SECTION A: INTRODUCTION, DEFINITIONS AND PRINCIPLES

1. INTRODUCTION

Municipalities need a reliable source of revenue to provide basic services and perform their functions. Property rates are an important source of general revenue for municipalities. Revenue from property rates is used to fund services that benefit the community as a whole as opposed to individual households. These include installing and maintaining streets, roads, sidewalks, lighting, and storm drainage facilities; operating parks, recreational facilities and cemeteries. Property rates revenue is also used to fund municipal administration, such as computer equipment and stationery, and costs of governance, such as council and community meetings, which facilitate community participation on issues of Integrated Development Plans (IDPs) and municipal budgets.

Municipal property rates are set, collected, and used locally. National and provincial governments do not have the power to levy rates, nor do they share in the revenue collected. Revenue from property rates is spent within a municipality, where the local community has a voice in decisions on how the revenue is spent as part of the IDPs and budget processes, which municipalities invite communities to input prior municipal council adoption of the budget.

Section 3(1) of the Local Government Municipal Property Rates Act (Act No 6 of 2004), and section 62(1)(f)(ii) of the Local Government Municipal Finance Management Act (Act No 56 of 2003), provide that a municipality must adopt and implement a policy on the levying of rates on rateable property.

This document sets out the policy of the Kannaland Municipality on the levying of rates on rateable property in the municipality. The rates policy must be reviewed annually in compliance with section 5(1) of the Local Government Municipal Property Rates Act (Act No 6 of 2004) and according to the time schedule tabled by the Executive Mayor in accordance with section 21(1)(b) of the Local Government Municipal Finance Management Act (Act No 56 of 2003). Any changes to the rates policy must be approved together with the annual budget in compliance with section 24 of the Local Government Municipal Finance Management Act (Act No 56 of 2003).

This Policy is formulated in terms of Section 3 of the Local Government Municipal Property Rates Act, (Act 6 of 2004) which came into effect on 2 July 2005. In 2008, Kannaland Municipality initiated a process to prepare a General Valuation Roll of all property situated

within the geographical boundaries of the Municipality in terms of this Act. The last General Valuation was done in 2014. A General Valuation process is currently in progress, with the new valuation roll taking effect from 1 July 2021.

- **Equity** - All property owners liable for property rates will be treated fairly and reasonably.
- **Affordability** - Limit each annual rates increase as far as practicable so that they do not overburden ratepayers and in imposing the rate in respect of each financial year, take proper cognizance of the aggregate burden of rates.
- **Financial sustainability** - Property rates should be used to finance the municipality's operating expenditure. The granting of exemptions, reductions and rebates should not erode the municipality's tax base.
- **Social and Economic Development** - The policy of the municipality should promote the interests of social and economic development by utilising the mechanisms at its disposal

to encourage the development of property in line with the socio-economic development needs and goals of the municipality.

- **Cost efficiency** - Rates will be based on the value of all rateable property and the amount required by the municipality to balance the operating budget after taking into account profits generated on trading (water, electricity) and economic (refuse removal, sewerage removal) services and the amounts required to finance exemptions, rebate reduction and phasing-in of rates as approved by the municipality from time to time.

4.2 Property Rates are levied in accordance with the MPRA as a cent-in-the rand based on the property value contained in the Municipality's General Valuation Roll of 2021 and Supplementary Valuation Rolls.

4.3 A municipality must, according to Sec 78 of the MPRA, whenever necessary, cause a supplementary valuation to be made in respect of any rateable property- If

- c) Change of land usage/zoning;
- d) Demolishing certificate;
- e) Consolidation / Subdivision of properties;
- f) Any other reason that may cause the valuation of the property to increase or decrease.

4.4 As allowed for in the MPRA, the Municipality has chosen to differentiate between various categories of property and owners of property. Some categories of property and categories of owners are granted relief from property rates. However, the Municipality

does not grant relief in respect of payments for property rates to any category of owners or properties, or to owners of properties on an individual basis, other than by way of an exemption, rebate or reduction provided for in this Policy.

4.5 A person liable for a rate must furnish the municipality with an address where correspondence can be directed to.
