 - ✓ central collection points for refuse, transfer stations, recycling facilities
 and solid waste disposal sites
 - √ sport and recreation facilities
 - ✓ street and community lighting
 - ✓ public facilities
 - Number of kilometers of municipal roads developed, upgraded and maintained.
 - Number of work opportunities and full-time equivalents (FTE's) created using the Expanded Public Works (EPWP) guidelines for the above outputs.

Allocation for the past 3 years

The MIG allocations to Kannaland Municipality for the past three financial years is indicated in table 1 below:

	2016/2017	2017/2018	2018/2019
Original allocation	R 9 803 000	R10 370 000	R10 156 000
(R')			
Roll over approved	N/A	N/A	R0
Additional allocation	R0	R0	R0
Stopped allocation	R0	R0	R 1 764 000
Final allocation	R 9 803 000	R10 370 000	R 8 392 000
Amount spent	R9 803 000	R 9 214 970	R 8 393 205
Amount not spent	R0	R1 155 030	R0

Funds during 2018/19 was stopped due to commitment of projects and slow expenditure led to stoppage.

Key Challenges since onset (establishment of the programme)

Committing the projects for a specific year results in extra prioritization as the allocation for the year is not enough to implement all urgent projects.

Progress to date

The table provides summary of progress in relation to projects implemented during the 2018/2019 financial year.

Projec t ID	Project Name	MIG approved budget (R')	Exp. in previous fy (R')	Balance (R')	2018/2019 budget (R')	2018/2019 exp. (R')	Physic al progres s (%)

Detailed progress on projects implemented over the 2018/2019 financial year are reflected in the tables below:

Project #1: Calitzdorp New Water Availability Study

Item Description	Detail information
Project Description	A total of four studies to be investigated
Scope of work	Replacement of defective bulk water meters
(2018/2019 plan)	Testing of 3 x existing boreholes
	Re-drilling of one borehole
Construction period	N/A
Consultant	Aurecon
Contractor	N/A
Implementation Plan	Tender Closing date: N/A
(contractor)	Tender award date: N/A
	Contract start date: N/A
	Practical completion: N/A
	Completion / Handover: 31/12/2019
	Defects liability period: N/A
Progress	Against 2018/2019 scope:
	Purchasing bulk water meters.
	Camera logging of the three existing boreholes.
	Overall progress (if multiyear project):
	Re-drilling of the borehole on the sport field to do yield and quality testing. Project is 70% complete
Major / key challenges (if delayed)	Nothing

Pictorial depiction

Project #2: Kannaland Installation of water meters

Item Description	Detail information
Project Description	Faulty meters to be replaced
Scope of work	Procure water meters with fittings for installation
Scope of work	Produce water meters with littings for installation
(2019/2010 plan)	
(2018/2019 plan)	NI/A
Construction period	N/A
Consultant	N/A
Contractor	Not appointed yet
Implementation Plan	Tender Closing date: N/A
(contractor)	Tender award date: N/A
	Contract start date: N/A
	Practical completion: N/A
	Completion / Handover: N/A
	Defects liability period: N/A
Progress	Against 2018/2019 scope:
	Purchased water meters with fittings for installation.
	Overall progress (if multiyear project):
	Project is 60% complete
Major / key challenges (if	Nothing
delayed)	
Pictorial depiction	N/A

Project #3: Zoar Upgrade water reticulation

Item Description	Detail information
Project Description	Construction of a 1MI reservoir and associated works
Scope of work	Construction of 1MI reservoir
(2018/2019 plan)	
Construction period	6 months
Consultant	Aurecon
Contractor	Kuthele General Projects and Silver Mountain Projects JV
Implementation Plan	Tender Closing date: 09/03/2018
(contractor)	Tender award date: 17/05/2018
	Contract start date: 31/05/2018
	Practical completion: 03/12/2018
	Completion / Handover: to be confirmed
	Defects liability period: to be confirmed
Progress	Against 2018/2019 scope:
	Construction of a 1MI reservoir with interconnecting pipework. Water tightness test outstanding.
	Overall progress (if multiyear project):
	Project is 98% complete
Major / key challenges (if delayed)	Water tightness test was delayed by contractor's internal financial issues
Pictorial depiction	
(1MI Reservoir)	

(1MI Reservoir)

Project #4: Van Wyksdorp Greenhills new street lighting

Item Description	Detail information
Project Description	New Street lights for Greenhills area
Scope of work	A total of 18 streetlights to be installed
(2018/2019 plan)	
Construction period	17 weeks
Consultant	Aurecon
Contractor	VE Reticulation
Implementation Plan	Tender Closing date: 18/01/2019
(contractor)	Tender award date: 26/04/2019
	0
	Contract start date: 13/06/2019
	Described association, 44/40/0040
	Practical completion: 11/10/2019
	Completion / Handover: 11/10/2019
	Completion / Handover. 11/10/2019
	Defects liability period: 11/10/2020
Progress	Against 2018/2019 scope:
3	/ igaov 20 : 0/20 : 0 000po.
	Excavation for the street light poles and procuring the materials for
	installation.
	Overall progress (if multiyear project):
	Project is 30% complete
Major / key challenges (if	Additional funds was required to implement project therefore
delayed)	contractor was appointed later than planned.

Pictorial depiction

(Excavation for streetlights)

Project #5: Calitzdorp New sport field lighting

Item Description	Detail information
Project Description	New lights to be installed at sport field
Scope of work	New lights to be installed at the rugby/soccer field and at the netball court.
(2018/2019 plan)	
Construction period	17 weeks
Consultant	Aurecon
Contractor	VE Reticulation
Implementation Plan	Tender Closing date: 18/01/2019
(contractor)	Tender award date: 26/04/2019
	Contract start date: 13/06/2019
	Practical completion: 11/10/2019
	Completion / Handover: 11/10/2019
	Defects liability period: 11/10/2020
Progress	Against 2018/2019 scope:
	Excavation for the street light poles and procuring the materials for installation.
	Overall progress (if multiyear project):

Major / key challenges (if delayed)

Project #6: Zoar Upgrade sport field Ph2

Item Description	Detail information
Project Description	A new sport field to be constructed
Scope of work	A new sport field to be constructed
(2018/2019 plan)	A new ablution facility to be constructed
	Irrigation to be installed
	Two wooden pavilion structures to be erected
	Sewer reticulation with connections
Construction	20 weeks
period	
Consultant	Aurecon
Contractor	Amandla GCF Construction
Implementation	Tender Closing date: 18/01/2019
Plan	
	Tender award date: 25/04/2019
(contractor)	Contract start date:16/05/2019
	Practical completion:30/09/2019
	Completion / Handover:30/09/2019
	Defects liability period:30/09/2020
Progress	Against 2018/2019 scope:
	Earthworks on new sport field, irrigation installed, top soiling and construction of the new ablution facility. Progress at 20% complete overall.
	Overall progress (if multiveer project):
	Overall progress (if multiyear project):
	Contractor is on programme.
Major / key challenges (if delayed)	Additional funds was required to implement project therefore contractor was appointed later than planned.

Pictorial depiction

(New Ablution facility)

(Subsoil Drainage)

New Sport Field

The 2018/2019 service delivery performance:

- Number of poor households impacted through the construction of new infrastructure and upgrading and renewal of existing infrastructure for:
 - ✓ All households in Zoar are provided with basic water services and extra storage capacity.
- Number of infrastructure constructed (new infrastructure, upgraded or renewed):
 - ✓ One sports and recreation facilities is in the process of development

Key Challenges

The following challenges are currently being experienced in the management of the programme which often result in delaying progress and low expenditure:

- External factors
 - ✓ Poor contractor performance
- Internal factors
 - ✓ Slow SCM procurement processes
 - ✓ Delays in payment of service providers
 - Unavailability of counter funding

COMPONENT I: CORPORATE POLICY OFFICES AND OTHER SERVICES

This component includes: corporate policy offices, financial services, human resource services, ICT services, property services.

3.13 EXECUTIVE AND COUNCIL

This component includes: Executive Office (Mayor; councillors; and Municipal Manager).

The Council consists of seven (7) councillors, including the Executive Mayor, Deputy Executive Mayor and Speaker as determined by the MEC for Local Government in the Western Cape.

It is a category B Municipality with a mayoral executive system combined with a ward participatory system as provided for in the Western Cape Determination of Types of Municipalities Act, 2000.

Executive and Council does not fall in the level category however the executive forms part of the section 57 appointments, made by Council.

The tables below indicates the financial incurred for the year under review:

Financial Performance 2018/19: The Executive and Council						
					R'000	
			2018/19			
Details	Actual	Original Budget	Adjustment Budget	Actual	Variance to Budget	
Total Operational Revenue	0	26 422 000,00	15 900 530,00	20 219 994,53	-31%	
Expenditure:						
Employees		6 024 600,00	6 421 750,00	6 661 501,70	10%	
Repairs and Maintenance					#DIV/0!	
Other		3 023 660,00	2 946 960,00	1 724 600,89	-75%	
Total Operational Expenditure	0	9 048 260,00	9 368 710,00	8 386 102,59	-8%

TABLE 58: FINANCIAL PERFORMANCE 2018/19: THE EXECUTIVE AND COUNCIL -

3.14 FINANCIAL SERVICES

Sound financial management practises are essential for municipalities. The major challenge for municipalities is long term financial sustainability. The MFMA aims at directing municipalities in a sustainable financial environment and to modernise financial management practices.

The act places municipalities on a financially sustainable footing and supports co-operative government between all spheres of government. Successful implementation of the provisions of the act will maximise the capacity of municipalities to deliver services to their residents, users and customers.

It is critical for the Municipality to review how we conduct our business to ensure that value for money is obtained in all our expenditures, that revenue administration systems are operating effectively, and that creditors (including bulk service providers) continue to be paid timeously and in full.

Financial Performance 2018/19: Financial Services						
R'000						
			2018/19			
Details	Actual	Original Budget	Adjustment Budget	Actual	Variance to Budget	
Total Operational Revenue	0	1 126 000,00	1 116 170,00	1 090 042,57	-3%	
Expenditure:

TABLE 59: FINANCIAL PERFORMANCE 2018/19: FINANCIAL SERVICES

3.15 HUMAN RESOURCE SERVICES

The broader objectives of the Human Resource Services division of the Municipality is to ensure that:

- The appropriate staff members are recruited and appointed
- Staff members are optimally placed in relation to the needs of the organisation
- An environment is created conducive of staff performing their functions in line with their knowledge, experience and skills
- Staff members are adequately compensated and that their vested interests and benefits are professionally administered
- Staff members are allowed the opportunity to develop and be promoted in a physical environment that is free from safety, health and psychological hazards
- An organisational design is implemented that promotes productivity and sustains high levels of morale and ethical behaviour
- A culture of discipline, equally, transparency and fairness is promoted in the workplace
- The organisation is free from all forms of discrimination and prejudice

In order to achieve these broader objectives, the Human Resource Services is organized in a manner to respond to the following functions:

- Organisational efficiency and improvement
- Staffing in relation to recruitment, selection and appointments
- Administration of employee benefits
- Skills development and training
- Occupational health and safety
- Labour relations
- Employee wellness (EAP)
- Performance management
- Employment equity

- Change Management
- Statistics and Reporting

The organisational structure have been reviewed during July 2017 to ensure alignment with the municipal strategic objectives (IDP) to ensure compliance and effective and efficient service delivery. The objective with the review of the organisational structure is to improve revenue collection and a flatter management structure for faster decision making.

CHAPTER 4 – ORGANISATIONAL DEVELOPMENT PERFORMANCE

The organisational structure of Kannaland Municipality for the Municipal Manager and three directorates namely, Corporate Services (Administration and Community Services), Finance and Infrastructure Services.

The organizational structure is currently being reviewed. The outcome of this project will result in establishment of individual performance which will be aligned to the job descriptions. The organizational structure is currently being revised for the best service delivery at the lowest cost to the Municipality. Job descriptions are being reviewed based on job content and volume in the attempt to form specialist units.

The vacancy rate of the municipality was 33.37% for the year under review. The ideal is to decrease the rate below 20% in order to achieve the goals as mentioned above.

COMPONENT A: INTRODUCTION TO THE MUNICIPAL PERSONNEL

4.1 EMPLOYEE TOTALS, TURNOVER AND VACANCIES

Employees						
Description	Year 2018/19					
	Approved Posts	Employees	Vacancies	Vacancies		
	No.	No.	No.	%		
Water	35	26	9	25.7%

	No.	No.	
2017/18	21	14	0.66%
2018/19	36	6	0.166%

TABLE 61: TURNOVER RATE

COMPONENT B: MANAGING THE MUNICIPAL WORKFORCE

The Municipal Systems Act, 32 of 2000, Section 67, requires municipalities to develop and adopt appropriate systems and procedures to ensure fair; efficient; effective and transparent personnel administration in accordance with the Employment Equity Act 1998.

The purpose of the Disciplinary Board is restricted to alleged offences of financial misconduct related to municipal officials as per sections 171 (financial misconduct by municipal officials of a Municipality) and 172 (financial misconduct by officials of municipal entities) of the Municipal Financial Management Act, 2003 (Act 56 of 2003), and has no jurisdiction to address any allegation relating to offences in terms of section 173 of the Act (criminal proceedings). Roles and functions are derived from the Municipal Financial Management Act (sections 171 and 172) and the MFMA Regulations on Financial Misconduct Procedures and Criminal Processes, 2014.

Council as a whole is the legislative body and delegates some of this authority to the committees established in terms of section 79 of the Local Government: Municipal Structures Act. The Disciplinary Board is established in terms of Section 79 of said Act.

The scope for the Municipal Public Accounts Committee's activities also encompass, amongst other, issues relating to recommendations on unauthorised, irregular, fruitless and wasteful expenditure as well as performance, within the delegation framework of the Municipal Council

The Municipal Systems Act (Section 59 (1)) prescribes that a Municipal Council must develop a system of delegation that will maximise administrative and operational efficiency and provide for adequate checks and balances. The prudent use of this system allows municipalities to separate council powers between executive (the Executive and Mayoral Committee for example) and legislative authority (Council as delegated to the Disciplinary Board, other committees and officials) in terms of a set of delegations approved by Council. The current set of delegations was approved by Council in 2016.

Managing the municipal workforce is not only the duty of the Human Resources section and every manager in Kannaland Municipality is responsible for managing of his/her own line function in an integrated manner.

4.2 POLICIES

The followings policies have been adopted and are in force:

POLICIES			
Name of Policy	Completed %	Reviewed %	Date adopted by council or comment on failure to adopt
Attraction and Retention	YES		October 2011
Code of Conduct for employees	YES		Use BCE-act & regulations & Systems Act Code
Delegations, Authorisation & Responsibility	YES		
Disciplinary Code and Procedures	YES		Use SALGBC agreements
Essential Services	YES		
Employee Assistance / Wellness	NO		
Employment Equity	NO		
Grievance Procedures	NO		Use SALGBC agreements
HIV/Aids	YES		Feb 2008
Job Evaluation	NO		
Leave	YES		Feb 2008
Occupational Health and Safety	YES		9 Sept 2008
Official Journeys (S & T)	YES	October 2013	19-Mar-12
Official Working Hours and Overtime	YES		19-Dec-12
Organisational Rights	YES		
Payroll Deductions	YES		
Performance Management and Development	YES		
Recruitment, Selection and Appointments	YES		27-Oct-11
Remuneration Scales and Allowances	YES		
Skills Development	YES		Jan 2008
Special Skills (Scarce Skills)	YES		Oct 2011
Long Service Recognition	YES		9-Sep-08

POLICIES			
Name of Policy	Completed %	Reviewed %	Date adopted by council or comment on failure to adopt
Acting Allowance	YES		19-Dec-12
Standby Allowance	YES		9-Sep-08
Nepotism	YES		9-Sep-08
Demotion, Promotion & Transfer	YES		9-Sep-08
Personnel Production: Performance Recognition	YES		9-Sep-08
Whistle-blowers	YES		9-Sep-08
Alcohol & Substance Abuse	YES		9-Sep-08
Cellphone Users Scheme	YES		9-Sep-08
Car-allowances Scheme	YES		29-Jan-09

Cellphone Users Scheme for Officials	YES		13-Jan-12
Retention of Staff	YES		27-Oct-11
Access of Information	YES		18-Nov-11
Anti-Fraud & Corruption Strategy and Prevention	YES		12-Nov-13

TABLE 62 - HR POLICIES AND PLANS

All policies will be reviewed in 2019/20 financial year.

4.3 INJURIES, SICKNESS AND SUSPENSIONS

Number and Cost of Injuries on Duty		
Type of injury	Injury Leave Taken	Employees using injury leave
	Days	No.
Required basic medical attention only	0	1
Temporary total disablement	0	0
Permanent disablement	0	0
Fatal	0	0
Total	0	0

TABLE 63: NUMBER AND COST OF INJURIES ON DUTY

The Municipality has an employee assistance programme to visit employees who are hospitalized for long periods due to illness or injuries and to assist them with procedures to be boarded or whatever they need assistance with.

The Occupational Health and Safety structures are being strengthened to reduce occupational injuries. Internal departments attend monthly meetings to discuss and seek possible solutions wrt OHS matters.

DISCIPLINE

Number and Period of Suspensions				
Position	Nature of Alleged Misconduct	Date of Suspension	Details of Disciplinary Action taken or Status of Case and Reasons why not Finalised	Date Finalised
Head: Expenditure	GROSS MISCONDUCT	22/08/18	Dismissed on 11/07/2019	11/07/2019
Clerk: Creditors	Gross Misconduct	22/08/2018	Dismissed on 11/07/2019	11/07/2019
Sup: Mechanical	Theft	08/02/2019	Resigned	April 2019
Manager: Meter Reading:	Fraud	07/08/2018	In process	In process

TABLE 64: NUMBER AND PERIOD OF SUSPENSIONS

As result of various charges on allegations of misconduct, the general discipline in the workplace has improved during the year under review. The status quo can be improved even more with awareness campaigns and training.

4.4 PERFORMANCE REWARDS

The individual performance management system has not yet been developed to include other officials than the section 56 and 57 senior managers. For the 2018/19 financial year no performance evaluations were performed and no performance rewards were paid.

COMPONENT C: CAPACITATING THE MUNICIPAL WORKFORCE

Section 68 of the Local Government: Municipal Systems Act requires from the Municipality to develop the workforce capacity to a level that enables them to perform their functions and exercise their posers in an economical, effective, efficient and accountable way in accordance with the Employment Equity Act, 1998.

Challenges experienced regarding training of officials:

- 1. As part of a training audit to identify employees' needs for training, they had to complete a questionnaire and submit the document to the Human Resources office. The interest that the employees took into this exercise was disappointing; and
- 2. Funding for training remains a challenge. LGSETA do not allocate funding to Kannaland Municipality for Municipal Minimum Competency training due to the fact that a MMC course had been stopped due to the fact that the beneficiaries on course were not from the target group for MMC training. It is of critical importance that the financial and other personnel who are required to comply with MMC Regulations, be trained as a matter of urgency. The programme for the capacitation of financial interns will be utilized to train the finance department staff.

4.5 SKILLS DEVELOPMENT AND TRAINING

Skills Matrix

TABLE 68: DISCLOSURES OF FINANCIAL INTERESTS

CHAPTER 5 – FINANCIAL PERFORMANCE

Chapter 5 contains information regarding financial performance and highlights specific accomplishments. The chapter comprises of three components:

- Component A: Statement of Financial Performance
- Component B: Spending Against Capital Budget
- Component C: Other Financial Matters

COMPONENT A: STATEMENTS OF FINANCIAL PERFORMANCE

This component provides an overview of the financial performance of the Municipality and focuses on the financial health of the Municipality.

In terms of the Municipal Finance Management Act, 2003 (Act No. 56 of 2003) (MFMA), section 126(1)(a), the accounting officer must prepare the annual financial statements of the Municipality and, within two months after the end of the financial year to which those statements relate, submit the statements to the Auditor-General for auditing.

According to section 133(1)(a) of the MFMA, the mayor must promptly table in the council a written explanation setting out the reasons for the failure if the accounting officer fails to submit financial statements to the Auditor-General in accordance with section 126(1) of the MFMA.

The reasons for the delay in submitting the annual financial statements to the Auditor-General for auditing, as contemplated in section 126(1) (a) of the MFMA can be ascribed to the following:

Governance challenges

The Municipality has been facing significant governance challenges due to leadership instability at time, including long-standing key vacancies in the finance department.

Skills and capacity challenges

All staff in the finance section have not achieved their prescribed minimum competency levels, due to a lack of funding and planning and, consequently, do not have the requisite skills and experience to ensure compliance with the financial reporting requirements of the Standards of GRAP.

The absence of a chief financial officer position, coupled with an unstable financial accounting system and ineffective human resource management practices, have contributed to the poor implementation of internal controls over accurate and complete financial information. As a result, basic daily and monthly controls were not embedded in the Municipality's processes to ensure proper record keeping, timely, accurate and complete processing of transactions, reconciliation of transactions and regular monitoring of compliance with relevant legislation.

System challenges

It should be note, the challenges below is highlighted what was experienced during the 2018/19, however the financial system issues has been dealt with to date in collaboration with National Government and Provincial Government.

The Municipality experienced challenges with the implementation of mSCOA, which impacted negatively on the implementation of basic financial management discipline and adherence to good internal control, as well as the production of reliable financial information for in-year monitoring purposes. Although the Municipality has made progress with the implementation of mSCOA, it fell short of achieving all the required milestones due to the following reasons, among other:

- 1. The Municipality experienced capacity and skills challenges, including severe funding constraints to manage the mSCOA implementation process.
- 2. The apparent inability of the existing accounting and information system to accommodate the technical specifications set in the mSCOA, negatively affected the finalisation of data migration and mapping processes.
- 3. The Municipality maintained the mSCOA database and general ledger on a stand-alone laptop computer, due to funding constraints. The laptop was stolen in August 2017 and it has taken a considerable amount of time for the Municipality and the service provider responsible for mSCOA implementation to rebuild the database.
- 4. The Municipality is still experiencing significant implementation challenges, because of ongoing segmentation errors and system set-up issues, which affect the recording of and reporting on transactions, including the loading and management of the annual and adjustment budgets. The effect of the ongoing data errors include the following:
 - The Municipality was not able to accurately record transactions on the accounting system;
 - The accounting system did not produce reliable budget reports;
 - Reconciliations of various accounts could not be performed, because of data errors; and
 - In-year management of accounts and reporting could not be done reliably due to data errors.
- 5. The appointed service provider did not always prioritise the implementation of mSCOA at Kannaland, because of the Municipality's inability to pay the outstanding account and for current services owing to severe cash flow constraints.

Following the above-mentioned reasons, the Municipality has not been able to produce annual financial statements on time, as contemplated in section 126(1) (a) of the MFMA.

It should be noted that the progress from 2017/18 to 2018/19 has been similar the same with regards to the system errors. However progress has been made since the appointment of BTO Manager wrt to monitoring and implementing the data strings to ensure compliance and more accurate financial data.

Although the matter has been reported to Council on 30 August 2019 and Council noted that extension for submission of the Annual Financial Statements was requested the audit was finalised in August 2019 thus the Annual report could then be concluded with verified audited financials.

A more accurate annual report will be produced and distributed to council before concluding the final report with the outcome of the Auditor General and audited financial statements.

The whole section the financial overview will not be included in this report at this time.

(The sections below will be completed once the audit of the final financial information and performance information has been concluded)

STATEMENT OF FINANCIAL PERFORMANCE

The financial performance of Kannaland Municipality for the 2018/19 financial year is summarized in the Statement of Performance:

TABLE 69: GRANT PERFORMANCE

Below is the operation expenditure for the year under review:

5.3 ASSET MANAGEMENT

The unit experienced problems as a result of under staffed where only one accountant and one intern in this department. This makes it impossible to function effectively. Fleet management was also added to the asset management department and is also managed by the acting accountant.

Lack of Asset Management System, we are currently still making use of an excel register which only allows annual update of the FAR, which makes us dependant on consultants.

Lack of a store room, we currently have no space for the storage of assets.

Co-operation by staff is poor. They still believe that they carry no responsibility towards the management of the assets assigned to them and that the responsibility remains with the asset management unit.

The availability of financial and technical information regarding projects that was done is still a huge challenge. We are still struggling to obtain the correct information in the required format to do the unbundling of projects efficiently. The problems with the Financial System as well as how it is being used, also contribute to the difficulty regarding the data needed for the unbundling.

Availability of staff to do quarterly sample verifications, due to the lack of staff in the department, is difficult. Without sufficient staff it is impossible to implement the basic policies and procedures required to manage the assets efficiently and effectively. Despite numerous challenges and shortages in the Asset Management section, the most pressing challenge is to attain a fully complete asset register.

This is a process that takes time as well as financial resources to be fully functional and compliant. The Municipality has an asset management plan which produces a credible asset verification register with GIS mapping.

COMPONENT B: SPENDING AGAINST CAPITAL BUDGET

Capital expenditure relates mainly to construction projects that will have value lasting over many years. Capital expenditure is funded from grants, borrowings and operating expenditure and surpluses. Component B deals with capital spending indicating where the funding comes from and whether the Municipality is able to spend the available funding as planned.

5.6 CAPITAL EXPENDITURE OF THE 5 LARGEST PROJECTS

There were no expenditure on Service backlogs for the year under review

5.10 BORROWING AND INVESTMENTS

Kannaland Municipality as many other municipalities in South Africa, is reliant on grant funding to enhance their income and to properly execute their duties and functions as prescribed by the Constitution of South Africa. Therefore all grant funding received from National and Provincial Government needs to be used, solely for the purposes intended and granted for.

All grant funding are safely deposited at the Municipality's bank on 32 days investments. This not only ensures safekeeping of grant funding, but also enhancing the cash flow position of the Municipality by earning additional income from interest.

5.11 PUBLIC PRIVATE PARTNERSHIPS

The Municipality has not undertaken any projects through Public Private Partnerships during 2018/19.

This function will execute in the 2019/20. More detail can be found in the 2020/2021 IDP.

COMPONENT D: OTHER FINANCIAL MATTERS

5.12 GRAP COMPLIANCE

GRAP is the acronym for Generally Recognized Accounting Practice and it provides the guidelines by which municipalities are required to maintain their financial accounts. Successful GRAP compliance will ensure that municipal accounts are comparable and more informative. It will also ensure that the Municipality is more accountable to its citizens and other stakeholders. Information on GRAP compliance is required to enable National Treasury to assess the pace of progress and consider the implications.

The financial statements have been prepared in accordance with Standards of Generally Recognized Accounting Practice (GRAP) including any interpretations, guidelines and directives issued by the Accounting Standards Board. The financial statements are based upon appropriate accounting policies consistently applied and supported by reasonable and prudent judgements and estimates.

CHAPTER 6 – AUDITOR GENERAL AUDIT FINDINGS

The Constitution in S188 (1) (b) states that the functions of the Auditor-General include the auditing and reporting on the accounts, financial statements and financial management of all municipalities. In accordance with the Local Government: Municipal Systems Act, 2000 (section 45) the results of performance measurement must be audited annually by the Auditor-General.

COMPONENT A: AUDITOR-GENERAL OPINION OF FINANCIAL STATEMENTS 2018/19

Still in progress

TABLE 71: AUDITOR-GENERAL REPORT ON SERVICE DELIVERY PERFORMANCE: 2018/19

GLOSSARY

Accessibility	Explore whether the intended beneficiaries are able to access services or
indicators	outputs.
Accountability	Documents used by executive authorities to give "full and regular" reports
documents	on the matters under their control to Parliament and provincial legislatures
	as prescribed by the Constitution. This includes plans, budgets, in-year
	and Annual Reports.
Activities	The processes or actions that use a range of inputs to produce the desired
	outputs and ultimately outcomes. In essence, activities describe "what we
	do".
Adequacy	The quantity of input or output relative to the need or demand.
indicators	
Annual Report	A report to be prepared and submitted annually based on the regulations
	set out in Section 121 of the Municipal Finance Management Act. Such a
	report must include annual financial statements as submitted to and
	approved by the Auditor-General.
Approved Budget	The annual financial statements of a Municipality as audited by the Auditor
	General and approved by council or a provincial or national executive.
Baseline	Compart level of manfarmance that a Maniair ality aims to improve when
Baseline	Current level of performance that a Municipality aims to improve when
	setting performance targets. The baseline relates to the level of
Basic municipal	performance recorded in a year prior to the planning period.
Basic municipal service	A municipal service that is necessary to ensure an acceptable and reasonable quality of life to citizens within that particular area. If not
Service	provided it may endanger the public health and safety or the environment.
	provided it may endanger the public health and safety of the environment.
Budget year	The financial year for which an annual budget is to be approved – means
,	a year ending on 30 June.
Cost indicators	The overall cost or expenditure of producing a specified quantity of
	outputs.
Distribution	The distribution of capacity to deliver services.
indicators	
	4

Financial Statements	Includes at least a statement of financial position, statement of financial performance, cash-flow statement, notes to these statements and any other statements that may be prescribed.		
General Key	After consultation with MECs for local government, the Minister may		
performance	prescribe general key performance indicators that are appropriate and		
indicators	applicable to local government generally.		
Impact	The results of achieving specific outcomes, such as reducing poverty and creating jobs.		
Inputs	All the resources that contribute to the production and delivery of outputs.		
	Inputs are "what we use to do the work". They include finances, personnel,		
	equipment and buildings.		
Integrated	Set out municipal goals and development plans.		
Development Plan (IDP)			
National Key	Service delivery & infrastructure		
performance areas	Economic development		
	Municipal transformation and institutional development		
	Financial viability and management		
	Good governance and community participation		
Outcomes	The medium-term results for specific beneficiaries that are the consequence of achieving specific outputs. Outcomes should relate clearly to an institution's strategic goals and objectives set out in its plans. Outcomes are "what we wish to achieve".		
Outputs	The final products, or goods and services produced for delivery. Outputs		
3.16.10	may be defined as "what we produce or deliver". An output is a concrete		
	achievement (i.e. a product such as a passport, an action such as a		
	presentation or immunization, or a service such as processing an		
	application) that contributes to the achievement of a Key Result Area.		

Performance Indicator Performance Information	Indicators should be specified to measure performance in relation to input, activities, outputs, outcomes and impacts. An indicator is a type of information used to gauge the extent to which an output has been achieved (policy developed, presentation delivered, service rendered) Generic term for non-financial information about municipal services and activities. Can also be used interchangeably with performance measure.
Performance Standards:	The minimum acceptable level of performance or the level of performance that is generally accepted. Standards are informed by legislative requirements and service-level agreements. Performance standards are mutually agreed criteria to describe how well work must be done in terms of quantity and/or quality and timeliness, to clarify the outputs and related activities of a job by describing what the required result should be. In this EPMDS performance standards are divided into indicators and the time factor.
Performance Targets:	The level of performance that municipalities and its employees strive to achieve. Performance Targets relate to current baselines and express a specific level of performance that a Municipality aims to achieve within a given time period.
Service Delivery Budget Implementation Plan	Detailed plan approved by the mayor for implementing the Municipality's delivery of services; including projections of the revenue collected and operational and capital expenditure by vote for each month. Service delivery targets and performance indicators must also be included.

ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2019

Accounting Officer's Responsibilities and Approval

The accounting officer is required by the Municipal Finance Management Act (Act 56 of 2003), to maintain adequate accounting records and is responsible for the content and integrity of the annual financial statements and related financial information included in this report. It is the responsibility of the accounting officer to ensure that the annual financial statements fairly present the state of affairs of the municipality as at the end of the financial year and the results of its operations and cash flows for the period then ended. The external auditors are engaged to express an independent opinion on the annual financial statements and was given unrestricted access to all financial records and related data.

The annual financial statements have been prepared in accordance with Standards of Generally Recognised Accounting Practice (GRAP) including any interpretations, guidelines and directives issued by the Accounting Standards Board.

The annual financial statements are based upon appropriate accounting policies consistently applied and supported by reasonable and prudent judgements and estimates.

The accounting officer acknowledges that he is ultimately responsible for the system of internal financial control established by the municipality and place considerable importance on maintaining a strong control environment. To enable the accounting officer to meet these responsibilities, the accounting officer sets standards for internal control aimed at reducing the risk of error or deficit in a cost effective manner. The standards include the proper delegation of responsibilities within a clearly defined framework, effective accounting procedures and adequate segregation of duties to ensure an acceptable level of risk. These controls are monitored throughout the municipality and all employees are required to maintain the highest ethical standards in ensuring the municipality's business is conducted in a manner that in all reasonable circumstances is above reproach. The focus of risk management in the municipality is on identifying, assessing, managing and monitoring all known forms of risk across the municipality. While operating risk cannot be fully eliminated, the municipality endeavours to minimise it by ensuring that appropriate infrastructure, controls, systems and ethical behaviour are applied and managed within predetermined procedures and constraints.

The accounting officer is of the opinion, based on the information and explanations given by management, that the system of internal control provides reasonable assurance that the financial records may be relied on for the preparation of the annual financial statements. However, any system of internal financial control can provide only reasonable, and not absolute, assurance against material misstatement or deficit.

The accounting officer has reviewed the municipality's cash flow forecast for the year to 30 JUNE 2020 and, in the light of this review and the current financial position, he is satisfied that the municipality has or has access to adequate resources to continue in operational existence for the foreseeable future.

I certify that the remuneration of Councillors and in-kind benefits are within the upper limits of the framework envisaged in Section 219 of the Constitution, read with the Remuneration of Public Office Bearers Act and the Minister of Provincial and Local Government's determination in accordance with this Act.

The annual financial statements set out on pages 4 to 82, which have been prepared on the going concern basis, were approved by the accounting officer and signed accordingly by:

Mr R Stevens

ACCOUNTING OFFICER

			-
	<u>Less:</u> Future finance obligations	•	5,889
	Present value of lease obligations		(69)
	Leases are secured by property plant and equipment. Note 14		5,820

Leases are secured by property, plant and equipment - Note 11

The Municipality leases printers and copiers from Nashua and Minolta for a 36 months period. The present value of the lease obligations has been determined by discounting the fixed monthly premiums at the prime interest rate.

The Hefcom lease liability relates to the settlement arrangement reached for leasing water meters. The terms of the agreement are 24 months payments at a fix rate. The present value is determined by discounting the fixed monthly premiums at the prime interest rate.

3.3 Retirement funds

The Municipality requested detailed employee and pensioner information as well as information on the Municipality's share of the Pension and Retirement Funds' assets from the fund administrator. The fund administrator confirmed that assets of the Pension and Retirement Funds are not split per participating employer. Therefore, the Municipality is unable to determine the value of the plan assets as defined in GRAP 25.

As part of the Municipality's process to value the defined benefit liabilities, the Municipality requested pensioner data from the fund administrator. The fund administrator claim that the pensioner data to be confidential and was not willing to share the information with the Municipality. Without detailed pensioner data the Municipality was unable to calculate a reliable estimate of the accrued liability in respect of pensioners who qualify for a defined benefit pension.

Therefore, although the Cape Joint Retirement Fund is a Multi Employer fund defined as defined benefit plan, it will be accounted for as defined contribution plan. All the required disclosures have been made as defined in GRAP 25.31.

CAPE RETIREMENT FUND

The contribution rate payable is 9% by members and 18% by Council. The last actuarial valuation performed for the year ended 30 June 2015 revealed that the fund is in a sound financial position with a funding level of 112.1% (30 June 2014 - 112.6%).

DEFINED CONTRIBUTION FUNDS

Council contribute to the SAMWU National Provident Fund, Government Employees Pension Fund, Municipal Council Pension Fund and IMATU Retirement Fund which are all defined contribution funds. The retirement benefit fund is subject to the Pension Fund Act, 1956, with pension being calculated on the pensionable remuneration paid. Current contributions by Council are charged against expenditure on the basis of current service costs.

NON-CURRENT PROVISIONS

Balance at end of year	4,019,639	(17,029,239)
	40,260,941	36,241,302
Concentrations of credit risk with respect to trade receivables are limited due to the municipality's large number of customers. The municipality's historical experience in collection of trade receivables falls within recorded allowances. Due to these factors, management believes that no additional risk beyond amounts provided for collection losses is inherent in the municipality's trade receivables.		
RECEIVABLES FROM NON-EXCHANGE TRANSACTIONS Rates

ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2019

NOTES TO THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2019

2019 2018 R R

35 CORRECTION OF ERRORS IN TERMS OF GRAP 3 AND RE-CLASSIFICATIONS

Prior year adjustments due to non-compliance with accounting policy and errors

- 35.1 (i) During the reconciliation of long-term liabilities it was noticed that liabilities was incorrectly stated at year end. The error have been corrected and has resulted in the following corrections:

 (Dt) Accumulated Surplus Prior year opening R1,285; (Dt) Accumulated Surplus Prior year through Finance Charges R464; (Cr) Long-term liabilities (Finance leases) R1,413;
 - (ii) During the reconciliation of investments it was noticed that an old investment was incorrectly disclosed as having balance when it was closed in the past. The error have been (Dt) Accumulated Surplus Prior year opening R17,755; (Cr) Investments R17,755.
 - (iii) During the reconciliation of receivables it was noticed that certain account were incorrectly levied in prior years. The error have been corrected and has resulted in the following corrections:

 (Dt) Accumulated Surplus Prior year opening R939,064; (Dt) Accumulated Surplus Through prior year surplus/deficit R488,383; (Cr) Receivables from exchange transactions Electricity R21,258; (Cr) Receivables from exchange transactions Water R58,398; (Cr) Receivables from exchange transactions Refuse R2,894; (Cr) Receivables from exchange transactions Sundry R84,003; (Cr) Receivables from non-exchange transactions Rates R1,247,102.
 - (iv) During the calculation for straight-lining of operating leases it was noticed that new leases wasn't added to the calculation in the prior year. The error have been corrected and (Dt) Operating lease Asset R3,286; (Cr) Accumulated Surplus Through prior year surplus/deficit R3,286.
 - (v) During the reconciliation of property, plant and equipment it was found that depreciation was calculated incorrectly in the prior year. The error have been corrected and has (Dt) Property, Plant and Equipment Accumulated Depreciation R28,359; (Cr) Accumulated Surplus Through prior year surplus/deficit R28,359.
 - (vi) With the annual asset count ,assets were found which were previously not included in the asset register. These assets are now for the first time recognised at fair value. The (Dt) Property, Plant and Equipment Cost R336,513; (Dt) Accumulated Surplus Through prior year surplus/deficit R27,943; (Cr) Property, Plant and Equipment Accumulated Depreciation R253,258; (Cr) Accumulated Surplus Through prior opening R111,198.
 - (vii) During the reconciliation of property, plant and equipment it was found that certain software items were incorrectly allocated. The error have been corrected and has resulted in the following corrections:

 (Dt) Intangible Assets Cost R21,000; (Dt) Property, Plant and Equipment Accumulated Depreciation R18,574; (Cr) Intangible Assets Accumulated Depreciation R18,574; (Cr)
 - (viii) During the reconciliation of cash and cash equivalents it was found that bank charges was duplicated in error. The error have been corrected and has resulted in the following (Dt) Cash and cash equivalents R3,807; (Cr) Accumulated Surplus Through prior year surplus/deficit R3,807.
 - (ix) It was noted that the disclosure of capitalised restoration cost on the face of the statement of financial position is contrary to the GRAP17 requirements. The costs should have been incorporated into the cost of underlying assets. The error have been corrected and has resulted in the following corrections:

 (Dt) Infrastructure Assets Solid Waste (Cost) R11,859,279; (Cr) Capitalized Restoration Cost (Cost) R11,859,279; (Dr) Capitalized Restoration Cost (Accumulated Depreciation) R8,842,732; Infrastructure Assets Solid Waste (Accumulated Depreciation) R8,842,732.
 - (x) Previously certain Agency and Collection Revenue was disclosed and grouped under Operational Revenue in error. The error have been corrected and has resulted in the (Dt) Operational Revenue R999,869; (Cr) Agency and Collection Services R999,869.
 - (xi) During the reconciliation of property, plant and equipment it was noted that capital expenditure incurred in the prior year was included in the current year work in progress for (Dt) Property, Plant and Equipment Work in Progress R38,089; (Cr) Payables from Exchange Transactions R38,089.
 - (xii) During the reconciliation of audit fees it was noted that prior year transactions relating to audit fees was incorrectly disclosed. The error have been corrected and has resulted in the following corrections:

 (bt) Contracted Services Accounting and Auditing R5,008,836; (bt) Finance charges Other R1,102,781; (bt) Accumulated Surplus Through prior year opening R6,155,995; (cr) Finance Charges Discount R3,087,781; (cr) Government Grants and Subsidies-Operational R9,179.831:
 - (xiii) It was found that municipal land have been earmarked for housing projects. This land should have been allocated to inventory at cost, but was disposed as property, plant and equipment in a prior financial year. The error have been corrected and has resulted in the following corrections:

 (Dt) Inventory R1,000; Accumulated Surplus Through prior year opening R1,000;

46 FINANCIAL RISK MANAGEMENT

The activities of the municipality expose it to a variety of financial risks, including market risk (comprising fair value interest rate risk, cash flow interest rate risk and price risk), credit risk and liquidity risk. The municipality's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the municipality's financial performance.

(a) Foreign Exchange Currency Risk

The municipality does not engage in foreign currency transactions.

(b) Price risk

The municipality is not exposed to price risk.

(c) Interest Rate Risk

As the municipality has significant interest-bearing liabilities, the entity's income and operating cash flows are substantially dependent on changes in market interest rates.

The municipality analyses its potential exposure to interest rate changes on a continuous basis. Different scenarios are simulated which include refinancing, renewal of current positions, alternative financing and hedging. Based on these scenarios, the entity calculates the impact that a change in interest rates will have on the surplus/deficit for the year. These scenarios are only simulated for liabilities which constitute the majority of interest bearing liabilities.

The municipality did not hedge against any interest rate risks during the current year.

The potential impact on the entity's surplus/deficit for the year due to changes in interest rates were as follow:

1% Increase in interest rates 0.5% Decrease in interest rates

(308,948) 154,474

(626,286) 313,143

ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2019

NOTES TO THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2019

2019 2018 R R

(d) Credit Risk

Credit risk is the risk that a counter party to a financial or non-financial asset will fail to discharge an obligation and cause the municipality to incur a financial loss.

Credit risk consist mainly of cash deposits, cash equivalents, trade and other receivables and unpaid conditional grants and subsidiar

Receivables are disclosed net after provisions are made for impairment and bad debts. Trade debtors comprise of a large number of ratepayers, dispersed across different sectors and geographical areas. Ongoing credit evaluations are performed on the financial condition of these debtors. Credit risk pertaining to trade and other debtors is considered to be moderate due the diversified nature of debtors and immaterial nature of individual balances. In the case of consumer debtors the municipality effectively has the right to terminate services to customers but in practice this is difficult to apply. In the case of debtors whose accounts become in arrears, Council endeavours to collect such accounts by "levying of penalty charges", "demand for payment", "restriction of services" and, as a last resort, "handed over for collection", whichever procedure is applicable in terms of Council's Credit Control and Debt Collection Policy.

The credit quality of receivables are further assessed by grouping individual debtors into different categories with similar risk profiles.

All rates and services are payable within 30 days from invoice date. Refer to note 16 and 17 for all balances outstanding longer than 30 days. These balances represent all debtors at year end which defaulted on their credit terms. Also refer to note 16 and 17 for balances included in receivables that were re-negotiated for the period under review.

Balances past due not impaired:

	2019 %	2019 R	2018 %	2018 R
Non-Exchange Receivables				
Rates	1.26%	253,339	2.40%	493,722
Traffic Fines	0.00%	-	18.38%	1,134,332
Exchange Receivables				
Electricity	6.51%	133,018	7.07%	144,008
Water	0.50%	70,326	2.37%	323,258
Refuse	0.00%	-	1.31%	130,897
Sewerage	1.40%	158,674	1.45%	141,222
Other	1.18%	10,988	42.16%	372,458
	0.93%	373,006	3.07%	1,111,843

No receivables are pledged as security for financial liabilities.

Due to the short term nature of receivables the carrying value disclosed in note 16 and 17 of the financial statements is an approximation of its fair value. Interest on overdue balances are included at prime borrowing rate plus 1% where applicable.

The provision for bad debts could be allocated between the different classes of debtors as follows:

	2019 %	2019 R	2018 %	2018 R
Non-Exchange Receivables				
Rates Traffic Fines	77.47% 22.53%	20,049,603 5,831,293	77% 23%	20,579,410 6,170,668

	100.00%	7,753,753	100.00%	27,474,148

The entity only deposits cash with major banks with high quality credit standing. No cash and cash equivalents were pledged as security for financial liabilities and no restrictions were placed on the use of any cash and cash equivalents for the period under review. Although the credit risk pertaining to cash and cash equivalents are considered to be low, the maximum exposure are disclosed below.

The banks utilised by the municipality for current and non-current investments are all listed on the JSE. The credit quality of these institutions are evaluated based on their required SENS releases as well as other media reports. Based on all public communications, the financial sustainability is evaluated to be of high quality and the credit risk pertaining to these institutions are considered to be low.

The risk pertaining to unpaid conditional grants and subsidies are considered to be very low. Amounts are receivable from national and provincial government and there are no expectation of counter party default.

Long-term Receivables and Other Debtors are individually evaluated annually at Balance Sheet date for impairment.

Financial assets exposed to credit risk at year end are as follows:

Receivables from exchange transactions Receivables from non-exchange transactions Cash and Cash Equivalents

002
713
680
609

(e) Liquidity Risk

Prudent liquidity risk management implies maintaining sufficient cash, the availability of funding through an adequate amount of committed credit facilities. Due to the dynamic nature of the underlying business, the treasury maintains flexibility in funding by maintaining availability under credit lines.

The entity's risk to liquidity is a result of the funds available to cover future commitments. The entity manages liquidity risk through an ongoing review of future commitments and credit facilities.

The table below analyses the entity's financial liabilities into relevant maturity groupings based on the remaining period at the financial year end to the contractual maturity date. The amounts disclosed in the table are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying balances as the impact of discounting is not significant.
