MUNICIPAL MANAGER

Mr M Hoogbaard

CHIEF FINANCIAL OFFICER

Mrs R Saptoe

General Information (Continued)

LEGAL FORM

Category B Municipality which operates in accordance with Chapter 7 of the Constitution of South Africa.

The Objectives of Local Government are:

- to provide democratic and accountable government for local communities;
- to ensure the provision of services to communities in a sustainable manner;
- to promote social and economic development;
- to promote a safe and healthy environment; and
- to encourage the involvement of communities and community organisations in the matters of local government

The municipality must strive, within its financial and administrative capacity, to achieve the objects as set out above.

JURISDICTION

Greater Kannaland area which includes:

Ladismith
Calitzdorp, Van Wyksdorp and Zoar

Financial Position: Explanation of Variances between Approved Budget and Actual

Reasons for Variances greater than 10% between Approved Budget and Actual Amount on the various items disclosed in the Statement of Financial Position are explained below:

Inventories:

The municipality still struggles with mSCOA Balance Sheet budgeting and therefor the negative entry under inventory (incorrect use of withdrawals and deposits). The correct use of contra accounts during budgeting still remains an issue.

Receivables from Exchange Transactions:

The budget assumptions that were intended to give effect to the original budget did not realize, like the collect rate etc.

Receivables from Non-exchange Transactions

Incorrect contra accounts were used during the budget process and therefor no budget.

Statutory Receivables from Non-Exchange Transactions

The municipality still struggles with mSCOA Balance Sheet budgeting and therefor the negative, in addition this contra account was incorrectly used for grant allocations.

VAT Receivable:

The municipality did not budget for VAT as required in terms of mSCOA

Cash and Cash Equivalents:

The municipality's inability to spent its grants leads to cash and cash equivalents not meeting the budget, as this coveres the cash backed component of the budget.

Operating Lease Receivables:

The actual amount relates to an opening balance correction.

Investment Property A lack of funding caused the underperformance.

Intangible Assets:

A lack of funding caused the underperformance.

Long-term Receivables:

term Receivables:

Variances are due to incorrect use of contra items on the statement of financial position while compiling the budget.

Consumer Deposits:

The budget accounted for the recognition of deposits that cannot be claimed anymore as revenue. It is very incidental in nature and more connections than anticipated caused the variance.

Provisions:

Employee Benefit Liabilities:

Payables from Non-exchange Transactions:

National Treasury (NT) Budget Template not aligned to GRAP and does not provide for Payables from Non-exchange Transactions.

Unspent Conditional Grants and Receipts:

Long-term Liabilities:

Non-current Provisions:

Accumulated Surplus/(Deficit):

30 June 2023

Financial Performance: Explanation of Variances between Approved Budget and Actual

Reasons for Variances greater than 10% between Approved Budget and Actual Amount on the various items disclosed in the Statement of Financial Performance are explained below:

During the drafting of the original budget the valuation process (GV) was still ongoing and various category and valuation changes followed afterwards.

Fines. Penalties and Forfeits

The municipality reduced the budget due to not being able to procure speed cameras. The original budget was mainly based on the issuing of speed fines through the use of cameras.

Licences and Permits

This item is very incidental in nature and difficult to budget for. Revenue raised was much less than in prior years with internal capacity issues and broken equipment (eye testing machine) contributing to the under performance.

Transfers and Subsidies

The municipality did not receive all grants allocated (RBIC & Human Settlements not realizing).

Interest, Dividend and Rent on Land Earned

Interest calculations were based on debt to be written-off during the prior year but due to a very late write-off process, interest accumulated on prescription and old indigent debt. There was also the expectation that old long outstanding rates might be written-off that did not realize.

Sales of Goods and Rendering of Services

This item is very cyclical and incidental in nature. Initial budgeting was high, influenced by fire tariffs that were discontinued and very much based on past performance. Covid also had a significant impact on past and current year performance (Cemetery and Burial services).

Original budget was very much based on past performance with the variable of renting of communicty fascilities not realizing as expected based on past experience and the anticipation to return to normal after the Covid restrictions were lifted.

Interest, Dividends and Rent on Land Earned

Interest calculations were based on debt to be written-off during the prior year but due to a very late write-off process, interest accumulated on prescription and old indigent debt,

Operational Revenue

Collection charges and commissions were significantly lower than during the prior year. The municipality changed vendor responsible for the administration and vending relating to the sales of pre-paid electricity.

Final Revenue Budget Variance

Revenue from Non-exchange Transactions

Fines, Penalties and Forfeits

The municipality reduced the budget due to not being able to procure speed cameras. The revenue collected was fines issued by provincial government over which the municipality have little control.

This item is very incidental in nature and difficult to budget for. Revenue raised was much less than in prior years with internal capacity issues and broken equipment (eye testing machine) contributing to the under performance. At the time of the final budget it was still expected to recover.

Transfers and Subsidies

The municipality did not receive all grants allocated (RBIC & Human Settlements not realizing).

Revenue from Exchange Transactions

This item is very cyclical and incidental in nature. Initial budgeting was high, influenced by fire tariffs that were discontinued and very much based on past performance. Covid also had a significant impact on past and current year performance (Cemetery and Burial services).

Interest, Dividends and Rent on Land Earned

Interest calculations were based on debt to be written-off much sooner (prescription and indigent debt) as well as more indigent registrations that did not realize as planned.

Operational Revenue

Collection charges and commissions were significantly lower than during the prior year. The municipality changed vendor responsible for the administration and vending relating to the sales of pre-paid electricity.

Expenditure Variance Original Budget

Employee Related Cost

Appointment of staff and increases in other benefits not accounted for in Original Budget.

Remuneration of Councillors

The increase on Council Remuneration not implemented for the financial year.

Impairment Loss

Bad debt write-off expected to be in previous financial year, plus interest on old debt not accounted for.

Contracted Services

Expenditure less that was originally budgeted for due to cash contraints and not all grants gazetted was received.

Inventory Consumed

Less expenditure on essentials due to cash constraints.

Transfers and Subsidies Paid

Provision made for tourism, not paid in full due ro financial constraints.

Operating Leases

No proper provision for lease expenditure with additional buildings leased and the finance office being omitted.

Onerational Cost

Expenditure on operational cost higher than anticipated due to increase in fuel, employee cost.

Expenditure Variance Final Budget

Employee Related Cost

Appointment of staff and increases in other benefits not accounted for in Adjustment Budget.

Remuneration of Councillors

The increase on Council Remuneration not implemented for the financial year.

Impairment Loss

Bad debt write-off expected to be in previous financial year, plus interest on old debt not accounted for.

Interest, Dividends and Rent on Land

No proper provision made for Interest on overdue accounts (primarily Eskom), employee benefits and Landfill site.

Francistra La

Expenditure Less that was originally budgeted for due to cash constraints and not all grants gazetted was received.

Inventory Consumed

Less expenditure on essentials due to cash constraints.

Transfers and Subsidies Paid

Provision made for Tourism, not paid in full due ro financial constraints.

Cash Flow Statement: Explanation of Variances between Approved Budget and Actual

Reasons for Variances greater than 10% between Approved Budget and Actual Amount on the various items disclosed in the Cash Flow Statement are explained below:

Property Rates

The indigent cap was set to low that included low cost housing and the new valuation roll with tariff increase on a capital increase led to a lower collection rate (increase 27%+).

Service Charges

Transfers and Subsidies

External Interest and Dividends Received

Other Receipts

The actual receipts are lower than budgeted for and this can be attributed to revenue from "fines, penalties & forfeits" not realizing with the municipality not renewing the speed camera contract and this being partially offset by a system error relating to the contra-accounts not being updated during the adjustment budget.

Employee Related Costs

Appointment of staff placement of staff and increases in other benefits was not accounted for in Original Budget.

Remuneration of Councillors

The increase on Council Remuneration not implemented for the financial year.

External Interest and Dividends Paid

No proper provision made for Interest on overdue accounts (primarily Eskom) employee benefits and Landfill site.

Suppliers Paid

Other Payments

The budget was not sufficient due to a lack of inputs that led to several expenses being not accounted for including leases and unforeseen costs like excessive legal costs etc.

VAT Receivable / Payable

The municipality did not budget for VAT in terms of mSCOA.

Purchase of Property, Plant and Equipment

Not all grant funding realized and procurement planning needs to improve.

KANNALAND MUNICIPALITY

ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2022

1. BASIS OF PRESENTATION

The Annual Financial Statements have been prepared in accordance with Standards of Generally Recognised Accounting Practices (GRAP), as approved by the Minister of Finance, including any interpretations, guidelines and directives issued by the Accounting Standards Board and in accordance with the requirements of the Municipal Finance Management Act, 2003 (Act No. 56 of 2003)

The Annual Financial Statements have been prepared in accordance with the historical cost convention, except where indicated otherwise

The Statement of Financial Performance has been prepared to classify expenses by nature, whilst revenue is classified in a manner appropriate to the municipality's operations. The Cash Flow Statement has been prepared using the Direct Method.

1.1 Presentation Currency

The Annual Financial Statements are presented in South African Rand, rounded off to the nearest Rand which is the municipality's functional currency.

1.2 Critical Judgements, Estimations and Assumptions

In the application of the municipality's Accounting Policies, which are described below, management is required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be reasonable under the circumstances, the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these

These estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

The following are the critical judgements and estimations that management have made in the process of applying the municipality's Accounting Policies and that have the most significant effect on the amounts recognised in Annual Financial Statements:

1.2.1 Revenue Recognition

In making their judgement, the management considered the detailed criteria for the recognition of revenue as set out in GRAP 9

• Estimation of Meter Readings:

Provisional estimates of consumption, based on the consumption history, are made monthly when meter readings have not been performed. The provisional estimates of consumption are recognised as revenue when invoiced, except at year-end when estimates of consumption up to year-end are recorded as revenue without it being invoiced. Adjustments to provisional estimates of consumption are made in the invoicing period in which meters have been read. These adjustments are recognised as revenue in the invoicing period. In respect of estimates of consumption between the last reading date and the reporting date, an accrual is made based on the average monthly consumption of consumers.

• Estimation of unused Prepaid Metered Services:

Estimates of unused consumption of prepaid metered services, based on the consumption history, are made at year-end. Sales for prepaid metered services are recognised as revenue upon receipt of payment for these services, except at year-end when estimates for unused consumption up to reporting date are reversed from revenue and accrued as payment for services received in advance. These accruals are reversed in the new financial year to revenue again, deemed to be consumed after 30 June. In respect of estimates of consumption between the last date of purchase and the reporting date, an accrual for payments received in advance is made based on the average monthly consumption of consumers.he reporting date, an accrual is made based on the average monthly consumption of consumers.

Revenue for Traffic Fines:

There is uncertainty regarding the probability of the flow of economic benefits or service potential in respect of spot fines as these fines are usually not given directly to an offender. Further legal processes have to be undertaken before the spot fine is enforceable. In respect of summonses the public prosecutor can decide whether to waive the fine, reduce it or prosecute for non-payment by the offender. The full amount of traffic fines issued during the year is recognised at the initial transaction date as revenue. Where a reliable estimate cannot be made of revenue from summonses, the revenue is recognised when the public prosecutor pays the cash collected over to the municipality.en the last reading date and the reporting date, an accrual is made based on the average monthly consumption of consumers.

1.2.2 Water Inventory

The estimation of the Water Inventory in reservoirs is based on the measurement of water via electronic level sensors, which determines the depth of water in the reservoirs, which is then converted into volumes based on the total capacity of the reservoir. Furthermore, the length and width of all pipes are also taken into account in determining the volume of water on hand at year-

L7

1.2.3 Impairment of Financial Assets

Accounting Policy 4.4 on Impairment of Financial Assets describes the process followed to determine the value at which Financial Assets should be impaired. In making the estimation of the impairment, the management of the municipality considered the detailed criteria of impairment and used its judgement to select a variety of methods and make assumptions that are mainly based on market conditions existing at the end of the reporting period. The management of the municipality is satisfied that impairment of Financial Assets recorded during the year is appropriate.

Impairment of Trade Receivables:

The calculation in respect of the impairment of Debtors is based on an assessment of the extent to which Debtors have defaulted on payments already due, and an assessment of their ability to make payments based on their creditworthiness. This is performed per service-identifiable categories across all classes of debtors.

Impairment of Traffic Fines:

Assessing and recognising impairment of Receivables for Traffic Fines is an event that takes place subsequent to the initial recognition of revenue charged. The municipality assesses the probability of collecting revenue when accounts fall into arrears. Such an assessment is not to be made at the time of initial recognition.

1.2.4 Impairment of Statutory Receivables

Accounting Policy 5.3 on Impairment of Statutory Receivables describes the process followed to determine the value at which Statutory Receivables should be impaired. In making the estimation of the impairment, the management of the municipality considered the detailed criteria of impairment and used its judgement to select a variety of methods and make assumptions that are mainly based on market conditions existing at the end of the reporting period. The management of the municipality is satisfied that impairment of Statutory Receivables recorded during the year is appropriate.

1.2.5 Capitalisation of Capital Assets

Judgement by management is required to distinguish between expenses incurred to maintain and repair capital assets and expenses incurred that will increase the remaining useful life of capital assets and needs to be capitalised to capital assets.

1.2.6 Useful lives of Property, Plant and Equipment, Intangible Assets and Investment Property

As described in Accounting Policies 7.3, 8.2 and 9.2, the municipality depreciates its Property, Plant & Equipment and Investment Property, and amortises its Intangible Assets, over the estimated useful lives of the assets, taking into account the residual values of the assets at the end of their useful lives, which is determined when the assets are available for use.

The estimation of residual values of assets is based on management's judgement as to whether the assets will be sold or used to the end of their useful lives, and in what condition they will be at that time.

1.2.7 Impairment: Write-down of Property, Plant & Equipment, Intangible Assets, and Inventories

Significant estimates and judgements are made relating to impairment testing of Property, Plant and Equipment, impairment testing of Intangible Assets and write-down of Inventories to the lowest of Cost and Net Realisable Value or Current Replacement Cost.

In making the above-mentioned estimates and judgement, management considered the subsequent measurement criteria and indicators of potential impairment losses. In particular, the calculation of the recoverable service amount for PPE and Intangible Assets and the Net Realisable Value for Inventories involves significant judgment by management.

1.2.8 Defined Benefit Plan Liabilities

As described in Accounting Policy 15.2, Employee Benefits – Post-employment Benefits, the municipality obtains actuarial valuations of its Defined Benefit Plan Liabilities. The defined benefit obligations of the municipality that were identified are Post-retirement Health Benefit Obligations and Long-service Awards. The estimated liabilities are recorded in accordance with the requirements of GRAP 25. Details of the liabilities and the key assumptions made by the actuaries in estimating the liabilities are provided in the relevant Notes to the Annual Financial Statements.

1.2.9 Provisions and Contingent Liabilities

Management judgement is required when recognising and measuring Provisions and when measuring Contingent Liabilities. Provisions are discounted where the effect of discounting is material using actuarial valuations.

1.2.10 Principals and Agent Arrangements

The municipality assesses whether it is a party to any principal-agent arrangements by considering the principles contained in GRAP 109.

The municipality is assessed to be the agent and only accounts for the amounts which the agent are entitled to in terms of the principal-agent arrangement. In order to assess that the municipality is the agent, the following factors were considered in applying its judgement:

 The municipality acts as an agent for Department of Transport for issuing licenses and permits and collects monies on their behalf.

1.2.11 Budget Information

Deviations between budget and actual amounts are regarded as material differences when a 10% deviation exists. All material differences are explained in the relevant Notes to the Annual Financial Statements.

1.2.12 Segment Reporting

The municipality is assessed to have reportable segments as per the requirements of GRAP 18. In order to assess that the segments could be aggregated, the following factors were considered in applying its judgement:

- For management purposes the municipality is broadly organised into business units based on the nature of operations and the services they provide.
- No individually material operating segments have been aggregated to form the above reportable operating segments.
- The municipality does not monitor segments geographically.

1.2.13 The effect of COVID-19

Management needs to estimate the effect of COVID-19 on its future cash flow and discount rates to ensure that the municipality will remain a going concern.

Judgement needs to be made on the effect of COVID-19 on credit risk, liquidity risk and going concern.

1.3 Materiality

Material omissions or misstatements of items are material if they could, individually or collectively, influence the decisions or assessments of users made on the basis of the financial statements. Materiality depends on the nature or size of the omission or misstatement judged in the surrounding circumstances. The nature or size of the information item, or a combination of both, could be the determining factor.

Assessing whether an omission or misstatement could influence decisions of users, and so be material, requires consideration of the characteristics of those users. The Framework for the Preparation and Presentation of Financial Statements states that users are assumed to have a reasonable knowledge of government, its activities, accounting and a willingness to study the information with reasonable diligence. Therefore, the assessment takes into account how users with such attributes could reasonably be expected to be influenced in making and evaluating decisions.

1.4 Going Concern Assumption

The Annual Financial Statements have been prepared on a going concern basis. Kannaland Municipality has neither the intention nor the need to liquidate or curtail materially the scale of its operations and will continue to operate as a going concern for at least the next 12 months. The municipality approved a budget funding plan to address the budget deficit and to ensure that the municipality will have the necessary resources to continue its operations.

1.5 Standards, Amendments to Standards and Interpretations published but not yet Effective or Relevant

The following Standards and Interpretations have been published and are mandotory for the municipality's accounting periods beginning on or after 01 July 2022 or later periods but are not relevant to its operations:

Standard o	f GRAP / Nature of Impending Changes / Expected Impact	Effective Date	Planned Date for Application by Municipality
GRAP 1	Presentation of Financial Statements (Amended) Unlikely that there will be a material impact	01/04/2023	30/06/2024
• GRAP 25	Employee Benefits (As Revised) Unlikely that there will be a material impact	Not yet determined	Not yet determined
• GRAP 104	Financial Instruments (As Revised) Unlikely that there will be a material impact	01/04/2025	30/06/2026
• GRAP 2020	Improvement to the Standards of GRAP 2020 Unlikely that there will be a material impact	01/04/2023	30/06/2024
• IGRAP 7	The Limit on a Defined Benefit Asset, Minimum Funding Requirements and their Interaction (As Revised) Unlikely that there will be a material impact	Not yet determined	Not yet determined
IGRAP 21	The Effect of Past Decisions on Materiality Unlikely that there will be a material impact	01/04/2023	30/06/2024
Guideline	Accounting for Landfill Sites Unlikely that there will be a material impact	Not yet determined	Not yet determined

2. BUDGET INFORMATION

The annual budget figures have been prepared in accordance with the GRAP standard and are consistent with the Accounting Policies adopted by the Council for the preparation of these Annual Financial Statements. The amounts are scheduled as a separate additional financial statement, called the Statement of Comparison of Budget and Actual amounts. Explanatory comment is provided in the statement giving reasons for overall growth or decline in the budget and motivations for over- or under spending on line items. The annual budget figures included in the Annual Financial Statements are for the municipality and do not include budget information relating to subsidiaries or associates. These figures are those approved by the Council at the beginning and during the year following a period of consultation with the public as part of the Integrated Development Plan. The budget is approved on an accrual basis by nature classification.

The approved budget covers the period from 1 July 2022 to 30 June 2023.

3. INVENTORIES

3.1 Recognition and Initial Measurement

Inventories comprise current assets held-for-sale, current assets for consumption or distribution during the ordinary course of business. Inventories are initially recognised at cost. Cost generally refers to the purchase price, transport costs and any other costs in bringing the Inventories to their current location and condition. Where Inventory is manufactured, constructed or produced, the cost includes the cost of labour, materials and overheads used during the manufacturing process.

Where Inventory is acquired by the municipality for no or nominal consideration (i.e. a non-exchange transaction), the cost is deemed to be equal to the fair value of the item on the date acquired.

Direct costs relating to properties that will be sold as Inventory are accumulated for each separately identifiable development. Costs also include a proportion of overhead costs.

3.2 Subsequent Measurement

3.2.1 Consumable Stores

Subsequently, Inventories sold are valued at the lower of cost and net realisable value. The cost is determined using the Weighted Average Method.

Consumable stores distributed at no charge or for a nominal charge and finished goods are valued at the lower of cost and current replacement cost. The cost is determined using the Weighted Average Method.

3.2.2 Water Inventory

Water is regarded as Inventory when the municipality purchases water in bulk with the intention to resell it to the consumers or to use it internally, or where the municipality has incurred purification costs on water obtained from natural resources (rain, rivers, springs, boreholes, etc). However, water in dams, that are filled by natural resources and that has not yet been treated, that is under the control of the municipality but cannot be measured reliably as there is no cost attached to the water, is therefore not recognised in the Statement of Financial Position.

The basis of determining the cost of water purchased and not yet sold at reporting date comprises all costs of purchase, cost of conversion and other costs incurred in bringing the Inventory to its present location and condition, net of trade discounts and

Water and purified effluent are valued by using the FIFO Method, at the lowest of purified cost and net realisable value, insofar as it is stored and controlled in reservoirs at year-end.

3.2.3 Unsold Properties

Unsold properties are valued at the lower of cost and net realisable value on a Weighted Average Method. Direct costs are accumulated for each separately identifiable development. Cost also includes a portion of overhead costs, if this relates to development.

3.2.4 Other Arrangements

Redundant and slow-moving Inventories identified are written down from cost to current replacement cost, if applicable.

Differences arising on the measurement of such Inventory at the lower of cost and current replacement cost or net realisable value, are recognised in Surplus or Deficit in the year in which they arise. The amount of any reversal of any write-down of Inventories arising from an increase in current replacement cost or net realisable value is recognised as a reduction in the amount of Inventories recognised as an expense in the period in which the reversal occurs.

The carrying amount of Inventories is recognised as an expense in the period that the Inventory was sold, distributed, written off or consumed, unless that cost qualifies for capitalisation to the cost of another asset.

4. FINANCIAL INSTRUMENTS

The municipality has various types of Financial Instruments and these can be broadly categorised as Financial Assets, Financial Liabilities or Residual Interests in accordance with the substance of the contractual agreement.

Initial Recognition

Financial Assets and Financial Liabilities are recognised when it becomes party to the contractual provisions of the instrument.

The municipality does not offset a Financial Asset and a Financial Liability unless a legally enforceable right to set off the recognised amounts currently exist and the municipality intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

4.1 Financial Assets - Classification

The municipality has the following types of Financial Assets:

Type of Financial Asset	Classification in terms of GRAP 104
Receivables from Exchange Transactions	Financial Assets at Amortised Cost
Investments with financial institutions	Financial Assets at Amortised Cost
Receivables from Non-exchange Transactions	Financial Assets at Amortised Cost
Bank, Cash and Cash Equivalents – Fixed Deposits	Financial Assets at Amortised Cost
Bank, Cash and Cash Equivalents – Notice Deposits	Financial Assets at Amortised Cost
Bank, Cash and Cash Equivalents – Call Deposits	Financial Assets at Amortised Cost
Bank, Cash and Cash Equivalents – Bank	Financial Assets at Amortised Cost
Bank, Cash and Cash Equivalents – Cash	Financial Assets at Amortised Cost

Trade and Other Receivables exclude Value Added Taxation, Prepayments and Operating Lease Receivables are classified as Financial Assets at Amortised Cost.

Cash includes cash-on-hand (including petty cash) and cash with banks (including call deposits). For the purposes of the Cash Flow Statement, Cash and Cash Equivalents comprise cash-on-hand and deposits held on call with banks, net of bank

4.2 Financial Liabilities - Classification

The municipality has the following types of Financial Liabilities:

Type of Financial Liability	Classification in terms of GRAP 104
Borrowings	Financial Liabilities at Amortised Cost
Payables from Exchange Transactions	Financial Liabilities at Amortised Cost
Payables from Non-exchange Transactions	Financial Liabilities at Amortised Cost
Unspent Conditional Grants	Financial Liabilities at Amortised Cost

4.3 Initial and Subsequent Measurement

4.3.1 Financial Assets:

Financial Assets measured at Amortised Cost

Financial Assets at Amortised Cost are initially measured at fair value plus transaction costs that are directly attributable to the acquisition or issue of the Financial Asset. Subsequently, these assets are measured at amortised cost using the Effective Interest Method less any impairment, with interest recognised on an Effective Yield Basis.

4.3.2 Financial Liabilities:

Financial Liabilities held at Amortised Cost

Any other Financial Liabilities are classified as Other Financial Liabilities (All Payables, Loans and Borrowings are classified as Other Liabilities) and are initially measured at fair value, net of transaction costs. Trade and Other Payables, Interest-bearing Debt including Finance Lease Liabilities, Non-interest-bearing Debt and Bank Borrowings are subsequently measured at amortised cost using the Effective Interest Rate Method. Interest expense is recognised in Surplus or Deficit by applying the

4.4 Impairment of Financial Assets

Financial Assets, other than those at fair value, are assessed for indicators of impairment at the end of each reporting period. Financial Assets are impaired where there is objective evidence of impairment of Financial Assets (such as the probability of insolvency or significant financial difficulties of the debtor). If there is such evidence the recoverable amount is estimated and an impairment loss is recognised through the use of an allowance account.

4.4.1 Financial Assets at Amortised Cost

A provision for impairment of Accounts Receivables is established when there is objective evidence that the municipality will not be able to collect all amounts due according to the original terms of receivables. The provision is made whereby the recoverability of accounts receivable is assessed individually and then collectively after grouping the assets in financial assets with similar credit risk characteristics. The amount of the provision is the difference between the Financial Asset's carrying amount and the present value of estimated future cash flows, discounted at the original effective interest rate. Future cash flows in a group of Financial Assets that are collectively evaluated for impairment are estimated on the basis of historical loss experience for assets with credit risk characteristics similar to those in the group. Cash flows relating to short-term receivables are not discounted where the effect of discounting is immaterial.

Government accounts are not provided for as such accounts are regarded as receivable for the following reasons:

- It is management's judgement that the accounts are not "lost events" in terms of GRAP 104.58.
- State Departments and Entities have to pay their creditors within 30 days in terms of the PFMA.
- Interest is charged on all outstanding balances at a rate of the banker's prime rate plus 1%.
- There is an urge from National Treasury that State Departments and Entities should start paying their outstanding debt.

The carrying amount of the Financial Asset is reduced by the impairment loss directly for all Financial Assets carried at Amortised Cost with the exception of Consumer Debtors, where the carrying amount is reduced through the use of an allowance account. When a Consumer Debtor is considered uncollectible, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited against revenue. Changes in the carrying amount of the allowance account are recognised in Surplus or Deficit.

4.5 Derecognition of Financial Assets

The municipality derecognises Financial Assets only when the contractual rights to the cash flows from the asset expires or it transfers the Financial Asset and substantially all the risks and rewards of ownership of the asset to another entity, except when Council approves the write-off of Financial Assets due to non-recoverability.

If the municipality neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the municipality recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the municipality retains substantially all the risks and rewards of ownership of a transferred Financial Asset, the municipality continues to recognise the Financial Asset and also recognises a collateralised borrowing for the proceeds received.

4.6 Derecognition of Financial Liabilities

The municipality derecognises Financial Liabilities when, and only when, the municipality's obligations are discharged, cancelled or they expire.

The municipality recognises the difference between the carrying amount of the Financial Liability (or part of a Financial Liability) extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, in Surplus or Deficit.

5. STATUTORY RECEIVABLES

Statutory Receivables are receivables that arise from legislation, supporting regulations, or similar means and require settlement by another entity in cash or another financial asset.

The municipality has the following Statutory Receivables from Non-exchange Transactions:

- · Assessment Rates
- Fines

5.1 Recognition and Initial Measurement

Statutory Receivables are recognised if the transaction is an exchange transaction per GRAP 9 or a non-exchange transaction per GRAP 23 or, if the transaction is not within the scope of GRAP 9 or GRAP 23, or another Standard of GRAP, and the definition of an asset is met and, when it is probable that the future economic benefits or service potential associated with the asset will flow to the municipality and the transaction amount can be reliably measured.

The municipality recognises Statutory Receivables when they arise.

Statutory Receivables are initially measured at their transaction amount. The transaction amount would be the amount that is determined on initial measurement in accordance with the relevant Standard of GRAP.

The transaction amounts of the Statutory Receivables of the municipality are determined as follows:

- Assessment Rates are levied in terms of the stipulations contained in the Local Government: Municipal Property Rates Act, 2004 (Act No. 6 of 2004) at rates determined each year by Council.
- Fines are serviced in terms of the stipulations contained in the Criminal Procedures Act, 1977 (Act No. 51 of 1977) at rates
 published in the Government Gazette from time to time.

5.2 Subsequent Measurement

Statutory Receivables are measured after initial recognition using the cost method. Under the cost method, the initial measurement of the receivable is changed subsequent to initial recognition to reflect any:

5.3 Impairment

Statutory Receivables are assessed for indicators of impairment at the end of each reporting period. Statutory Receivables are impaired where there is any indication of impairment of Statutory Receivables, such as the probability of insolvency or significant financial difficulties of the debtor.

In assessing whether Statutory Receivables are impaired, the municipality assesses whether there are any indications that individually significant receivables are impaired; and/or groups of similar, individually insignificant, receivables are impaired.

The municipality groups together and assesses collectively for impairment those receivables that exhibit similar characteristics which provide information about the possible collectability of the amounts owing to the municipality. The municipality uses the following groupings:

- Assessment Rates
- Fines

If there is such evidence the carrying amount is reduced to the estimated future cash flows, an impairment loss is recognised, directly or indirectly, through the use of an allowance account, with the amount of the impairment loss being recognised in Surplus or Deficit.

5.4 Derecognition

The municipality derecognises Statutory Receivables only when the rights to the cash flows from the receivable expires or it transfers the Statutory Receivable and substantially all the risks and rewards of ownership of the receivable to another municipality, except when council approves the write-off of the receivable due to non-recoverability.

The municipality derecognises a receivable if the municipality, despite having retained some significant risks and rewards of ownership, transfers control of the receivable to another party and the other party has the practical ability to sell the receivable in its entirety to an unrelated party, and is able to exercise that ability unilaterally and without needing to impose additional restrictions on the transfer. In this case, the municipality recognises separately any rights and obligations created or retained in the transfer. The carrying amount of and statutory receivables transferred is allocated between the rights and obligations retained and those transferred on the basis of the relative fair values at the transfer date. The municipality assesses whether any newly created rights and obligations are within the scope of GRAP 104 or another Standards of GRAP. Any difference between the consideration received and the amounts derecognised and, those amounts recognised, is recognised in surplus or deficit in the period transferred.

6. CONSTRUCTION CONTRACTS

Construction Contracts are those contracts entered between the municipality and a customer (or third party) whereby the municipality delivers a constructed asset in terms of an agreement with such party. The construction can be done by the municipality or through the use of a sub-contractor. The benefit of the constructed item (or group) of items must be received by such party and not the municipality.

Revenue from such contracts shall comprise the agreed value in terms of the contract plus any agreed variations to such contract on the conditions that these variations will result in an inflow of economic resources that can be measured reliably.

Contract costs are costs that directly relate to the contract as well as costs that are attributable to the execution of the construction work and any additional costs as agreed between the municipality and the party obtaining the final goods. Attributable costs are only assigned to the contract costs if these can be assigned on a systematic and rational basis.

The municipality assessed all of the contracts in place and found that all of the contracts pertained to Housing Arrangements as those described in ASB's Accounting for Arrangements Undertaken in terms of the National Housing Programme. All of these contracts for the municipality are fixed price contracts. Revenue and costs are therefore recognised with reference to the stage of completion provided that the conditions for contract revenue and contract costs are met and the stage of contract completion can be measured.

In exceptional cases, if any, for a cost plus or cost based contract the outcome of a construction contract can be estimated reliably when it is probable that the economic benefits or service potential associated with the contract will flow to the entity and the contract costs can be clearly identified and measured reliably.

An expected deficit on a construction contract shall be recognised as an expense immediately based on the stage of completion. Future losses are only accounted for when these losses are incurred in terms of the stage of completion. This implies that only the proportional loss of a contract would be recognised based on the percentage of completion.

As the percentage or stage of completion is an estimate at year-end, any subsequent changes to the estimate would be accounted for as a change in estimate in terms of the relevant municipal accounting policy.

7. PROPERTY, PLANT AND EQUIPMENT

7.1 Initial Recognition and Measurement

Property, Plant and Equipment are initially recognised at cost.

Where an asset is acquired by the municipality for no or nominal consideration (i.e. a non-exchange transaction), the cost is deemed to be equal to the fair value of that asset on the date acquired.

Repairs and Maintenance are expenses incurred through servicing equipment or repairing of existing assets. These expenses are not recognised in the carrying value of the asset, but directly recognised in Surplus or Deficit and measured at cost against the attributing segments of the Municipal Standard Chart of Accounts (mSCOA).

7.2 Subsequent Measurement

Subsequently all Property Plant and Equipment are measured at cost, less accumulated depreciation and accumulated impairment losses.

7.3 Depreciation

Depreciation on assets other than land is calculated on cost, using the Straight-line Method, to allocate their cost or revalued amounts to their residual values over the estimated useful lives of the assets. Each part of an item of Property, Plant and Equipment with a cost that is significant in relation to the total cost of the item is depreciated separately.

The depreciation rates are based on the following estimated useful lives:

Asset Class	Years	Asset Class	Years
Buildings		Community	
Improvements	5 - 140	Community Facilities Recreational Facilities	35 - 100 50
Infrastructure		recreational racinties	50
Electricity	10 - 67	Other	
Roads and Paving	3 - 100	Computer Equipment	1 - 12
Sanitation	50	Furniture and Office Equipment	1 - 35
Sewerage / Solid Waste	10 - 110	Plant and Equipment	1 - 30
Water	6 - 115	Vehicles - General	1 - 26
		Vehicles - Specialised	1 - 26

7.4 Land

Land is stated at historical cost and is not depreciated as it is deemed to have an indefinite useful life.

7.5 Incomplete Construction Work

Incomplete Construction Work is stated at historical cost. Depreciation only commences when the asset is available for use.

7.6 Infrastructure Assets

Infrastructure Assets are any assets that are part of a network of similar assets. Infrastructure assets are shown at cost less accumulated depreciation and accumulated impairment. Infrastructure assets are treated similarly to all other assets of the municipality in terms of the asset management policy.

7.7 Finance Leases

Assets capitalised under finance leases are depreciated over their expected useful lives on the same basis as Property, Plant and Equipment controlled by the municipality or, where shorter, the term of the relevant lease if there is no reasonable certainty that the municipality will obtain ownership by the end of the lease term.

7.8 Derecognition

The gain or loss arising from the derecognition of an item of Property, Plant and Equipment is included in Surplus or Deficit when the item is derecognised. Gains are not classified as Revenue.

8. INTANGIBLE ASSETS

8.1 Initial Recognition and Measurement

Identifiable non-monetary assets without physical substance are classified and recognised as Intangible Assets.

Intangible Assets are initially recognised at cost.

Where an Intangible Asset is acquired by the municipality for no or nominal consideration (i.e. a non-exchange transaction), the cost is deemed to be equal to the fair value of that asset on the date acquired.

The cost of an Intangible Asset acquired in exchange for non-monetary assets or monetary assets, or a combination of monetary and non-monetary assets, is measured at the fair value of the asset given up, unless the fair value of the asset received is more clearly evident. If the acquired item could not be measured at its fair value, its cost is measured at the carrying amount of the asset given up. If the acquired item's fair value was not determinable, it's deemed cost is the carrying amount of the asset(s) given up.

Repairs and Maintenance are expenses incurred through servicing equipment or repairing of existing assets. These expenses are not recognised in the carrying value of the asset, but directly recognised in Surplus or Deficit and measured at cost against the attributing segments of the Municipal Standard Chart of Accounts (mSCOA).

8.2 Subsequent Measurement, Amortisation and Impairment

After initial recognition, Intangible Assets are carried at cost less any accumulated amortisation and any accumulated impairment losses

Amortisation is charged on a Straight-line Method over the Intangible Assets' useful lives. The residual value of Intangible Assets with finite useful lives is zero, unless an active market exists. Where Intangible Assets are deemed to have indefinite useful lives, such Intangible Assets are not amortised. However, such Intangible Assets are subject to an annual impairment test.

The amortisation rates are based on the following estimated useful lives:

Asset Class	Years
Computer Software Purchased	5 - 20

8.3 Derecognition

The gain or loss arising from the derecognition of an item of Intangible Asset is included in Surplus or Deficit when the item is derecognised. Gains are not classified as Revenue.

9. INVESTMENT PROPERTY

9.1 Initial Recognition and Measurement

At initial recognition, the municipality measures Investment Property at cost. However, where an Investment Property was acquired through a non-exchange transaction (i.e. where it acquired the Investment Property for no or a nominal value), its cost is its fair value as at the date of acquisition.

Repairs and Maintenance are expenses incurred through servicing equipment or repairing of existing assets. These expenses are not recognised in the carrying value of the asset, but directly recognised in Surplus or Deficit and measured at cost against the attributing segments of the Municipal Standard Chart of Accounts (mSCOA).

9.2 Subsequent Measurement

Investment Property is measured using the Cost Model and is stated at cost less accumulated depreciation and accumulated impairment losses. Depreciation is calculated on cost, using the Straight-line Method over the useful life of the property, which is estimated at 4 - 100 years. Components of assets that are significant in relation to the whole asset and that have different useful lives are depreciated separately.

The gain or loss arising on the disposal of an Investment Property is recognised in Surplus or Deficit.

9.3 Derecognition

The gain or loss arising from the derecognition of an item of Investment Property is included in Surplus or Deficit when the item is derecognised. Gains are not classified as Revenue.

10. IMPAIRMENT OF ASSETS

The municipality classifies all assets held with the primary objective of generating a commercial return as Cash Generating Assets. All other assets are classified as Non-cash Generating Assets.

10.1 Impairment of Cash Generating Assets

The municipality assesses at each reporting date whether there is any indication that an asset may be impaired.

If there is any indication that an asset may be impaired, the recoverable amount is estimated for the individual asset. If it is not possible to estimate the recoverable amount of the individual asset, the recoverable amount of the cash generating unit to which the asset belongs is determined.

The recoverable amount of an asset or a cash generating unit is the higher of its fair value less costs to sell and its value in use.

If the recoverable amount of an asset is less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount. That reduction is an impairment loss.

An impairment loss of assets carried at cost less any accumulated depreciation or amortisation is recognised immediately in Surplus or Deficit.

An impairment loss is recognised for cash generating units if the recoverable amount of the unit is less than the carrying amount of the unit. The impairment loss is allocated to reduce the carrying amount of the assets of the unit pro rata on the basis of the carrying amount of each asset in the unit.

The municipality assesses at each reporting date whether there is any indication that an impairment loss recognised in prior periods for assets may no longer exist or may have decreased. If any such indication exists, the recoverable amounts of those assets are estimated.

The increased carrying amount of an asset attributable to a reversal of an impairment loss does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in prior periods.

A reversal of an impairment loss of assets carried at cost less accumulated depreciation or amortisation is recognised immediately in Surplus or Deficit.

10.2 Impairment of Non-cash Generating Assets

The municipality assesses at each reporting date whether there is any indication that an asset may be impaired.

If there is any indication that an asset may be impaired, the recoverable service amount is estimated for the individual asset. If it is not possible to estimate the recoverable service amount of the individual asset, the recoverable service amount of the non-cash generating unit to which the asset belongs is determined.

The recoverable service amount of a non-cash generating asset is the higher of its fair value less costs to sell and its value in use.

If the recoverable service amount of an asset is less than its carrying amount, the carrying amount of the asset is reduced to its recoverable service amount. That reduction is an impairment loss.

An impairment loss of assets carried at cost less any accumulated depreciation or amortisation is recognised immediately in Surplus or Deficit.

An impairment loss is recognised for non-cash generating units if the recoverable service amount of the unit is less than the carrying amount of the unit. The impairment loss is allocated to reduce the carrying amount of the assets of the unit pro rata on the basis of the carrying amount of each asset in the unit.

The municipality assesses at each reporting date whether there is any indication that an impairment loss recognised in prior periods for assets may no longer exist or may have decreased. If any such indication exists, the recoverable service amounts of those assets are estimated.

The increased carrying amount of an asset attributable to a reversal of an impairment loss does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in prior periods.

A reversal of an impairment loss of assets carried at cost less accumulated depreciation or amortisation is recognised immediately in Surplus or Deficit.

11. CONSUMER DEPOSITS

Consumer deposits are a partial security for a future payment of an account. All consumers are therefore required to pay a deposit equal to two months consumption of electricity and water services. Deposits are considered a liability as the deposit is only refunded once the service is terminated. No interest is paid on deposits.

12. PROVISIONS

The best estimate of the expenditure required to settle the present obligation is the amount that the municipality would rationally pay to settle the obligation at the reporting date or to transfer it to a third party at that time and are determined by the judgment of the management of the municipality, supplemented by experience of similar transactions and, in some cases, reports from independent experts. The evidence considered includes any additional evidence provided by events after the reporting date. Uncertainties surrounding the amount to be recognised as a provision are dealt with by various means according to the circumstances. Where the provision being measured involves a large population of items, the obligation is estimated by weighting all possible outcomes by their associated probabilities.

Future events that may affect the amount required to settle an obligation are reflected in the amount of a provision where there is sufficient objective evidence that they will occur. Gains from the expected disposal of assets are not taken into account in measuring a provision. Provisions are not recognised for future operating losses. The present obligation under an onerous contract is recognised and measured as a provision. An onerous contract in which the unavoidable costs of meeting the obligations under the contract exceed the economic benefits expected to be received under it. The unavoidable costs under a contract reflect the least net cost of exiting from the contract, which is the lower of the cost of fulfilling it and any compensation or penalties arising from failure to fulfil it – this unavoidable cost resulting from the contract is the amount of the provision to be recognised.

Provisions are reviewed at reporting date and the amount of a provision is the present value of the expenditure expected to be required to settle the obligation. When the effect of discounting is material, provisions are determined by discounting the expected future cash flows that reflect current market assessments of the time value of money. The impact of the periodic unwinding of the discount is recognised in Surplus or Deficit as a finance cost as it occurs.

12.1 Provision for Environmental Rehabilitation

Estimated long-term environmental provisions, comprising rehabilitation and landfill site closure, are based on the municipality's policy, taking into account current technological, environmental and regulatory requirements. The provision for rehabilitation is recognised as and when the environmental liability arises. To the extent that the obligations relate to the asset, they are capitalised as part of the cost of those assets. Any subsequent changes to an obligation that did not relate to the initial related asset are charged to Surplus or Deficit.

13. LEASES

13.1 The Municipality as Lessee

13.1.1 Finance Leases

Property, plant and equipment or intangible assets subject to finance lease agreements are capitalised at amounts equal to the fair value of the leased asset or, if lower, the present value of the minimum lease payments, each determined at the inception of the lease. Corresponding liabilities are recognised at equal amounts. In discounting the lease payments, the municipality uses the interest rate that exactly discounts the lease payments to the fair value of the asset, plus any direct costs incurred.

Subsequent to initial recognition, the leased assets are accounted for in accordance with the stated accounting policies applicable to property, plant and equipment or intangible assets. The lease liability is reduced by the lease payments, which are allocated between the finance cost and the capital repayment using the Effective Interest Rate Method. Finance costs are expensed when incurred. The accounting policies relating to derecognition of financial instruments are applied to lease payables. The lease asset is depreciated over the shorter of the asset's useful life or the lease term.

13.1.2 Operating Leases

The municipality recognises operating lease rentals as an expense in Surplus or Deficit on a Straight-line Basis over the term of the relevant lease. The difference between the amounts recognised as an expense and the contractual payments are recognised as an operating lease asset or liability. Any lease incentives are included as part of the net consideration agreed.

13.2 The Municipality as Lessor

Amounts due from lessees under **Finance Leases** or instalment sale agreements are recorded as receivables at the amount of the municipality's net investment in the leases. Finance lease or instalment sale revenue is allocated to accounting periods so as to reflect a constant periodic rate of return on the municipality's net investment outstanding in respect of the leases or instalment sale agreements.

Rental revenue from Operating Leases is recognised on a Straight-line Basis over the term of the relevant lease.

14. BORROWING COSTS

The municipality capitalises borrowing costs incurred that are directly attributable to the acquisition, construction or production of a qualifying asset as part of the cost of that asset.

To the extent that the municipality borrows funds generally and uses them for the purpose of obtaining a qualifying asset, the municipality determines the amount of borrowing costs eligible for capitalisation by applying a capitalisation rate to the expenditure on that asset. The capitalisation rate shall be the weighted average of the borrowing costs applicable to the borrowings of the municipality that are outstanding during the period, other than borrowings made specifically for the purpose of obtaining a qualifying asset. The amount of borrowing costs that the municipality capitalises during a period shall not exceed the amount of borrowing costs it incurred during that period.

The municipality ceases to capitalise borrowing costs when substantially all the activities necessary to prepare the qualifying assets for its intended use has been completed. Where the construction of the qualifying asset is completed in parts and each part is capable of being used while construction continues on other parts, the municipality shall cease capitalising borrowing costs when it completes substantially all the activities necessary to prepare that part

All other borrowing costs are treated as an expense in the period in which they are incurred.

15. EMPLOYEE BENEFIT LIABILITIES

15.1 Short-term Employee Benefits

The costs of all short-term employee benefits such as leave pay, are recognised during the period in which the employee renders the related service. The liability for leave pay is based on the total accrued leave days at year end and is shown as a creditor in the Statement of Financial Position. The municipality recognises the expected cost of performance bonuses only when the municipality has a present legal or constructive obligation to make such payment and a reliable estimate can be made.

15.1.1 Provision for Staff Leave

Liabilities for annual leave are recognised as they accrue to employees. The liability is based on the total amount of leave days due to employees at year-end and also on the total remuneration package of the employee.

Accumulating leave is carried forward and can be used in future periods if the current period's entitlement is not used in full. All unused leave will be paid out to the specific employee at the end of that employee's employment term.

Accumulated leave is vesting

15.1.2 Staff Bonuses Accrued

Liabilities for staff bonuses are recognised as they accrue to employees. The liability at year end is based on bonus accrued at year-end for each employee.

15.1.3 Provision for Performance Bonuses

A provision, in respect of the liability relating to the anticipated costs of performance bonuses payable to Section 57 employees, is recognised as it accrue to Section 57 employees. Municipalities' performance bonus provisions are based on the employment contract stipulations as well as previous performance bonus payment trends.

15.2 Post-employment Benefits

The municipality provides retirement benefits for its employees and councillors, and has both defined benefit and defined contribution post-employment plans.

15.2.1 Defined Contribution Plans

The municipality's contributions to the defined contribution funds are established in terms of the rules governing those plans. Contributions are recognised in Surplus or Deficit in the period in which the service is rendered by the relevant employees. The municipality has no further payment obligations once the contributions have been paid. The contributions are recognised as employee benefit expense when they are due. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in the future payments is available.

15.2.2 Defined Benefit Plans

Post-retirement Health Care Benefits

The municipality has an obligation to provide Post-retirement Health Care Benefits to certain of its retirees. According to the rules of the Medical Aid Funds with which the municipality is associated, a member (who is on the current Conditions of Service), on retirement, is entitled to remain a continued member of the Medical Aid Fund, in which case the municipality is liable for a certain portion of the medical aid membership fee. Not all Medical Aid Funds with which the municipality is associated, provide for continued membership.

The defined benefit liability is the aggregate of the present value of the defined benefit obligation and unrecognised actuarial gains and losses, reduced by unrecognised past service costs. The plan is unfunded. The present value of the defined benefit obligation is calculated using the Projected Unit Credit Method, incorporating actuarial assumptions and a discount rate based on the government bond rate. Valuations of these obligations are carried out annually by independent qualified actuaries.

Actuarial gains or losses are recognised immediately in Surplus or Deficit.

Past-service costs are recognised immediately in Surplus or Deficit.

Long-service Allowance

The municipality has an obligation to provide Long-service Allowance Benefits to all of its employees. According to the rules of the Long-service Allowance Scheme, which the municipality instituted and operates, an employee (who is on the current Conditions of Service), is entitled to a cash allowance, calculated in terms of the rules of the scheme, after 10, 15, 20, 25 and 30 years of continued service. The municipality's liability is based on an actuarial valuation. The Projected Unit Credit Method is used to value the liabilities. Actuarial gains and losses on the long-term incentives are accounted for through Surplus or Deficit.

Provincially-administered Defined Benefit Plans

The municipality contributes to various National- and Provincial-administered Defined Benefit Plans on behalf of its qualifying employees. These funds are multi-employer funds. The contributions to fund obligations for the payment of retirement benefits are charged against revenue in the year they become payable. These defined benefit funds are actuarially valued triennially on the Projected Unit Credit Method basis. Deficits are recovered through lump sum payments or increased future contributions on a proportional basis from all participating municipalities.

Defined Benefit Pension Plans

The municipality has an obligation to provide Post-retirement Pension Benefits to certain of its retirees. Pension contributions in respect of employees who were not members of a pension fund are recognised as an expense when incurred. Staff provident funds are maintained to accommodate personnel who, due to age, cannot join or be part of the various pension funds. The municipality contributes monthly to the funds.

The liability recognised in the Statement of Financial Position in respect of defined benefit pension plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets, together with adjustments for unrecognised past-service costs. The defined benefit obligation is calculated annually by independent actuaries using the Projected Unit Credit Method. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows using interest rates of high-quality corporate bonds that are denominated in the currency in which the benefits will be paid, and that have terms to maturity approximating to the terms of the related pension liability.

Actuarial gains or losses are recognised immediately in Surplus or Deficit.

Past-service costs are recognised immediately in Surplus or Deficit.

16. REVENUE RECOGNITION

16.1 General

Revenue is derived from a variety of sources which include rates levied, grants from other tiers of government and revenue from trading activities and other services provided.

Revenue comprises the fair value of the consideration received or receivable for the sale of goods and services in the ordinary course of the municipality's activities. Revenue is shown net of value-added tax, returns, rebates and discounts.

16.2 Revenue from Non-exchange Transactions

16.2.1 Rates and Taxes

Revenue from property rates is recognised when the legal entitlement to this revenue arises. Collection charges are recognised when such amounts are legally enforceable. Penalty interest on unpaid rates is recognised on a Time-proportionate Basis with reference to the principal amount receivable and effective interest rate applicable. A composite rating system charging different rate tariffs is employed. Rebates are granted to certain categories of ratepayers and are deducted from revenue.

16.2.2 Fines

Fines constitute both spot fines and summonses

Revenue for fines is recognised when the fine is issued at the full amount of the receivable. The municipality uses estimates to determine the amount of revenue that the municipality is entitled to collect that is subject to further legal proceedings.

16.2.3 Government Grants and Receipts

Equitable share allocations are recognised in revenue at the start of the financial year if no time-based restrictions exist.

Conditional grants, donations and funding are recognised as revenue to the extent that the municipality has complied with any of the criteria, conditions or obligations embodied in the agreement.

Government grants that are receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the municipality with no future related costs, are recognised in Surplus or Deficit in the period in which they become receivable.

Interest earned on investments is treated in accordance with grant conditions. If it is payable to the funder it is recorded as part of the creditor and if it is the municipality's interest, it is recognised as interest earned in Surplus or Deficit.

16.2.4 Public Contributions

Revenue from public contributions is recognised when all conditions associated with the contribution have been met or where the contribution is to finance property, plant and equipment, when such items of property, plant and equipment are brought into use.

16.2.5 Other Donations and Contributions

Donations are recognised on a cash receipt basis or where the donation is in the form of property, plant and equipment, when such items of property, plant and equipment are available for use.

16.2.6 Interest Earned

Interest earned on investments is recognised in Surplus or Deficit on the Time-proportionate Basis that takes into account the effective yield on the investment.

16.2.7 Rentals Received

Revenue from the rental of facilities and equipment is recognised on a Straight-line Basis over the term of the lease agreement.

16.2.8 Tariff Charges

Revenue arising from the application of the approved tariff of charges is recognised when the relevant service is rendered by applying the relevant authorised tariff. This includes the issuing of licences and permits.

16.2.9 Revenue from Recovery of Unauthorised, Irregular, Fruitless and Wasteful Expenditure

The recovery of unauthorised, irregular, fruitless and wasteful expenditure is based on legislated procedures, including those set out in the Municipal Finance Management Act (Act No 56 of 2003) and is recognised as revenue when the recovery thereof from the responsible councillors or officials became virtually certain in a financial period subsequent to the period when the actual unauthorised, irregular, fruitless and wasteful expenditure was incurred.

16.3 Revenue from Exchange Transactions

16.3.1 Service Charges

Service Charges are levied in terms of approved tariffs.

Service Charges relating to electricity and water are based on consumption, together with a basic charge. Meters are read on a monthly basis and are recognised as revenue when invoiced. Provisional estimates of consumption, based on the consumption history, are made monthly when meter readings have not been performed. The provisional estimates of consumption are recognised as revenue when invoiced, except at year-end when estimates of consumption up to year-end are recorded as revenue without it being invoiced. Adjustments to provisional estimates of consumption are made in the invoicing period in which meters have been read. These adjustments are recognised as revenue in the invoicing period. In respect of estimates of consumption between the last reading date and the reporting date, an accrual is made based on the average monthly consumption of consumers.

Service charges relating to refuse removal are recognised on a monthly basis in arrears by applying the approved tariff to all properties that have improvements. Tariffs are determined per category of property usage, and are levied monthly based on the recorded number of refuse points per property.

Service charges relating to sewerage and sanitation are recognised on a monthly basis in arrears by applying the approved tariff to all properties. Tariffs are determined per category of property usage, and are levied based on the extent of each property.

In circumstances where services cannot readily be measured and quantified, a flat rate service charge is levied monthly on such properties.

16.3.2 Prepaid Electricity

Revenue from the sale of electricity prepaid meter cards are recognised at the point of sale. Revenue from the sale of electricity prepaid meter cards are recognised based on an estimate of the prepaid electricity consumed as at the reporting date. It is estimated that prepaid electricity is consumed within 5 to 7 days after date of purchase.

16.3.3 Rentals Received

Revenue from the rental of facilities and equipment is recognised on a Straight-line Basis over the term of the lease agreement.

16.3.4 Income from Agency Services

Revenue for agency services is recognised on a monthly basis once the revenue collected on behalf of agents has been quantified. The revenue recognised is in terms of the agency agreement.

16.3.5 Interest Earned

Interest earned on investments is recognised in Surplus or Deficit on the Time-proportionate Basis that takes into account the effective yield on the investment.

Interest on outstanding customer receivables is calculated when the receivable is more than 30 days at prime rate plus 1%, and recognised in surplus or deficit on the time-proportionate basis.

16.3.6 Tariff Charges

Revenue arising from the application of the approved tariff of charges is recognised when the relevant service is rendered by applying the relevant authorised tariff. This includes the issuing of licences and permits.

16.3.7 Sale of Goods (including Land and Houses)

Revenue from the sale of goods is recognised when all the following conditions have been met:

- (a) The municipality has transferred to the buyer the significant risks and rewards of ownership of the goods;
- (b) The municipality retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- (c) The amount of revenue can be measured reliably;
- (d) It is probable that the economic benefits or service potential associated with the transaction will flow to the municipality; and
- (e) The costs incurred or to be incurred in respect of the transaction can be measured reliably.

17. GRANTS-IN-AID

The municipality transfers money to individuals, organisations and other sectors of government from time to time. When making these transfers, the municipality does not:

- (a) Receive any goods or services directly in return, as would be expected in a purchase or sale transaction;
- (b) Expect to be repaid in future; or
- (c) Expect a financial return, as would be expected from an investment.

These transfers are recognised in Surplus or Deficit as expenses in the period that the events giving rise to the transfer occurred.

18. MATERIAL LOSSES

The MFMA requires the disclosure of material losses incurred during the year under review. The disclosure is provided in order to comply to the legislative requirements governing Municipalities and Municipal Entities.

Due to their significance, the complete calculation of water and electricity losses is provided, including the opening balance, purchases, sales and closing balance where applicable. The unit rate is determined using the Weighted Average Method as defined by GRAP 12 (Inventories).

19. UNAUTHORISED EXPENDITURE

Unauthorised Expenditure is expenditure that has not been budgeted for, expenditure that is not in terms of the conditions of an allocation received from another sphere of government, municipality or organ of state, and expenditure in the form of a grant that is not permitted in terms of the Municipal Finance Management Act (Act No 56 of 2003).

All expenditure relating to Unauthorised Expenditure is accounted for as an expense in Surplus or Deficit in the year that the expenditure was incurred. The expenditure is classified in accordance with the nature of the expense, and where recovered, it is subsequently accounted for as revenue in Surplus or Deficit.

A vote is defined as a Directorate. The municipality has the following Directorates:-Municipal Manager-Corporate Services-Financial Services-Technical Services

20. IRREGULAR EXPENDITURE

Irregular Expenditure is expenditure that is contrary to the Municipal Finance Management Act (Act No 56 of 2003), the Municipal Systems Act (Act No 32 of 2000), the Public Office Bearers Act (Act No 20 of 1998), or is in contravention of the Municipality or Municipal Entities' Supply Chain Management Policies. Irregular Expenditure excludes Unauthorised Expenditure.

Irregular Expenditure is accounted for as an expense in Surplus or Deficit in the period it occurred and where recovered, it is subsequently accounted for as revenue in Surplus or Deficit.

21. FRUITLESS AND WASTEFUL EXPENDITURE

Fruitless and Wasteful Expenditure is expenditure that was made in vain and would have been avoided had reasonable care been exercised

All expenditure relating to Fruitless and wasteful expenditure is accounted for as expenditure in Surplus or Deficit in the year that the expenditure was incurred. The expenditure is classified in accordance with the nature of the expense, and where recovered, it is subsequently accounted for as revenue in Surplus or Deficit.

22. COMMITMENTS

Commitments are disclosed for:

- Approved and contracted commitments, where the expenditure has been approved and the contract has been awarded at the reporting date, where disclosure is required by a specific standard of GRAP;
- Items are classified as commitments where the municipality commits itself to future transactions that will normally result in the outflow of resources:
- Contracts that are entered into before the reporting date, but goods and services have not yet been received are disclosed in the disclosure Notes to the Annual Financial Statements; and
- Other commitments for contracts that are non-cancellable or only cancellable at significant cost, should relate to something other than the business of the municipality.

23. RELATED PARTIES

Individuals as well as their close family members, and/or entities are related parties if one party has the ability, directly or indirectly, to control or jointly control the other party or exercise significant influence over the other party in making financial and/or operating decisions. Management is regarded as a related party and comprises the Councillors, Executive Mayor, Deputy Executive Mayor, Speaker, Municipal Manager, Chief Financial Officer and all other managers reporting directly to the Municipal Manager or as designated by the Municipal Manager.

Only transactions with related parties not at arm's length or not in the ordinary course of business are disclosed.

24. CONTINGENT ASSETS AND CONTINGENT LIABILITIES

Contingent Assets and Contingent Liabilities are not recognised. Contingencies are disclosed in Notes to the Annual Financial Statements.

25. EVENTS AFTER THE REPORTING DATE

Events after the reporting date that are classified as adjusting events have been accounted for in the Annual Financial

The events after the reporting date that are classified as Non-adjusting Events after the Reporting Date have been disclosed in Notes to the Annual Financial Statements.

26. SEGMENT REPORTING

The mandate of the municipality is to provide basic services to the community over which it governs. In order to properly execute its mandate and achieve its strategic goals, internal management reporting is based on each service objective and also considered separately for each of the towns within the municipal jurisdiction. The components described below have been identified as individually significant segments for purposes of reporting in terms of GRAP 18 (Segment Reporting).

The following services are considered significant to the municipality and is accordingly managed separately:

- Municipal governance and administration.
- Community and public safety.
- Housing.
- Energy, waste, waste water and water.
- Other.

All other sources of income and expenditure is aggregated through means of the administrative function as these services are not significant to the other services of the municipality as a whole.

The municipality only operates in a single geographical location and accordingly does not report separately on each location within its jurisdiction.

Intersegmental transfers are per the municipality's approved tariff policy. The reconciliation clearly describes the effects of all internal transfers between segments.

The accounting policies for segmental reporting in the management accounts are aligned to the requirements of GRAP as described in these accounting policies.

27. VALUE ADDED TAX

The municipality accounts for Value Added Tax on the Payments Basis in accordance with section 15(2)(a) of the Value-Added Tax Act (Act No 89 of 1991).

2023	2022
R	R

1. GENERAL INFORMATION

Kannaland Municipality is a local municipality in Ladismith, Western Cape, and is one of seven local municipalities under the jurisdiction of the Garden Route District Municipality. The municipal area is situated in the western part of the Little Karoo and includes the towns of Ladismith, Calitzdorp and Zoar. The address of its registered office and principal place of business are disclosed under "General Information" included in the Annual Financial Statements and in the introduction of the Annual Report. The principal activities of the municipality are disclosed in the Annual Report and are prescribed by the Municipal Finance Management Act (MFMA).

2. INVENTORIES

Total Inventories	2 399 833	2 256 533
Land Materials and Supplies Water - At Cost	1 262 000 1 080 659 57 174	1 262 000 937 358 57 174

The cost of Inventories recognised as an expense includes R2 906 729 (2022: R3 535 827).

Obsolete and/or Lost Inventories to the amount of R1 336 461 for the 2023 financial year (2022: R2 030 643) were written off and recognised in Profit and Loss during the period.

Traffic Fines arise from fines issued by the municipality's traffic officials. These fines is issued according the National Road Traffic Act 93 of 1996. The fines issued is divided into Radar Fines and Section 56 Fines.

Radar fines are speed control fines issued when a motorist is caught speeding on a radar camera device. The device takes a picture of the vehicle and takes a speed reading. The speeding fine is then delivered to the registered owner of the vehicle by post.

The Section 56 fine is imposed when a motorist is stopped by the traffic officer and his or her identity therefore is known and a Traffic Offence occurred.

The Provision for Impairment on Receivables exists predominantly due to the possibility that these debts will not be recovered. The Provision for Impairment was calculated after grouping all the financial assets of similar nature and risk ratings and assessing the recoverability.

No Provision for Impairment has been made in respect of government debt as these amounts are considered to be fully recoverable. The municipality holds collateral over these balances in the form of Rates Assessment Deposits / Guarantees, which are not covering the total outstanding debt and vacant property respectively.

Vat Receivable	2 344 784	2 450 325

VAT Payable is the Net Payable from all VAT Control Accounts and agree to the VAT201 Returns.

VAT is payable on the receipts basis. The municipality however uses accrual accounting, and only once payment is received from debtors, VAT is paid over to SARS.

Furthermore, VAT is claimable on the payment basis.

Balance at end of year

6.

No interest is payable to SARS if the VAT is paid over timeously, but interest for late payments is charged according to SARS policies. The municipality has financial risk policies in place to ensure that payments are affected before the due date.

VAT Receivable arise where the municipality has a claim from the South African Revenue Service where the VAT Inputs exceeded the VAT outputs as per the Value-Added Tax Act 89 of 1991.

VAT Receivable is not impaired nor is it discounted as the amount is expected to be receivable within 60 days.

8. PROPERTY, PLANT AND EQUIPMENT (Continued)

8.2 Assets pledged as security

No assets was pledged as security

8.3 Impairment of Property, Plant and Equipment

Impairment Losses on Property, Plant and Equipment to the amount of R-1 330 638 (2022: R3 067 032) has been recognised in operating surplus and are included in Impairment Losses in the Statement of Financial Performance as indicated in Note 40.

Total Impairment of Property, Plant and Equipment	(1 330 638)	3 067 032
Transport Assets	96 238	-
Other Assets	(1 427 076)	1 618 783
Infrastructure	200	1 387 118
Community Assets	-	-

Impairment losses on Property, Plant and Equipment exist predominantly due to technological obsolescence of information technology equipment. The remainder of impaired items of Property, Plant and Equipment have been physically damaged, stolen or have become redundant and idle.

8.4 Change in Estimate - Useful Life of Property, Plant and Equipment reviewed

A change in the estimated useful life of various assets of the municipality has resulted in the following decreases in depreciation for the mentioned asset classes for the financial year:

Buildings	=	(23 403)
Infrastructure	(131 634)	(272 807)
Other Assets	(79 363)	(261 428)
Intangible Assets	-	(4 768)
Investment properties	(19 789)	
Total Change in Estimate for Useful Life of Property, Plant and Equipment	(279 126)	(562 406)

The change in estimates will result in an increase of R469 732 in the depreciation expense for the municipality over the next three financial years.

8.5 Work-in-Progress

Community Assets

The municipality has incurred expenditure on capital projects which were not completed at year-end. The details of the carrying amounts of expenditure included in each class of assets are listed below:

Infrastructure	20 666 284	37 294 384
Total Carrying Amounts of Work-in-Progress	25 286 679	39 563 794
	2023	2022
	R	R

15.1.2 Leasing Arrangements

The Municipality as Lessor:

Operating Leases relate to Property owned by the municipality with lease terms of between 12 to 30 months, with an option to extend.

All operating lease contracts contain market review clauses in the event that the lessee exercises its option to renew. The lessee does not have an option to purchase the property at the expiry of the lease period.

The average escalation % of leases is between 5% to 10%, on a yearly basis.

Transfer to Current Provisions		1 326 000	1 326 000
Total Post-retirement Health Care Benefits Liability		10 817 000	11 540 000

The municipality offers employees and continuation members the opportunity of belonging to one of several medical schemes, most of which offer a range of options pertaining to levels of cover.

Members contribute according to tables of contribution rates which differentiate between them on the type and number of dependants. Some options also differentiate on the basis of income.

Eligible employees will receive a post-employment subsidy of 70% of the contribution payable should they be a member of a medical scheme at retirement. Continuation members and their eligible dependants receive a 70% subsidy.

Upon retirement, an employee may continue membership of the medical scheme. Upon a member's death-in-service or death-in-retirement, the surviving dependants may continue membership of the medical scheme.

The most recent actuarial valuations of plan assets and the present value of the defined benefit obligation were carried out at 30 June 2023 by Mr C Weiss, Fellow of the Actuarial Society of South Africa. The present value of the defined benefit obligation, and the related current service cost and past service cost, were measured using the Projected Unit Credit Method.

The members of the Post-employment Health Care Benefit Plan are made up as follows:	2023 R	2022 R
In-service Members (Employees)	58	55
In-service Non-members (Employees)	97	113
Continuation Members (Retirees, widowers and orphans)	14	15
Total Members	169	183
The liability in respect of past service has been estimated as follows:		
In-service Members	4 090 000	4 067 000
In-service Non-members	1 480 000	1 748 000
Continuation Members	6 573 000	7 051 000
Total Liability	12 143 000	12 866 000

The municipality makes monthly contributions for health care arrangements to the following Medical Aid Schemes:

- Bonitas
- Keyhealth
- LA Health
- Hosmed
- Samwumed

The Current Cost for the year ending 30 June 2023 is estimated to be R724 000, whereas the cost for the ensuing year is estimated to be R685 000 (30 June 2022: R547 000 and R724 000 respectively).

The principal assumptions used for the purposes of the actuarial valuations were as follows:

Discount Rate	12,48%	11,28%
Health Care Cost Inflation Rate	8,09%	8,44%
Net Effective Discount Rate	4,06%	3,12%
Expected Retirement Age - Females	59	59
Expected Retirement Age - Males	62	62

General:

It is assumed that the municipality's health care arrangements and subsidy policy would remain as outlined in the accounting policy, and that the level of benefits receivable and the contributions payable would remain unchanged, with the exception of allowing for inflationary adjustments. Implicit in this approach is the assumption that current levels of cross-subsidy from in-service members to continuation members within the medical scheme are sustainable, and will continue.

Continuation of Membership:

It is assumed that 75% of in-service members will remain on the Municipality's health care arrangement should they stay until retirement.

Family Profile:

It is assumed that female spouses will be four years younger than their male counterparts. Furthermore, it is assumed that 60% of eligible employees on a health care arrangement at retirement will have a spouse dependant on their medical aid. For current retiree members, actual medical aid dependants were used and the potential for remarriage was ignored.

Discount Rate

GRAP 25 stipulates that the choice of this rate should be derived from government bond yields consistent with the estimated term of the postemployment liabilities. However, where there is no deep market in government bonds with a sufficiently long maturity to match the estimated term of all the benefit payments, current market rates of the appropriate term should be used to discount shorter term payments, and the discount rate for longer maturities should be estimated by extrapolating current market rates along the yield curve.

Consequently, a discount rate of 12,48% per annum has been used. The corresponding index-linked yield at this term is 4.06%. These rates do not reflect any adjustment for taxation. These rates were deduced from the interest rate data obtained from the Johannesburg Stock Exchange after the market close on 30 June 2023.

Impact of COVID-19:

It is difficult to estimate what impact the pandemic is likely to have on the Municipality's liability at this stage. There is still much uncertainty as to how it will affect mortality in the medium to long term, and what effect treatments and/or vaccines will have.

The sensitivities may be used to understand the potential impacts on the liability (and expenses) of, for example, an increase in the expected health care

cost inflation rate. or an increase in the discount rate. or a reduction in expected longevity.

Once any long-term impacts of COVID-19 on the various valuation parameters becomes more evident, appropriate adjustments to the parameters will be feasible. In the meanwhile, any short-term impacts of actual experience being different to the current long-term assumptions will contribute to actuarial gain/loss items.

23.4 Long Service Awards Liability		
Opening Balance	2 559 000	2 310 000
Increases (Current Service & Interest Cost)	-	452 000
Payments Made	=	(203 000)
Increases (Passage of Time/Discounted Rate)	-	-
Balance at end of Year	2 559 000	2 559 000
Transfer to Current Provisions	755 000	755 000
Total Long Service Awards Liability	1 804 000	1 804 000

The Municipality offers employees Long Service Awards for every five years of service completed, from ten years of service to 45 years of service, inclusive.

The most recent actuarial valuations of plan assets and the present value of the defined benefit obligation were carried out at 30 June 2023 by Mr C Weiss, Fellow of the Actuarial Society of South Africa. The present value of the defined benefit obligation, and the related current service cost and past service cost, were measured using the Projected Unit Credit Method.

At year end, 155 (2022: 168) employees were eligible for Long-service Awards.

The Current-service Cost for the year ending 30 June 2023 is estimated to be R246 000, whereas the cost for the ensuing year is estimated to be R218 000 (30 June 2024)

The principal assumptions used for the purposes of the actuarial valuations were as follows:

Discount Rate	11,53%	11,16%
Cost Inflation Rate	6,75%	7,33%
Net Effective Discount Rate	4,48%	3,57%
Expected Retirement Age - Females	59	59
Expected Retirement Age - Males	62	62

General:

It is assumed that the Municipality's long service arrangements and subsidy policy would remain as outlined in the accounting policy, and that the level of benefits would remain unchanged, with the exception of inflationary adjustments.

Discount Rate:

GRAP 25 stipulates that the choice of this rate should be derived from government bond yields consistent with the estimated term of the employee benefit liabilities. However, where there is no deep market in government bonds with a sufficiently long maturity to match the estimated term of all the benefit payments, current market rates of the appropriate term should be used to discount shorter term payments, and the discount rate for longer maturities should be estimated by extrapolating current market rates along the yield curve.

Consequently, a discount rate of 11.53% per annum has been used. This yield was obtained by calculating the duration of the liability and then

taking the yield from the yield curve at that duration using an iterative process. The corresponding liability-weighted index-linked yield is 4.48%.

Impact of COVID-19:

It is difficult to estimate what impact the pandemic is likely to have on the Municipality's liability at this stage. There is still much uncertainty as to how it will affect mortality in the medium to long term, and what effect treatments and/or vaccines will have.

The sensitivities may be used to understand the potential impacts on the liability (and expenses) of, for example, an increase in the expected general earnings inflation rate, or an increase in the discount rate, or an increase in the withdrawal rates.

Once any long-term impacts of COVID-19 on the various valuation parameters becomes more evident, appropriate adjustments to the parameters will be feasible. In the meanwhile, any short-term impacts of actual experience being different to the current long-term assumptions will contribute to actuarial gain/loss items.

The possible effects of COVID-19 have not been included in the report's main figures.

	L L	

The amounts disclosed above for **Electricity and Water Losses** are in respect of costs incurred in the general management of the municipality and not directly attributable to a specific service or class of expense.

Losses in Property Rates Revenue: The last valuation roll came into effect on 1 July 2013. According to Section 32(1)(b) of the Municipal Property Rates Act, No.6 of 2004, a valuation is valid for 5 years only. The municipality did not perform an updated valuation and therefore have possibly lost out on revenue from property rates. A monetary value could not be placed on the possible loss due to the complexities with valuing fixed property.

56.1.7 (d)(i) of the MFMA

Material Electricity and Water Losses were as follows and are not recoverable:

Electricity:

		Lost Units	Tariff	Value
30 June 2023	Unaccounted Electricity Losses	4 149 649	1,5300	6 348 963
30 June 2022	Unaccounted Electricity Losses	4 766 525	1,3300	6 339 478

Electricity Losses occur due to inter alia, technical and non-technical losses (Technical losses - inherent resistance of conductors, transformers and other electrical equipment; Non-technical losses - the tampering of meters, the incorrect ratios used on bulk meters, faulty meters and illegal electricity connections). The problem with tampered meters and illegal connections is an ongoing process, with regular action being taken against defaulters. Faulty meters are replaced as soon as they are reported.

	2023	2022
Volumes in kWh/year:		
System Input Volume	33 201 138	37 760 480
Billed Consumption	29 051 489	32 993 955
Unaccounted	4 149 649	4 766 525
Normal distribution losses - 8% of electricity purchases	2 656 091	3 020 838

Receivables from Exchange Transactions	Control, Clearing and Interface Accounts	1 063 255	962 915
Receivables from Non-exchange Transactions	Insurance Claims	129 398	509 485
Unspent Conditional Grants and Receipts	Households	1 601 717	1 601 717
Unspent Conditional Grants and Receipts	National Government	5 976 498	5 624 915
Unspent Conditional Grants and Receipts	Provincial Government	6 213 916	10 994 300
Current Finance Lease Obligations	Current Finance Lease Obligations	-	(12 927)
Current Borrowings	Development Bank of South Africa	-	633 869
Total Financial Liabilities		103 105 888	81 106 228

No Financial Instruments of the municipality have been reclassified during the year.

58.2 Capital Risk Management

The capital structure of the municipality consists of debt, which includes Cash and Cash Equivalents and Equity, comprising Funds, Reserves and Accumulated Surplus as disclosed in Note 26. and the Statement of Changes in Net Assets.

Gearing Ratio

The gearing ratio at the year-end was as follows:

Debt Cash and Cash Equivalents	- (20 725 882)	633 869 (30 934 238)
Net Debt	(20 725 882)	(30 300 369)
Equity	198 891 369	230 856 328
Net debt to equity ratio	-10,42%	-13,13%

Debt is defined as Long-term Liabilities, together with its Short-term Portion.

Equity includes all Funds and Reserves of the municipality, disclosed as Net Assets in the Statement of Financial Performance and Net Debt as described above

58.3 Financial Risk Management Objectives

The Accounting Officer has overall responsibility for the establishment and oversight of the municipality's risk management framework. The municipality's risk management policies are established to identify and analyse the risks faced by the municipality, to set appropriate risk limits and controls and to monitor risks and adherence to limits.

Due to the largely non-trading nature of activities and the way in which they are financed, municipalities are not exposed to the degree of financial risk faced by business entities. Financial Instruments play a much more limited role in creating or changing risks that would be typical of listed companies to which the IAS's mainly apply. Generally, Financial Assets and Liabilities are generated by day-to-day operational activities and are not held to manage the risks facing the municipality in undertaking its activities.

The Department Financial Services monitors and manages the financial risks relating to the operations through internal policies and procedures. These risks include interest rate risk, credit risk and liquidity risk. Compliance with policies and procedures is reviewed by the internal auditors on a continuous basis, and annually by external auditors. The municipality does not enter into or trade financial instruments for speculative purposes.

Internal audit, responsible for initiating a control framework and monitoring and responding to potential risk, reports periodically to the municipality's audit committee, an independent body that monitors the effectiveness of the internal audit function.

Further quantitative disclosures are included throughout these Annual Financial Statements.

58.4 Significant Risks

It is the policy of the municipality to disclose information that enables the user of its Annual Financial Statements to evaluate the nature and extent of risks arising from Financial Instruments to which the municipality is exposed on the reporting date.

The municipality has exposure to the following risks from its operations in Financial Instruments:

- Credit Risk;
- Liquidity Risk; and
- Market Risk.

Risks and exposures are disclosed as follows:

Market Risk

Market Risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and equity prices will affect the municipality's income or the value of its holdings in Financial Instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

Credit Risk

Credit Risk is the risk of financial loss to the municipality if a customer or counterparty to a Financial Instrument fails to meet its contractual obligations and arises principally from the municipality's receivables from customers and investment securities.

Liquidity Risk

Liquidity Risk is the risk that the municipality will encounter difficulty in meeting the obligations associated with its Financial Liabilities that are settled by delivering cash or another financial asset. The municipality's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the municipality's reputation.

Liquidity Risk is managed by ensuring that all assets are reinvested at maturity at competitive interest rates in relation to cash flow requirements. Liabilities are managed by ensuring that all contractual payments are met on a timeous basis and, if required, additional new arrangements are established at competitive rates to ensure that cash flow requirements are met.

A maturity analysis for Financial Liabilities (where applicable) that shows the remaining undiscounted contractual maturities is disclosed in to the Annual Financial Statements.

58.5 Market Risk

The municipality's activities expose it primarily to the financial risks of changes in interest rates. No formal policy exists to hedge volatilities in the interest rate market.

There has been no change to the municipality's exposure to market risks or the manner in which it manages and measures the risk.

58.5.1 Foreign Currency Risk Management

The municipality's activities do not expose it to the financial risks of foreign currency and therefore has no formal policy to hedge volatilities in the interest rate market.

58.5.2 Interest Rate Risk Management

Interest Rate Risk is defined as the risk that the fair value or future cash flows associated with a financial instrument will fluctuate in amount as a result of market interest changes.

Potential concentrations of interest rate risk consist mainly of variable rate deposit investments, long-term receivables, consumer debtors, other debtors, bank and cash balances.

The municipality limits its counterparty exposures from its money market investment operations by only dealing with Absa Bank, First National Bank, Nedbank and Standard Bank. No investments with a tenure exceeding twelve months are made.

Long-term Receivables and Other Debtors are individually evaluated annually at Balance Sheet date for impairment or discounting. A report on the various categories of debtors is drafted to substantiate such evaluation and subsequent impairment / discounting, where applicable.

The municipality is exposed to credit interest rate risk as the municipality has borrowings.

The municipality's exposures to interest rates on Financial Assets and Financial Liabilities are detailed in the Credit Risk Management section of this note.

Interest Rate Sensitivity Analysis

The sensitivity analysis has been determined based on the exposure to interest rates at the Statement of Financial Position date. The analysis is prepared by averaging the amount of the investment at the beginning of the financial year and the amount of the investment at the end of the financial year. A 25 basis point increase or decrease was used, which represents management's assessment of the reasonably possible change in interest rates.

Cash and Cash Equivalents:

If interest rates had been 25 basis points higher / lower and all other variables were held constant, the municipality's:

• Surplus for the year ended 30 June 2023 would have increased / decreased by R64 568 (30 June 2022: R113 281). This is mainly attributable to the municipality's exposure to interest rates on its variable rate investments.

58.6 Credit Risk Management

Credit Risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the municipality. The municipality has a sound credit control and debt collection policy and obtains sufficient collateral, where appropriate, as a means of mitigating the risk of financial loss from defaults. The municipality uses its own trading records to assess its major customers. The municipality's exposure of its counterparties are monitored regularly.

Potential concentrations of credit rate risk consist mainly of variable rate deposit investments, long-term receivables, consumer debtors, other debtors, bank and cash balances.

Investments/Bank, Cash and Cash Equivalents

The municipality limits its counterparty exposures from its money market investment operations (financial assets that are neither past due nor impaired) by only dealing with Absa Bank, First National Bank, Nedbank and Standard Bank. No investments with a tenure exceeding twelve months are made

Trade and Other Receivables

There were no material changes in the exposure to credit risk and its objectives, policies and processes for managing and measuring the risk during the year under review. The municipality's maximum exposure to credit risk is represented by the carrying value of each financial asset in the Statement of Financial Position, without taking into account the value of any collateral obtained. The municipality has no significant concentration of credit risk, with exposure spread over a large number of consumers, and is not concentrated in any particular sector or geographical area.

The municipality establishes an allowance for impairment that represents its estimate of anticipated losses in respect of trade and other receivables.

Long-term Receivables and Other Debtors are individually evaluated annually at reporting date for impairment or discounting. A report on the various categories of debtors is drafted to substantiate such evaluation and subsequent impairment / discounting, where applicable.

2022

Credit quality Groupings:

High - High certainty of timely payment. Liquidity factors are strong and the risk of non-payment is small.

Medium - Reasonable certainty of timely payment. Liquidity factors are sound, although ongoing funding needs may enlarge financing requirement. The risk of non-payment is small.

Low - Satisfactory liquidity factors and other factors which qualify the entity as investment grade. However, the risk factors of non-payment are larger.

None of the financial assets that are fully performing, have been renegotiated in the last year.

KANNALAND MUNICIPALITY NOTES TO THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2023

58. FINANCIAL INSTRUMENTS (Continued)

58.1 Liquidity Risk Management

Ultimate responsibility for liquidity risk management rests with the Council, which has built an appropriate liquidity risk management framework for the management of the municipality's short, medium and long-term funding and liquidity management requirements. The municipality manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows and matching the maturity profiles of financial assets and

Liquidity and Interest Risk Tables

The municipality ensures that it has sufficient cash on demand or access to facilities to meet expected operational expenses through the use of cash flow forecasts.

The following tables detail the municipality's remaining contractual maturity for its non-derivative financial liabilities. The tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the municipality can be required to pay.

Description	Average effective	Total	1 - 6	6 - 12	1 - 2	2 - 5	More than
	Interest Rate		Months	Months	Years	Years	5 Years

			37 685 892	37 675 892	3 000	3 000	4 000	

The municipality does not have any financing facilities and expects to meet its obligations from operating cash flows and proceeds of maturing financial assets and to maintain current debt to equity ratio.

58.2 Other Price Risks

The municipality is not exposed to equity price risks arising from equity investments as the municipality does not trade these investments.

KANNALAND MUNICIPALITY NOTES TO THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2023

59. MULTI-EMPLOYER RETIREMENT BENEFIT INFORMATION

The municipality makes provision for post-retirement benefits to eligible councillors and employees, who belong to different pension schemes. All councillors belong to the Pension Fund for Municipal Councillors, whilst employees belong to a variety of approved Pension and Provident Funds as described below

Council contribute to the Government Employees Pension Fund, IMATU Retirement Fund, Municipal Council Pension Fund and SAMWU National Provident Fund which are defined contribution funds. The retirement benefit fund is subject to the Pension Fund Act, 1956, with pension being calculated on the pensionable remuneration paid. Current contributions by Council are charged against expenditure on the basis of current service costs.

These funds are governed by the Pension Funds Act and include both defined benefit and defined contribution schemes.

All of these aforementioned funds are multi-employer plans and are subject to either a tri-annual, bi-annual or annual actuarial valuation, details which are provided below.

Sufficient information is not available to use defined benefit accounting for the pension and retirement funds, due to the following reasons:-

- (i) The assets of each fund are held in one portfolio and are not notionally allocated to each of the participating employers.
- (ii) One set of financial statements are compiled for each fund and financial statements are not drafted for each participating employer.
- (iii) The same rate of contribution applies to all participating employers and no regard is paid to differences in the membership distribution of the participating employers.

It is therefore seen that each fund operates as a single entity and is not divided into sub-funds for each participating employer.

The only obligation of the municipality with respect to the retirement benefit plans is to make the specified contributions. Where councillors / employees leave the plans prior to full vesting of the contributions, the contributions payable by the municipality are reduced by the amount of forfeited

The total expense recognised in the Statement of Financial Performance of R6 713 702 (2022: R6 370 830) represents contributions payable to these plans by the municipality at rates specified in the rules of the plans. These contributions have been expensed.

The Retirement Funds have been valued by making use of the Discounted Cash Flow method of valuation.

59.1 DEFINED BENEFIT SCHEMES

LA Retirement Fund, previously Cape Joint Pension Fund (Defined Benefit Scheme):

The scheme is subject to an annual actuarial valuation which is not the responsibility of the Municipality. The last statutory valuation was performed as at 30 June 2018.

The contribution rate payable is under the defined benefit section is 27%, 9% by the members and 18% by their councils. The actuarial valuation report at 30 June 2018 disclosed an actuarial valuation amounting to R1 776 (2017: R1 859) million, with a surplus of R63 (2017: R47) million, with a funding level of 103.7% (2017: 102.6%).

Government Employees Pension Fund (GEPF):

The scheme is subject to an tri-annual actuarial valuation. The last statutory valuation was performed as at 31 March 2018.

The statutory valuation performed as at 31 March 2018 revealed that the fund had net assets to the amount of R1 800 068 (31 March 2016: R1 629 923) million, with a funding level of 108,3% (31 March 2016: 115,8%). The contribution rate paid by the members (7,50%) and the municipalities (16% in respect of "services" members and 13% in respect of "other" members) is not sufficient to fund the benefits accruing from the fund in the future.

Based on the best-estimate actuarial valuation basis, and ignoring the excess of the assets over the best-estimate liabilities, the required employer contribution rate is 18.9% of pensionable salary in respect of "services" members and 14.4% of pensionable salary in respect of "other" members, reflecting the differences in the benefit structure of these two categories of members. The shortfall in the required contribution rate is estimated to amount to some R5 600 million over the forthcoming year and can be afforded from the excess of the assets over the best-estimate liabilities.

59.2 DEFINED CONTRIBUTION SCHEMES

Consolidated Retirement Fund for Local Government (previously Cape Joint Retirement Fund):

The scheme is subject to an tri-annual actuarial valuation which is not the responsibility of the Municipality. The last statutory valuation was performed as at 30 June 2018.

The statutory valuation performed as at 30 June 2018 revealed that the assets of the fund amounted to R24 108 (30 June 2017: R21 359) million, with funding levels of 100,4% and 128,0% (2017: 100,0% and 127,3%) for the Share Account and the Pensions Account respectively. The contribution rate paid by the members (7,5% or 9,0%) and the municipalities (19,50%) is sufficient to fund the benefits accruing from the fund in the future.

IMATU Retirement Fund:

No information could be obtained.

LA Retirement Fund (previously Cape Joint Pension Fund):

The scheme is subject to an annual actuarial valuation which is not the responsibility of the Municipality. The last statutory valuation was performed as at 30 June 2018.

The actuarial valuation report at 30 June 2018 indicated that the defined contribution scheme of the fund is in a sound financial position, with a assets amounting to R2 018 (2017: R1 912) million, net investment reserve of R0 (2017: R0) million and a funding level of 100.0% (2017: 100.0%).

Municipal Councillors Pension Fund:

The scheme is subject to a tri-annual actuarial valuation. The last statutory valuation was performed as at 30 June 2015.

The statutory valuation performed as at 30 June 2015 revealed that the net assets of the fund were R2 552 (30 June 2012: R1 184) million, with a funding level of 101,8% (30 June 2012: 99,5%). The contribution rate paid by the members (13,75%) and Council (15,00%) is sufficient to fund the benefits accruing from the fund in the future.

As reported by the Actuaries, the Fund was following an appropriate investment strategy during the valuation period.

The appointment of a Curator in terms of section 5(1) of the Financial Institutions (protection of funds) Act 2001 for the whole of the business of the Municipal Councillors Pension Fund was done in December 2017. Due to the provisional curatorship, a short moratorium has been placed on the payment of benefits to members/beneficiaries. In terms of the curatorship order, the Court ordered as follows: 1. The provisional Curatorship order of the 19th December 2017 is made a final; 2. The Curator shall furnish the Registrar of the Pension Fund with progress report; 3. The Curator must deliver a further progress report to the Court by no later than 31st October 2018 which report deals with the status of curatorship as at the 30th September 2018; on the curatorship once every two months.

No further information could be obtained.

Municipal Workers Retirement Fund (previously South African Municipal Workers' Union Provident Fund):

The scheme is subject to a tri-annual actuarial valuation. The last statutory valuation was performed as at 30 June 2017.

The contribution rate payable is not less than 7,5% by the members and 18% by their councils. As from 1 July 2017, members and employers that fall under other bargaining councils or forums are not bound by the above minimum contribution rates.

The actuarial valuation report at 30 June 2017 disclosed assets amounting to R7 721 (2014: R6 575) million, with a funding level of 102,0% (2014: 111,7%). The Fund's assets are sufficient to cover the members' Fund Credits The Fund is therefore in a sound financial position.

None of the above mentioned plans are State Plans.

60. RELATED PARTY TRANSACTIONS

All Related Party Transactions are conducted at arm's length, unless stated otherwise.

60.1 Services rendered to Related Parties

During the year the Municipality rendered services to the following related parties that are related to the Municipality as indicated:

	Rates Charges R	Service Charges R	Sundry Charges R	Outstanding Balances R
Councillors Municipal Manager and Section 57 Personnel	9 727	49 504		
Total Services	9 727	49 504		
Councillors Municipal Manager and Section 57 Personnel	13 485 3 757	100 615 19 935	2 088 1	10 665 1 290
Total Services	17 242	120 550	2 089	11 955

The services rendered to Related Parties are charged at approved tariffs that were advertised to the public. No Bad Debts were written off or recognised in respect of amounts owed by Related Parties.

The amounts outstanding are unsecured and will be settled in cash. Consumer Deposits were received from Councillors, the Municipal Manager and Section 57 Personnel. No expense has been recognised in the period for bad or doubtful debts in respect of the amounts owed by related parties.

60.2 Loans granted to Related Parties

In terms of the MFMA, the Municipality may not grant loans to its Councillors, Management, Staff and Public with effect from 1 July 2004. No loans were granted to Councillors, Management, Staff and Public by the municipality.

60.3 Compensation of Related Parties

Compensation of Key Management Personnel and Councillors is set out in Notes 37 and 38, and Appendix G, to the Annual Financial Statements.

R 61. CONTINGENT LIABILITIES 61.1 Court Proceedings: 7 095 000 1 430 000 Court Proceedings arose due to various claims brought against the Municipality. 2023

2022

61.2 Insurance Claims:

(i) Alleged Damages Incurred:
Claims lodged against the municipality for alleged damages caused by incidents of which the municipality should take ownership, have been referred to the municipality's insurers.

62. CONTINGENT ASSETS

The municipality was not engaged in any transaction or event during the year under review involving Contingent Assets.

	62.1 Insurance Claims:		241 588
	(i) Lost / Damaged Assets: The municipality has claims outstanding against its Insurers for lost and/or damaged assets. The management believe that it is probable that the claims will be successful and that compensation of R0 (2022: R157 873) will be recovered.	-	157 873
	(ii) Motor Vehicle Accident: Third party liabilities. 62.2 Other:	<u>-</u>	83 715 204 640
	The municipality in prior year overpaid supplier in respect of Retention Monies owed. The suppliers were overpaid respectively R 15 765,60 (PLE Irrigation Services) and R 188 874,79 (URHWEBO E TRANSAND)		204 640,00
63.	IN-KIND DONATIONS AND ASSISTANCE		
	The municipality received the following in-kind donations and assistance: (ii) National Treasury paid external audit fees on behalf of Kannaland Local Municipality		4 619 121

64. EVENTS AFTER THE REPORTING DATE

The Municipality setteld an amount of R2,8 million to Susanna Magdalena Steyn after the Labour Court ruled in her favor on 9 July 2023 that her dismissal was substantively unfair. This settlment amount has been accrued for in payroll cost for the current financial year.

65. COMPARATIVE FIGURES

The comparative figures were restated as a result of the effect of Prior Period Errors (Note 51.).

66. OTHER EXTRAORDINARY DISCLOSURES

66.1 COVID-19 EXPENDITURE

Background Information

On 31st December 2019 the government in Wuhan, China, confirmed that health authorities were treating dozens of pneumonia cases of unknown cause. A few days later, Chinese researchers identified a new virus which had infected many people in Asia, but at that point in time there was no evidence that the virus was readily spread by humans. The first death in China as a result of the virus was reported on 11th January 2020, shortly before one of China's biggest holidays whereby millions of people travelled across the country. According to the first situation report by World Health Organisation (W.H.O), the first confirmed cases outside China had occurred in Japan, South Korea and Thailand by 20th January 2020. The next day the USA reported their first confirmed case where a man in his 30s developed symptoms after returning from his trip to Wuhan, China.

A "public health emergency of international concern" was officially declared by the W.H.O. on 30th January 2020. On 11th February 2020 the W.H.O. proposed that 'Covid-19' be the official name for the disease that the coronavirus causes, an acronym that stands for coronavirus disease 2019. On 14th February 2020 France announced a death by from coronavirus. This was the fourth death from the virus outside of mainland China. On 23rd February 2020 Italian officials locked down 10 towns after a cluster of cases emerged near Milan. The World Health Organisation declared the COVID-19 outbreak as a global pandemic on 11th March 2020.

COVID-19 in South Africa

Although the coronavirus was international news since December 2019, it was only on 5th March 2020 that the South African National Institute for Communicable Diseases confirmed that a suspected case of COVID-19 had tested positive. On 23rd March 2020 President Cyril Ramaphosa announced the nationwide lockdown. On 30th March 2020 the Minister of Finance issued a conditional Exemption Notice in terms of section 177(1)(b) of the Municipal Finance Management Act, 2003 (Act No. 56 of 2003) (MFMA), in order to facilitate and enable the performance of legislative responsibilities by municipalities and municipal entities during the national state of disaster.

67. GOING CONCERN ASSESSMENT

The COVID-19 pandemic continues to have a devastating impact on the macro economy and a significant component of the institutions which operate therein. The municipality has not been immune to the impact of the pandemic. The impact and duration of the COVID-19 pandemic in the Province and Kannaland's jurisdiction is uncertain at the date of this submission. Management of the municipality is however of the opinion that regardless of the possible effect of the COVID-19 pandemic, the municipality will continue to operate for the foreseeable future, which is usually regarded as at least the next 12 months from the reporting date, however not limited to this timeframe.

The municipality continues to experience serious financial constraints and it has put in place a Budget Funding Plan which has full support from Provincial Treasury to ensure that the municipality is financial sustainable in the next Medium Term Revenue and Expenditure Framework (MTREF). The municipality will be required to report on monthly basis and Treasury will monitor and evaluate the progress when necessary.

Thus the Annual Financial Statements have been prepared on a going concern basis. Kannaland Municipality has neither the intention nor the need to liquidate or curtail materially the scale of its operations and will continue to operate as a going concern for at least the next 12 months. The municipality approved a budget funding plan to address the budget deficit and to ensure that the municipality will have the necessary resources to continue its operations.

Management also considered the following matters in relation to the Going Concern position of Kannaland Municipality:

- (i) The municipality has a positive bank balance of R980,551 with Standard Bank compared to R6,402,670 in the prior year and a positive cash book balance of R2,910,493 compared to R7,845,241 in the prior year.
- (ii) The municipality has call investment deposits for the current year of R18 612 860 compared to R27 292 284 in the prior year.
- (iii) The municipality had an actual surplus of R-34 014 298 for the current financial year compared to R-13 151 674 in the prior year.
- (iv) There was an decrease in the current ratio to 0.29:1 from 0.56:1 in the prior year. However, it is still below a norm of 1:1.
- (v) The municipality is however experiencing difficulty to settle its current liabilities as its net current asset position is insufficient. The current liabilities exceed the current assets with R78 119 189 (2022: R47 534 475).
- (vi) The average debtors' payment days decreased from 145 days to 141 days. The average creditors' payment days increased to 212 days from 192
- (vii) The municipality had signed repayment agreements with Eskom to repay long outstanding amounts and will in all likelihood have similar repayment agreements with Eskom and other long outstanding creditors going forward. These agreement were adhered to during the course of the

Unless sustainable economic growth is achieved, the municipality will face challenges to function as a going concern without government grants and subsidies going forward.

KANNALAND MUNICIPALITY

NOTES TO THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2023

68. SEGMENT REPORTING

For management purposes the municipality is broadly organised into business units based on the nature of operations and the services they provide. The municipality has seven primary reportable segments:

• The segment for Municipal Governance and Administration Services:-

- This segment consists of services such as executive services, support services to the executive and finance & administration services.

• The segment for Community and Public Safety Services:-

- This segment consists of all services for community & social development, public safety and sport & recreation.

. The segment for Housing Services:-

- This segment consists of all services for the providing of housing to the community.

. The segment for Health Services:-

- This segment consists of all services for the providing of health to the community.

• The segment for Economic and Environmental Services:-

- This segment consists of environmental services such as planning & development, environmental protectin and roads & storm water.

. The segment for Trading Services:-

- This segment consists of the following infrastructure services delivered to the community.

• The segment for Energy Sources:-

- This segment consists of all services for energy supply to the community.

• The segment for Waste Management:-

- This segment consists of all services for the management of solid waste in the municipal area.

• The segment for Waste Water Management:-

- This segment consists of all services for the management of waste water, including sewage, in the municipal area.

• The segment for Water Management:-

- This segment consists of all services for water supply to the community.

. The segment for Other Services:-

- This segment consists of minor services rendered in the municipal jurisdiction area.

No individually material operating segments have been aggregated to form the above reportable operating segments.

Management monitors the operating results of its business units separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on non-financial metrics and the segment's operating surplus or deficit, measured consistently with the accounting policies applied in the Annual Financial Statements. However, the municipality's financing (including finance costs and finance income) and revenue from taxes are managed on a group basis and are not allocated to operating segments.

Inter-business unit services are not valued and are deemed to have been supplied for no consideration, and are therefore not eliminated. However, the quality of services provided internally is monitored as part of the non-financial service performance information.

The municipality operates within the following geographical areas:

Ward	Area
1	Caltizdop
2	Ladismith
3	Van Wyksdorp
4	Zoar

The municipality does however not monitor operating results for these geographical segments, and operational results are only monitored within the business units as previously disclosed.
