## GLOSSARY

Adjustment's budget - Prescribed in section 28 of the MFMA. The formal means by which a municipality may revise its annual budget during the year.

Allocations - Money received from Provincial or National Government or other municipalities.

Budget - The financial plan of the Municipality.

Budget related policy - Policy of a municipality affecting or affected by the budget, examples include tariff policy, rates policy, credit control and debt collection policy.

Capital expenditure - Spending on assets such as land, buildings and machinery. Any capital expenditure must be reflected as an asset on the Municipality's balance sheet.

Cash flow statement - A statement showing when actual cash will be received and spent by the Municipality. Cash payments do not always coincide with budgeted expenditure timings. For example, when an invoice is received by the Municipality it is shown as expenditure in the month it is received, even though it may not be paid in the same period.

DORA - Division of Revenue Act. Annual legislation that shows the total allocations made by national to provincial and local government.

Equitable share - A general grant paid to municipalities. It is predominantly targeted to help with free basic services.

Fruitless and wasteful expenditure - Expenditure that was made in vain and would have been avoided had reasonable care been exercised.

GFS - Government Finance Statistics. An internationally recognised classification system that facilitates like for like comparison between municipalities.

GRAP - Generally Recognised Accounting Practice. The new standard for municipal accounting.

Irregular expenditure - is expenditure that was not incurred in the manner prescribed by legislation; in other words, somewhere in the process that led to the expenditure, the auditee did not comply with the applicable legislation (MFMA, PFMA).

IDP - Integrated Development Plan. The main strategic planning document of the Municipality.

MBRR - Local Government: Municipal Finance Management Act (56/2003): Municipal budget and reporting regulations.

MFMA - Local Government: Municipal Finance Management Act (56/2003). The principal piece of legislation relating to municipal financial management. Sometimes referred to as the Act.

MTREF - Medium Term Revenue and Expenditure Framework. A medium-term financial plan, usually 3 years, based on a fixed first year and indicative further two years budget allocations. Also includes details of the previous and current year's financial position.

Operating expenditure - Spending on the day-to-day expenses of the Municipality such as salaries and wages.

Rates - Local Government tax based on the assessed value of a property. To determine the rates payable, the assessed rateable value is multiplied by the rate in the rand.

SDBIP - Service Delivery and Budget Implementation Plan. A detailed plan comprising quarterly performance targets and monthly budget estimates.

Strategic objectives - The main priorities of the Municipality as set out in the IDP. Budgeted spending must contribute towards the achievement of the strategic objectives.

Unauthorised expenditure - refers to expenditure that municipalities incurred without provision having been made for it in the budget approved by the council or which does not meet the conditions of a grant.

Virement - A transfer of budget.

Virement policy - The policy that sets out the rules for budget transfers. Virements are normally allowed within a vote. Transfers between votes must be agreed by Council through an Adjustments Budget.

Vote - One of the main segments into which a budget of a municipality is divided for the appropriation of money for the different departments or functional areas of the municipality and which specifies the total amount that is appropriated for the purposes of the department or functional area concerned.

## PART 1: IN-YEAR REPORT

## Section 1 - Mayor's Report

### 1.1 In -Year Report - Monthly Budget Statement

The monthly budget statement for July 2022, has been prepared in terms of the Municipal Budget and Reporting Regulations (2009) and the Municipal Finance Management Act 56 of 2003.
a) The budget of the municipality has been implemented in terms of the Service Delivery Budget Implementation Plan (SDBIP). Details on the implementation and any material deviations from the SDBIP will be covered under Section 10 of this document.
b) Financial problems or risks facing the municipality are numerous.

Cash flow has and will for the foreseeable future be a problem. In the short-term Kannaland Municipality has done well to meet the most pressing commitments such as employee related cost and meeting service delivery requirements. The municipality still experiences cash flow challenges due to constrained resources. A Budget Funding Plan has been approved and will be implemented to mitigate risk.

## Section 2 - Resolutions

## Recommendation:

That the Executive Mayor takes cognisance of the monthly budget statement for July 2022.

## Section 3 - Executive Summary

### 1.1 Introduction

The Municipal Manager, as Accounting Officer of the Municipality, is required by Section 71(1) of the Municipal Finance Management Act to submit a monthly report in a prescribed format to the mayor, within 10 working days after the end of each month, on the implementation of the Municipality's budget. The format and contents of the monthly budget report comply with the requirements as set out within the Municipal Budget and Reporting Regulations of 2009.
The report will be made available to the public on the municipal website at www.kannaland.gov.za

### 1.2 Consolidated Performance

The performance against the budget can be summarized as follow:

|  | Original <br> Budget | Adjustments <br> Budget | YTD Budget | YTD Actual | YTD Budget vs <br> YTD Actual <br> Variance | YTD Budget vs <br> YTD Actual <br> Variance \% |
| :--- | :--- | :--- | :--- | :--- | :--- | :---: |
| Operating <br> Revenue | R 192782 |  | R 26568 | R 25382 | $(1186)$ | $-4 \%$ |
| Operating <br> Expenditure | R 218716 |  | R 18226 | R 8269 | $R(9957)$ | $-55 \%$ |
| Capital | R 10529 |  | R 877 | $R 0$ | $R 877$ | $0 \%$ |

## Operating Revenue

The year-to-date operating revenue realised $4 \%$ below the forecasted amount. The beforemention under-performance can be contributed to the cyclical nature of the economy.

## Operating expenditure

Operating expenditure realised $55 \%$ below the forecasted amount. Expenditure was only incurred in terms of revenue and the municipality has reduced expenditure to only the necessities without compromising service delivery. It should be noted that the creditors subsystem is not currently in use and that causes a delay in the recognition of expenditure. The municipality is in the process of addressing the issue.

## Capital Expenditure

There was no capital expenditure during the month of July. Straight-line-budgeting did not consider the finalisation of procurement processes before expenditure will be incurred. Monthly capital expenditure will be aligned with project progress as planned and the budget will be broken down to align with the beforementioned. The municipality's capital budget is mainly funded from conditional grants.

## Collection Rate

Collections as in respect of the prior month billing - in other words collections against what was billed. This in effect means that $79.6 \%$ of what was billed during June was collected during July.

TABLE C1 - MONTHLY BUDGET SUMMARRY

Due to the cyclical nature of the economy and the current straight-line approach to budgeting, all deviations in excess of $5 \%$ will be treated as material unless otherwise stated. Material deviations will be explained, and recommendations will be made if the extent and nature of the deviation may necessitate action.

It should be noted that the straight-line budget approach will be addressed and adjusted to reflect the cyclical nature of the economy as soon as possible. It should be noted that grants to be received, are accounted for correctly. A costly seamlessly integrated financial accounting system, as required in terms of mSCOA , will take time to implement due to financial constraints.

The performance against the revenue budget can be explained as follow:

- Service Charges Electricity - Revenue billed amounted to R6.29 million. The 7\% deviation can be explained by winter tariffs (high season) being applicable.
- Service Charges Water Revenue - amounted to R1.56 million in July 2022. It represents a $-14 \%$ variance from the YTD figures. A drop-off in consumption was expected, due to the cyclical nature of consumption and actual revenue is still expected to meet the annual forecast.
- Service Charges Refuse Revenue - amounted to R787 thousand in July 2022. It represents a $6 \%$ variance from the YTD figures. The deviation will be investigated, with an initial indication that not all rebates are accounted for and the number of indigent households can be expected to increase in due course.
- Interest Earned on Investments - (82\% deviation from the year-to-date budget). The budget did not take into account the timing of the grants to be received (interest on call account - cash backed grants) when the monthly budget split was done.
- Interest on outstanding debtors - (37\% deviation from the year-to-date budget). This revenue item considered the write-off of indigent and prescription debt and as a result of the timing, this revenue item will deviate from the monthly forecast.
- Fines, Penalties \& Forfeits - Almost no activity, with a -98\% deviation, with no vendor appointed to provide cameras and administrative support on speed fines.
- Other Revenue Deviations - Can be explained as incidental and cyclical in nature.

- Employee Related Costs - The employee related costs amounted to R6.21 million for July 2022, $7 \%$ below the year-to-date budget. Straight-line budgeting does not account for bonuses to be paid during November and therefor the deviation.
- Remuneration of Councillors- the total Remuneration for Councillors was R324 thousand in July 2022, exceeding the budget with $16 \%$. This was caused by incorrect allocations that will be corrected.
- Inventory Consumed - The total was R 357 thousand, this includes direct purchases for the store and inventory issued out for the reporting period.
- Contracted Services - amounted to R 89 thousand in July 2022. The expenditure is expected to pick up in the next reporting periods.
- Other Expenditure - amounted to R473 thousand in July 2022.

Most expenditure items were less than forecasted and this is due to the lack of recognition of expenditure once incurred, in addition to cash flow issues that results in the municipality only spending in terms of available revenue.

- The total amount owed to Kannaland Municipality amounts to R94 million.
- R59.68 million or $63 \%$ of the total outstanding debtors are older than one year.
- R81.98 million or $\mathbf{8 7 \%}$ of the outstanding debtors are outstanding for more than 90 days and are less likely to be recoverable debt.

The biggest concern regarding debt collection in Kannaland Municipality is the ability to collect service charges for water, refuse and sewerage in areas where electricity is not supplied by the municipality.

The total outstanding creditors amounts to R59 868 million.
The biggest outstanding creditors are Eskom (R35 million), the Auditor-General of South Africa (R8663 million). Combined the before mentioned represents 74\% of all outstanding creditors.

The outstanding trade creditors continue to have a negative influence on service delivery and the ability to fully comply with supply chain management regulations. Creditors are owed money for extended periods of time, and this is causing a reluctance to quote and take part in competitive bidding processes. Pressure on cash flow is increasing, due to long outstanding creditors demanding settlement.

## Section 10 - Material variances to the SDBIP

Section 1 of the MFMA defines the SDBIP as:
"a detailed plan approved by the mayor of a municipality in terms of section
53(1)(c)(ii) for implementing the municipality's delivery of services and the execution
of its annual budget and which must include (as part of the top-layer) the following:
(a) projections for each month of-
(i) revenue to be collected, by source; and
(ii) operational and capital expenditure, by vote;
(b) service delivery targets and performance indicators for each quarter".

There are no variances for this month under review other than those already disclosed in this report.
