GLOSSARY

Adjustment's budget - Prescribed in section 28 of the MFMA. The formal means by which a municipality may revise its annual budget during the year.

Allocations - Money received from Provincial or National Government or other municipalities.

Budget - The financial plan of the Municipality.

Budget related policy - Policy of a municipality affecting or affected by the budget, examples include tariff policy, rates policy, credit control and debt collection policy.

Capital expenditure - Spending on assets such as land, buildings and machinery. Any capital expenditure must be reflected as an asset on the Municipality's balance sheet.

Cash flow statement - A statement showing when actual cash will be received and spent by the Municipality. Cash payments do not always coincide with budgeted expenditure timings. For example, when an invoice is received by the Municipality it is shown as expenditure in the month it is received, even though it may not be paid in the same period.

DORA - Division of Revenue Act. Annual legislation that shows the total allocations made by national to provincial and local government.

Equitable share - A general grant paid to municipalities. It is predominantly targeted to help with free basic services.

Fruitless and wasteful expenditure - Expenditure that was made in vain and would have been avoided had reasonable care been exercised.

GFS - Government Finance Statistics. An internationally recognised classification system that facilitates like for like comparison between municipalities.

GRAP - Generally Recognised Accounting Practice. The new standard for municipal accounting.

Irregular expenditure – is **expenditure** that was not incurred in the manner prescribed by legislation; in other words, somewhere in the process that led to the expenditure, the auditee did not comply with the applicable legislation (MFMA, PFMA).

IDP - Integrated Development Plan. The main strategic planning document of the Municipality.

MBRR - Local Government: Municipal Finance Management Act (56/2003): Municipal budget and reporting regulations.

MFMA - Local Government: Municipal Finance Management Act (56/2003). The principal piece of legislation relating to municipal financial management. Sometimes referred to as the Act.

MTREF - Medium Term Revenue and Expenditure Framework. A medium-term financial plan, usually 3 years, based on a fixed first year and indicative further two years budget allocations. Also includes details of the previous and current year's financial position.

Operating expenditure - Spending on the day-to-day expenses of the Municipality such as salaries and wages.

Rates - Local Government tax based on the assessed value of a property. To determine the rates payable, the assessed rateable value is multiplied by the rate in the rand.

SDBIP - Service Delivery and Budget Implementation Plan. A detailed plan comprising quarterly performance targets and monthly budget estimates.

Strategic objectives - The main priorities of the Municipality as set out in the IDP. Budgeted spending must contribute towards the achievement of the strategic objectives.

Unauthorised expenditure - refers to **expenditure** that municipalities incurred without provision having been made for it in the budget approved by the council or which does not meet the conditions of a grant.

Virement - A transfer of budget.

Virement policy - The policy that sets out the rules for budget transfers. Virements are normally allowed within a vote. Transfers between votes must be agreed by Council through an Adjustments Budget.

Vote - One of the main segments into which a budget of a municipality is divided for the appropriation of money for the different departments or functional areas of the municipality and which specifies the total amount that is appropriated for the purposes of the department or functional area concerned.

PART 1: IN-YEAR REPORT

Section 1 – Mayor's Report

1.1 In -Year Report – Monthly Budget Statement

The monthly budget statement, for **September 2021**, has been prepared in terms of the Municipal Budget and Reporting Regulations (2009) and the Municipal Finance Management Act 56 of 2003.

- a) The budget of the municipality has been implemented in terms of *the Service Delivery Budget Implementation Plan (SDBIP)*. Details on the implementation and any material deviations from the SDBIP will be covered under Section 10 of this document.
- b) *Financial problems or risks* facing the municipality are numerous and have been exaggerated by the impact of Covid-19.

Cash flow has and will for the foreseeable future be a problem. In the short-term Kannaland Municipality has done well to meet the most pressing commitments such as Eskom, employee related cost and meeting service delivery requirements. The municipality still experiences cash flow challenges due to constrained resources. A Budget Funding Plan has been approved and a Financial Recovery Plan is currently being reviewed, to be implemented to mitigate risk.

Section 2 – Resolutions

Recommendation:

That the Executive Mayor takes cognisance of the monthly budget statement for **September 2021**.

Section 3 – Executive Summary

1.1 Introduction

The Municipal Manager, as Accounting Officer of the Municipality, is required by Section 71(1) of the Municipal Finance Management Act to submit a monthly report in a prescribed format to the mayor, within 10 working days after the end of each month, on the implementation of the Municipality's budget. The format and contents of the monthly

budget report comply with the requirements as set out within the Municipal Budget and Reporting Regulations of 2009.

The report will be made available to the public on the municipal website at www.kannaland.gov.za

1.2 Consolidated Performance

The performance against the budget can be summarized as follow:

	Original Budget	Adjustments Budget	YTD Budget	YTD Actual	YTD Budget vs YTD Actual Variance	YTD Budget vs YTD Actual Variance %
Operating Revenue	R 186 419	R 186 419	R 46 605	R 50 728	R 4 123	8%
Operating Expenditure	R 191 830	R 191 830	R 47 957	R 68 413	R 20 456	42%
Capital	R 23 767	R 23 767	R 5 929	R 2 255	R 3 675	61%

Operating Revenue

The year-to-date operating revenue variance indicated the year-to-date budget being exceeded by 8%. The municipality will have to address straight-line budgeting as periodic transfers and the cyclical nature of the local economy is not accounted for within the monthly breakdown of the budget.

Payment Percentages:

The payment percentage for the September 2021 is 79.96 percent, which shows a fluctuation from July 59.14 percent and 83.73 percent in August 2021. The average percentage collection from the first quarter 74.26 percent.

Operating expenditure

The year-to-date operating ependiture variance indicated the year-to-date budget being exceeded by 42%. Expenditure was only incurred in terms of revenue and the municipality has reduced expenditure to only the necessities without compromising service delivery. It should be noted that the creditors sub-system is not currently in use and that causes a delay in the recognition of expenditure. The municipality is in the process of addressing the issue. This can lead to an under-reporting of expenditure as the reporting platform do not recognise expenditure unless paid. Municipal expenditure also extends beyond budgeted expenditure, as in terms of the income statement, but also to addressing the significant liability relating to prior year creditors.

Capital Expenditure

The total Capital Expenditure amounts to **R 1.95 million** for the Grant funded projects and **R305 thousand** Own funds for the month of **September 2021**. The year-to-date actuals is 61%. Straight-line-budgeting did not consider the finalisation of procurement processes before expenditure will be incurred. Monthly capital expenditure will be aligned with project progress as planned and the budget will be broken down to align with the before mentioned. The municipality's capital budget is mainly funded from conditional grants.

Comments from the Chief Financial Officer

It is however critical that management must collectively plan effectively to speed up the SCM processes which should in turn enhance and increase performance levels of both operational and capital activities and programs.

TABLE C1 – MONTHLY BUDGET SUMMARRY

Due to the cyclical nature of the economy and the current straight-line approach to budgeting, all deviations in excess of 10% will be treated as material unless otherwise stated. Material deviations will be explained, and recommendations will be made if the extent and nature of the deviation may necessitate action.

It should be noted that the straight-line budget approach will be addressed and adjusted to reflect the cyclical nature of the economy as soon as possible. A costly seamlessly integrated financial accounting system, as required in terms of mSCOA, will take time to implement due to financial constraints.

The performance against the revenue budget can be explained as follow:

- Property Rates R2.16 million was billed in September no increase from the amount reported in August R2.16 million. The year-to-date variance is 6 percent. A new valuation roll was implemented 2021/2022 financial year, and the impact of the pending appeals process will be monitored and reported upon.
- Service Charges Electricity Revenue billed amounted to R6.14 million. It represents a 5% immaterial deviation from the YTD figure. A slight decrease from the amount reported in August R6.19 million.
- Service Charges Water Revenue amounted to R1.61 million in September 2021 and a slight decrease from the amount reported in August R1.65 million. It represents a -9% variance from the YTD figures. A drop-off in consumption was expected, due to the cyclical nature of consumption and actual revenue is still expected to meet the annual forecast
- Service Charges Sanitation Revenue amounted to R744 thousand in September 2021. A slight increase from the amount reported in August R740 thousand. It represents a 12% variance from the YTD figures. The deviation will be investigated but an initial indication is that not all rebates are accounted for, and the number of indigent households can be expected to increase in due course.
- Service Charges Refuse Revenue amounted to R738 thousand in September 2021. A slight increase from the amount reported in August R737 thousand. It represents a 20% variance from the YTD figures. The deviation will be investigated, with an initial indication that

not all rebates are accounted for and the number of indigent households can be expected to increase in due course.

Expenditure by Source

- Employee Related Costs The employee related costs amounted to R9.91 million for September 2021. The total includes the salaries from August due to system errors votes could not be updated and the 3.5 percent increases as per Municipal Salaries negotiations. The deviation from the year-to-date budget is as a result of the straight-line budgeting approach, with bonusses incorrectly proportionately accounted for.
- Remuneration of Councillors- the total Remuneration for Councillors was R 295 thousand in September 2021. A decrease from the amount reported in August R374 thousand. The variance is 7 percent from the YTD figures.
- Bulk Purchases: The total year to date actuals for Bulk Purchases amounted to R 4.8 million rands against the year-to-date budget of R 12.23 million with variance of 60%. Due to financial constraints the municipality is making strides in making payments towards bulk electricity.
- Inventory Consumed The total was R 239 thousand for September, this includes direct purchases for the store and inventory issued out for the reporting period. A slight increase from the amount reported in August R 232 thousand. The variance is 54 percent it is a result of the limited expenditure on essential items.
- Contracted Services The September 2021 figures show a R1.59 million. An increase from amount reported in August R708 thousand. The variance from the YTD figures is 43 percent as a result of the municipality limited expenditure on essential and grant funded items.

• Other Expenditure - amounted to R894 thousand in September 2021. An increase from amount reported in August R 761 thousand.

 The total year to date figures amounts to R1.95 million for Grant funded projects and R305 thousand own funding. This is due to the Capital projects that are still in the planning stage. The YTD figures indicate a 60% under-spending from the YTD budget, some progress is made in ensuring the optimal expenditure on all capital grant funding.

1.3 Material differences to the SDBIP

Material differences to the SDBIP will be discussed under Section 10.

1.4 Remedial actions

- (a) Directorates are to ensure that the budget is implemented in accordance with the Service Delivery and Budget Implementation Plan (SDBIP) of the municipality;
- (b) Those strategic decisions /resolutions to improve the capital expenditure be implemented;
- (c) That monthly monitoring of the implementation of the Financial Recovery Plan and Budget Funding Plan takes place. The effort should be coordinated with giving the necessary and allimportant consideration to the impact of the COVID-19 pandemic on municipal operations and more specifically municipal liquidity;
- (d) That measures on debt collection are implemented and applied effectively;
- (e) That the funding plan addresses all issues and challenges on the financial performance of the municipality and adapt to an ever-changing environment.

Also see comments from the CFO on page 7 which supports the above-mentioned remedial actions.

TABLE C7 – MONTHLY BUDGETED CASH FLOW

The total bank balance ending of September 2021 was as follow;

- Standard Bank Main Account is R1 345 million;
- The Traffic Account has R914 thousand;
- Deposit Account has R3 785 million; and
- Call Account has R44 million.

The first quarter of the financial year 2021/2022, the municipality has no overdraft and still awaiting the final feedback from Standard Bank. The lack of revenue streams has left the municipality to be heavily dependent on grant funding to run its daily operations. The current national economic situation in addition having an adverse effect on an already difficult situation.

- The total amount owed to Kannaland Municipality amounts to **R67.22 million**.
- **R46.25 million or 69%** of the total outstanding debtors are older than one year.
- R58.92 or 88% of the outstanding debtors are outstanding for more than 90 days

The biggest concern regarding debt collection in Kannaland Municipality is the ability to collect service charges for water, refuse and sewerage in areas where electricity is not supplied by the municipality. It is of the utmost importance that prescribed debt and first-time registered indigent debt are written-off and that a functional credit control unit will be capacitated to address the low collection rate.

WC041 Kannaland - Supporting Table SC4 Monthly Budget Statement - aged creditors - M03 September

The total outstanding creditors amounts to **R59 000 million**.

The biggest outstanding creditors are Eskom (R32 million), the Auditor-General of South Africa (R9 063 million). Combined the before mentioned represents 70% of all outstanding creditors.

The outstanding trade creditors continue to have a negative influence on service delivery and the ability to fully comply with supply chain management regulations. Creditors are owed money for extended periods of time, and this is causing a reluctance to quote and take part in competitive bidding processes. Pressure on cash flow is increasing, due to long outstanding creditors demanding settlement.
