Due to the cyclical nature of the economy and the current straight-line approach to budgeting, all deviations in excess of 5% will be treated as material unless otherwise stated. Material deviations will be explained, and recommendations will be made if the extent and nature of the deviation may necessitate action.

It should be noted that the straight-line budget approach will be addressed and adjusted to reflect the cyclical nature of the economy as soon as possible. It should be noted that grants to be received, are accounted for correctly. A costly seamlessly integrated financial accounting system, as required in terms of mSCOA, will take time to implement due to financial constraints.

#### 2.5 OPERATING REVENUE BY SOURCES:

The performance against the revenue budget can be explained as follow:

- Service Charges water amounts to 4.4 million for the month of March 2024 and represents 18% of the year-to-date variance. This is a positive variance and can be attributed to the Municipalities debt collection process as well as higher seasonal consumption.
- Sale of goods and Rendering of Services amounts to 15 thousand for March 2024 and represents 4% of the adjustment budget. The deviation from the year-to-date budget amounts to 28%. This is higher due to the number of building plans approved which include the new shopping centre being constructed on Van Riebeeck Street in Ladismith.
- Interest Earned on Investments (66% deviation from the year-to-date budget). The
  budget did not take into account the timing of the grants to be received (interest on call
  account cash backed grants) when the monthly budget allocations was done. It can also
  be attributed to an under-budgeted position. The Municipality also collected more revenue
  which attract more interest.
- Interest on outstanding debtors (43% deviation from the year-to-date budget). The
  Municipality has delayed the write-offs of prescribed debt. Due to this the total debtor's
  debt attracting interest is significantly higher. The municipality interest rate is attached to
  the bank repo rate, which increased significantly in the last FY.
- Rental from fixed Assets amounted to 51 thousand and still reflecting a negative budget variance of 41%. The Municipality collected significantly less rent YTD than budgeted. The Municipality has not implemented all rental contracted with market-related rental amounts as was planned with the approval of the annual budget. This process must be finalized during the next quarter in order to or as and when existing contracts expire.
- Licence and permits (25% a positive budget variance from the year-to-date budget).
   Amounted to R 21 thousand. This is due to an increase in the number of learner license applications.
- Fines, Penalties & Forfeits Almost no activity, with a negative 90% deviation, with no vendor appointed to provide cameras and administrative support on speed fines. The Municipality is currently reviewing the fines process and it has not been able to utilize this service effectively. An audit must be conducted to determine how much the service is unprofitable when it has the potential of generating much higher revenue. Cost containment measures must be considered if this does not improve.
- Transfers and Subsidies amounted to 8.8 million for the month of March 2024.
   Revenue consists mainly of Equitable share, housing grants. The budget is spread over

the entire 12 months, however, the last payments are received in the first 3 quarters of the FY. The variance will be aligned towards the end of the FY.

• Other Revenue Deviations - Can be explained as incidental and cyclical in nature.

#### 2.6 OPERATING EXPENDITURE BY TYPE

- Inventory Consumed The total was R 681 thousand, this includes direct purchases for the store and inventory issued out for the reporting period. The Municipality is not currently utilising the inventory system for procurement. Stock is purchased from contracted services.
- Interest The total amounted to R1 thousand for the month of March 2024. The
  decreased interest expense is due to the ESKOM debt relief program in which the
  municipality no longer have to pay ESKOM interest.
- Contracted Services amounted to R 211 thousand in March 2024. The expenditure is
  expected to pick up in the next reporting periods. This can be contributed to the
  Municipalities attempt to implement cost containment measures.
- Transfers and subsidies (57% negative budget variance from the year-to-date budget).
   Quarterly payments are made, with quarters two, three and four not yet paid at the end of April 2024.
- Other Expenditure amounted to R 1 million in March 2024.

Most expenditure items were less than forecasted and this is due to the lack of recognition of expenditure once incurred, in addition to cash flow issues that results in the municipality only spending in terms of available revenue. The Municipality is still busy implementing expenditure on the accrual basis, expenses has been recognized when paid. This process will be corrected in the next view months.

" END OF REPORT "

- The monthly MFMA s.71 narratives must explicitly reflect the municipality's progress towards restricting free basic services (condition 6.6) and achieving a minimum average quarterly collection of 80 per cent (condition 6.7);
- We are not at the end of a quarter; the collection rate is below the norm and the reason of under collecting in terms of the municipality is that Kannaland municipality is experiencing challenges in collecting its debtors due to a poor economic environment. The community members are encouraged to register as indigent households to prevent the debtors from growing month on month, but unfortunately the response is not positive. Further to this Kannaland can only enforce the restriction of electricity supply in 2 of the towns as these are the only towns receiving electricity from the municipality. The other areas are in the Eskom supply area. Kannaland will also have to appoint a service provider to perform summonses to collect long outstanding debtors.
