Revenue by Source

Operating expenditure by type

The major categories of expenditure are all on target, with year to date expenditure being 8% (R 0.782 million)³, above budgeted projections.

Refer to Section 4 – Table C4 for further explanations on both revenue by source and expenditure by type.

Capital Expenditure

The capital expenditure is behind target, with year-to-date expenditure being R 3 945 million, or -0.092%, of a total budget of R 42.475 million⁴. Refer to Section 4 – Table C5 for more detail.

Cash flows

There has been no material change in the cash flow or yearend predictions since last month.

4.1.2 Table C2: Monthly Budget Statement - Financial Performance (standard classification)

This table reflects the operating budget (Financial Performance) in the standard classifications which are the Government Finance Statistics Functions and Sub-functions. These are used by National Treasury to assist the compilation of national and international accounts for comparison purposes, regardless of the unique organisational structures used by the different institutions.

The main functions are Governance and administration; Community and public safety; Economic and environmental services; and Trading services.

It is for this reason that Financial Performance is reported in standard classification, Table C2, and by municipal vote, Table C3.

4.1.3 Table C3: Monthly Budget Statement - Financial Performance (revenue and expenditure by municipal vote)

The operating expenditure budget is approved by Council on the municipal vote level.

The municipal votes reflect the organisational structure of the municipality which is made up of the following directorates: Executive Council, Corporate Services, Financial Services and Technical Services.

Unauthorised expenditure by year end would occur either for the municipality as a whole if the adjusted budget for 'Total Expenditure by Vote' or if any of the individual budgets for any specific vote/s were overspent.

The Total Expenditure by Vote budget is not overspent, but currently for the accumulated totals to SEPTEMBER 2016 the following Votes (also known as Directorates) reflect unauthorised expenditure against their year-to-date budgets: Executive Council, Financial Services.

However, they have not yet overspent their total adjusted budget allocations and the current unauthorised status would only be able to be determined once annual actual results have been calculated.

Table C5 consists of three distinct sections:

- Appropriations by vote:
 - Which are the budget allocations that are approved by Council in the annual and adjustment budgets (similar to the expenditure by vote in Table C3).
 - If any of these annual budgets (either for Council as a whole or any individual vote) are overspent then unauthorised expenditure will have occurred. There was no unauthorised expenditure on any vote.

Standard classification:

Similar to Table C2 this portion reflects the capital budget in the standard classifications which
are the Government Finance Statistics Functions and Subfunctions. These are used by National
Treasury to assist the compilation of national and international accounts for comparison
purposes, regardless of the unique organisational structures used by the different institutions.

Funding portion:

- This section reflects how the capital budget has been funded by the different sources of capital revenue
- o It is very important that national government grants are fully spent by year end otherwise they will have to be repaid to the national revenue fund.
- o Provincial grants should also be utilised but should any unspent portion remain then the provincial departments do not at this time require repayment.

The value reflected in the Financial Position⁵ will not reconcile to the Debtors Age Analysis shown on Table SC3. The financial position includes the provision made for bad debts and some debtor classifications which do not form part of the consumer debtors, whereas the age analysis only includes consumer amounts on the Debtors module of SAMRAS.
